Bayer's photo show case is attracting a lot of attention these days. It is an appropriate Easter showing of photos on the popular Artura paper colored. The effect is very striking—it brings out attractively and to good effect the strong personality lines that characterizes expert photography. The proverbial "chicks" are shown, which gives the whole display a true Easter effect.

Attention is directed to the advertisement of the Middlemore Home, which appears in another column. This institution has already settled a large number of children on the Island, but the work was discontinued about 10 years ago. Mr Gerows the Canadian Manager, visited Charlottetown last May, and believing that there was an excellent opportunity here for the settlement of children he has decided to reopen the work. The first party for the Island will arrive at Halifax on the Allan Liner "Mongolian" about June 4th.

The steamer Hillsboro is now running on the route between Charlottetown and Rocky Point. She was put on last Friday, previous to which time ferry service has been efficiently maintained by Ernest McInnis of Rocky Point, who by means of one of the Capes' ice boats managed to transport passengers betwixt the two points notwithstanding obstructions at times in the shape of floating ice. The winds and tide cause a lot of broken drift ice to come and go within the harbor. It will probably be some days before this is cleared out.

Island boats, substituting Tatamagouche Bay for Pictou town, thus saving 55 miles in the journey from Charlottetown to Halifax. He will get a united and strong support from Truro citizens.

Persons sending advertising to The Guardian will confer a favor on the management if they will state whether they want it in The Morning Daily or Rural Daily, how long and how frequently they wish it inserted in each, and whether as a business local, display ad, or classified ad, bearing in mind that if for the latter it can run but for consecutive insertions. All ordinary amounts under one dollar are accepted on a cash in advance basis and ten per cent discount given, except to those having a regular advertising account.

At the recent Presbytery meeting, held at Halifax, an important proposition was brought forward. This was the question of instituting several bursaries in connection with the arts course in Dalhousie, for competition by students engaged in home mission work. It was felt that it would be best to offer these bursaries in the arts course as that was the most difficult part of the student's training. It is hoped that these will prove an incentive to young men to offer for the work. A small committee was appointed to consider the scheme, and report at a later meeting.

The fortieth annual report of the Royal Bank of Canada, published in illustrated book form, has been distributed. This report, like its predecessors is gotten up in splendid style and is a most attractive book. It contains first a list of the directors and officers, the names and location of the different branches and correspondents, in foreign countries, the report of the shareholders. This is accompanied by a financial statement. A list of shareholders shows that a number of investors from Prince Edward Island have purchased shares in this Bank, five hundred and nine shares being owned here. Following this latter list comes a number of tabulated statements, etc, of Dominion statistics, which are of much value to bankers, and all commercial men. A large supplementary map of the Dominion accompanies the report which aids one in locating the exact geographical position of the branches of the bank.
