"TO UPLIFT AND BENEFIT MANKIND" says THE REV. JAMES STANLEY WENZ.

WONDERFUL BOOK DESCRIBING THIS STRANGE FORCE AND A CHARACTER DELINEATION POST TO ALL WHO WRITE AT ONCE.

The National Institute of Science The Rev. James Stanley Wenz, of London, England, has appropriated \$25,000 toward a fund for the free distribution of Prof. Knowles' new book, "The Key to the Development of the Inner Forces." The book lays bare many astounding facts concerning the practices of Eastern Yogis, and explains a wonderfully simple system for the development of Personal Magnetism, Hypnotic and Telepathic Powers, and the curing of diseases and habits without drugs. The subjects of practical character reading is also extensively dealt with, and the author describes a simple method of accurately reading the secret thoughts and desires of others through thousands of miles away. The almost endless stream of letters requesting copies of the book and character delineations indicate clearly the universal interest in Psychological and Occult Sciences. "That Prof. Knowles' system is exciting the interest of the brightest intellect of the present day is clearly shown by the scores of recommendations among which the following, from representative British publications, the clergy and the medical profession are striking examples—

Prof. Elmer E. Knowles, author of "The Key to the Development of the Inner Forces."

The Christian Age.—"Professor Knowles' System has cured disease, corrected bad habits, strengthened memory, and proved highly beneficial in the cultivation of personality and Personal Influence."
The London Weekly Times.—"Professor Elmer E. Knowles' Complete System of Personal Influence and Healing provides the embryo enthusiast with just such knowledge as could be adapted to his own personal circumstances and inclinations."
The London—"Professor Knowles' System embraces a great deal of erudition in a form which can be readily grasped by all who have the ability to read and understand simple prose. No better help towards success in life could be desired."
Modern Society.—"No modern investigator along psychological lines has received so large an amount of praise as that accorded to Professor Elmer E. Knowles for his marvelous System of Personal Influence and Healing. Here at last is a man who is at once a great scholar, a born teacher and a practical helper—the instruction papers reveal a nature which is sympathetic and of good fellowship for an ambitious, yet largely misguided population."

A leading London Physician, Dr. R. N. Pickering, M. R. C. S., L. R. C. P., writes:—"I consider your system the most complete and accurate literature upon the subject, which I have treated the science with much ability."
A prominent American Physician, A. W. Fisher, M. D., Ph. D., M. E., Principal of the Douglas Institute, writes:—"Your system is very useful to me in my practice."
The National Institute of Sciences has therefore undertaken the somewhat arduous task of distributing broadcast, without regard for class or creed, the information heretofore possessed by the few. In addition to supplying the books free, each person who writes at once will also receive a character delineation of from 400 to 500 words as prepared by Prof. Knowles.
If you wish a copy of Prof. Knowles' book and a Character Delineation simply copy the following verse in your own handwriting:—"I want power of mind, Force and strength in my look. Please read my character And send me your book."
Also send your full name and address (state whether Mr., Mrs., or Miss), write plainly, and address your letter to: National Institute of Sciences, Dept. 945, C. No. 258 Westminster Bridge Road, London, S. E., England. If you wish you may enclose (10 cents (stamps of your own country) to pay postage, etc. Postage on letters to England, 2 cents.

LONDON, July 3.—The condition of affairs in the Balkan rupture is extraordinary. The twenty-four hours which Bulgarian government accorded to Greece and Serbia to cease operations have expired. During the same period Bulgaria undertook to abstain from hostilities in order to give Russia time to intervene in favor of

peace. Hostilities are being carried on on both sides with the fierceness characteristic of Balkan soldiers and no declaration of war has been made. The respective diplomatic representatives are still at their posts. Now there is only the faintest hope that Russia or the Powers will be able to prevent a struggle which will decide whether Bulgaria shall be preeminent in the Balkan confederation. New complication arose to-day in the decision of Roumania to mobilize her army. What role Roumania will play is unknown but it is regarded as likely she will wait the turn of the war and then side with the stronger force.

Roumania's mobilization causes uneasiness as it offends Austria and is regarded as a defeat for Austrian diplomacy. Little news is to hand regarding the actual fighting in Macedonia, but it is believed that Bil-

garia has a plan to prevent Greek and Serbian troops from uniting and it is reported the Bulgarians are now executing a flanking movement in the direction of Egri Palanka. (Canadian Press)

LONDON, July 3.—Reports now are that the Servians' losses in the first three days' fighting were 6,000 killed and wounded. This includes the great battle at Ovatchapolya. The Servians captured 2,000 prisoners and 30 guns from the Bulgarians whose casualties exceeded those of the Servians.

That very heavy fighting occurred is confirmed by the arrival of 3,000 wounded at Belgrade. Official reports at Athens claim the capture of several important towns by Servians and Greeks. It is also reported that the Bulgarians are preparing to attack Salonika and a great battle is imminent.

BEAVER FLOUR

You can't judge quality by size—and this applies to bread as well as to men.

YOU may have an idea because western wheat flour makes a big loaf of bread, that the quality is in keeping with the size. The largest men have not accomplished the greatest deeds.

Size is the only feature that can commend western wheat flour to any cook. And the good cook quickly discovers that quantity without quality is not worth buying.

"BEAVER" FLOUR GIVES BOTH QUALITY AND QUANTITY, because it is a blended flour. It is mostly the choicest Ontario fall wheat with sufficient Manitoba spring wheat to equalize the strength.

In "Beaver" Flour, you get the famous pastry-making qualities of Ontario wheat—you get the fine texture, the evenness and the delicious flavor of Ontario wheat—you get the nutriment of Ontario wheat—with the "strength" of Manitoba wheat which makes the dough "stand up" in the oven.

One of the big conveniences of "Beaver" Flour is the fact that it is equally good for bread and pastry—and best for both.

"Beaver" Flour is superior to any western wheat flour for any and all kinds of baking, and is the cheapest flour you can use because the most economical.

Nearly half of the families in Canada leave it to him to call them up in the morning; nearly half the families in Canada use him all day long to tell the right time by. He is really two good clocks in one—a crackerjack of a time-keeper and a crackerjack of an alarm-keeper. Big Ben stands seven inches tall. He is triple nickel-plated and wears an inner vest of steel that insures him for life. His big, bold figures and hands are easy to read in the dim morning light.
