BURNS' KINDNESS LANDS HIM IN BED

LONDON, June 24.—For the first time in thirty years John Burns is confined to his bed. Mr. Burns has the reputation of being wholly unable to witness an accident or sudden sickness without at once interesting himself to the extent of offering first aid. Last week in Piccadilly he came upon a policeman pinned against a heavy van by a taxicab. The taxicab driver was drunk. Burns dashed forward and attempted to pull the taxicab away from the policeman by main strength. He suffered severe internal strain and is likely to remain in bed for some time.

THE SCARLET LETTER

Nathaniel Hawthorne's World Famous Story at New Wonderland To-night.

Familiar to all readers of good fiction—appealing to all instincts of bravery and submission under a multitude of wrongs—grand in the courage which prompted a man to acknowledge the wrong done the woman he loved—so the story which Nathaniel Hawthorne has made immortal, has been handed down to those who came after him, to teach and warn and make an example of. To-night the story will be told at New Wonderland, the faithful films giving the depiction of a great wrong—the tardy justice which came too late, and the great courage of "just a woman." Every one should see it—one of the most famous stories ever told to the world, by one of its greatest writers. A Tramp's Revenge is a short story well told, with "Where is that Quarter" offering sufficient laughs and a rousing comedy of the highest class. It's a fine program seldom has a better one been offered any where, and what with Miss McKinnon's illustration song should fill New Wonderland with an enthusiastic audience this evening. Follow the crowd to New Wonderland tonight.

THE FORESTERS WERE IGNORED

TORONTO, June 24—The Independent Order of Foresters is being deliberately ignored in the arrangements for the funeral of the late Henry A. Collins, late Supreme Treasurer. The family feel keenly the treatment accorded Mr. Collins during the past week, and blame it for hastening his demise. They have therefore intimated that they do not desire the Foresters to officially attend the funeral as the order would naturally do in the case of so prominent official. The order will, however, send a wreath and many members will likely attend in their personal capacity. Mr. Collins will be buried with Masonic honors and there will be a large attendance of several Masonic lodges.

Secretary of the Amateur Athletic Association, has not received any objections to Longboat's entry, and before the A. A. A. could notice any objection, it must be in the shape of a specific charge. Mr. Fisher knows nothing with regard to the rumors emanating from New York sources that Longboat's entry has been refused by A. A. A.

FIRED TORPEDO INTO MONITOR

FORT MONROE, Va., June 21.—A torpedo test of the monitor Florida took place Saturday, and naval officials declared it was satisfactory. The damage done, it is said, was largely localized. The vessel was seriously though not vitally injured, and if she were a battleship she would be in a condition to keep in the fight. The scene was most spectacular, as the torpedo hit the vessel just about midships and four feet below the water line, a great column of water, estimated at two hundred feet in height, and one hundred in width, rose into the air. The torpedo, guided by a trolley, struck squarely at the point mentioned and penetrated the double bottom, and the con boiler forming part of the compartment attacked. Pumps immediately went to work and preparations made to tow the vessel to the navy yard for dry-docking. The Florida listed about sixteen inches on the starboard side, but vigorous work at the pumps kept her from touching bottom. The crew of about thirty men and Admiral Mason and other officials of the ordnance bureau boarded the Monitor on reaching the place where the test was to be held, and remained there when the torpedo tore into the hull. The effect of the contact and explosion was practically the same as when a shell was fired at the monitor's turret several weeks ago.

ERUPTION ON SAMOAN ISLAND

AUCKLAND, New Zealand, June 24.—Advises received here state that for three nights beginning May 10, there was a remarkable volcanic outbreak on Savaii, the largest of the Samoan Islands. The first eruption was followed by the greatest flow of lava in the history of the island, it being estimated at nearly three thousand tons per minute. Soon there was an almost continuous sheet of lava eight miles wide, and from six inches to six feet deep, flowing down the mountain side. It over-bowed the cliffs, destroying many native houses in its way, dropping into the ocean and causing an immense uprising of steam.

CASTRO DEFIES THE WHOLE WORLD

"All the powers can conspire but Venezuela will remain impregnable while I live." According to the Maritime Correspondent the Venezuelan postal censor secured a copy of the report of the United States Military Attaché, which he made in Washington, with reference to a recent trip from Caracas to Gidad Bolivar.
