The reel The Scottish Highlands which created such an impression at New Wonderland some time since, has been so repeatedly asked for by the patrons of the house, that it has been obtained again, and tonight will be shown with the additions above mentioned, and in conjunction with another new reel, making a complete change of program.

SYNOPSIS OF WHAT APPEARS TO BE A TRUE ACCOUNT OF EMPEROR'S INTERVIEW

Obtained From Emperor William by Bayard Hale and Afterwards Withdrawn When it Was About to be Published. Said to Have Taken Place on Board a Yacht. A Summarizing of the Interview. King Edward Has Been Trying to Humiliate Germany, He Says. Disgraceful War in South Africa.

NEW YORK, Nov. 22—(Special)—What purports to be an absolutely accurate and authentic synopsis of the interview obtained from Emperor William by Bayard Hale and subsequently withdrawn just as it was about to appear in the Century is printed in the World.

The World declares it is the article originally written and submitted to Hale and appears as changed by Hale.

The interview is said to have taken place on board the yacht Hopenzollen of Norway, while Hale was the

Emperor's guest.

The World summarizes the main points of the Emperor's interview as follows:—

"That King Edward has been humiliating him for two years and he was exasperated that Germany was the paramount power in Europe and England was trying to neutralize that power; that he held France in the hollow of his hand and Russia was of no account since the disastrous war with Japan.

"If a pan-European war, which has been so much talked about, was in-

evitable, the sooner it came the better it would be.

"Great Britain had been a decadent nation ever since the victory over the Transvaal and Orange Free State because hers was an unrighteous and ungodly cause and divine judgment was bound eventually to overtake any powerful nation that waged such war.

"The Anglo Japanese alliance was an iniquitous alliance against all white races, England proving absolutely her faithlessness as a Christian nation.

"Japan is honeycombing India with sedition and flooding it with spies while professing openly to be England's friend.

"The only way to counteract this alliance was for Germany and America to act together on America would have to fight the Japanese.

"In the event of a Great war, England would lose many large colonies especially in the Pacific, he would take Egypt and would liberate the Holy Land from the yoke of the infidel.

"Perfection of Zeppelin dirigible

balloon would give Germany a powerful advantage in war and she was ready to use it to the fullest extent."

"The interview had been formally arranged through the German foreign office and at the conclusion Hale returned to Berlin and told officials of the foreign office of his success.

"They forbade him to publish it," they explained and even a hint at possibilities so serious might throw the whole world into the most disastrous war of all time.

"The attitude of the officials is said to have been that the Emperor was irresponsible, when he gave way to such fits of temper.

OBLIGED TO LEAVE VICTIMS

Courageous Workers Trying to Save Victims Have to Abandon Their Undertaking.

NEW YORK, Nov. 22—(Special)—Courageous workers who are endeavoring to reach the bodies of the explosion victims, were compelled to cease digging and devote their efforts to shoring up the buildings on both sides of the street, as the force of the explosion has greatly weakened all foundations.

There is absolutely no possibility of any of the twenty five victims being recovered alive.

NOT SATISFIED WITH PROMISE

MUNICH, Nov. 21—Public feeling here is not satisfied with the results of the interview last week between Chancellor Von Buelow and Emperor William. The meeting is regarded as a partial failure because nothing clear and definite was followed up. The Chancellor may be convinced, it is argued here, that the emperor will be careful of the future, but the public men of Bavaria and the Bavarian press are awaiting the months to come in order to see for themselves to what extent the imperial practice will be changed. The Bayerischer Kurier expresses the hope that the Bundesrath will oppose strongly the personal policy in foreign affairs, and the Munich Zeitung says the audience was disappointing. The Neuste Nachrichten says: "We can only hope that the imperial promises will be kept. An urgent obligation rests upon the Reichstag."

CARNEGIE WRITES TARIFF QUESTION

NEW YORK, November 21—When questioned concerning an article by him on the tariff, which is soon to appear in a New York Magazine, Andrew Carnegie declined to deny that he had advocated the removal of the entire tariff on steel.

Mr. Carnegie's attitude was sought in view of a report that he had decided that the tariff could be removed without hitting the American steel industry and that he intended to describe this in detail in the forthcoming article. When seen yesterday Mr. Carnegie said:—

"The article has been announced in the usual fashion and it will speak for itself in a few days. It is a common article to the one on rates and rebates, which I wrote for the same magazine."

KING EDWARD RECEIVES HON. MR. LEMIEUX.

MADE PORT WITH FIRE RAGING

NORFOLK, Va., Nov. 21—Refusing all assistance, despite a raging fire in her forward hold, the steamer Chattahoochee, of the Ocean Steamship Company, plying between Savannah and Boston, made this port shortly after noon, and Captain Rowlette immediately beached his charge on the flats just below the city.

Captain Rowlette reports that the fire was discovered off the Carolina coast, and as it proved stubborn he immediately made for this port, sending the news in advance by wireless. Wrecking tugs met the steamer, but aid was refused. The crew flooded the forward compartment with water, and it is believed the fire is under control. The Chattahoochee left Savannah on Monday with a cargo of four hundred bales of cotton.

FRENCH WARSHIPS FOR ST. PIERRE

CHERBOURG, Nov. 21—The French Cruisers Admiral Aube and Guehdou yesterday received orders to take on board provisions for a long cruise. The destination of these warships is to be St. Pierre, Miquelon, where there has been more or less trouble and disorder recently among the people on account of the local school situation.

The Government has appointed Pierre Didedot, administrator of St. Pierre Miqu., and he will sail for St. Pierre next Sunday on the Cruiser Gloire. He has been given broad instructions to do everything possible to remove the cause of the discontent. M. Didedot is at one time administrator of Madagascar, and he is credited to be a liberal and competent executive.

F. A. ACLAND APPOINTED DEPUTY MINISTER OF LABOR.

OTTAWA, Nov. 21—F. A. Acland, for the past year and a half the efficient secretary of the Labor Department, and acting deputy minister during the absence of W. L. McKenzie King, has been finally appointed Deputy Minister of the Department. The appointment of a Secretary to succeed Mr. Acland will be announced shortly.

A FEMALE REFEREE FOR FOOTBALL GAME

Member of the Gentler Sex Kept Two Hustling American Elevens Down to Business.

TOLEDO, Ohio, Nov. 21—Spirits swished and a Tam-o'-Shanter bobbed merrily recently at Central Grove Park, where Sophia Henry, a Toledo girl, refereed a football game between the West Toledo and Lincoln elevens.

"Rushing pell mell into a hot scrimmage, she tugged the ball out of the hands of a player who had tried to illegally take it, placed it where it ought to be, and whistled for play to go on. The teams were so startled when she jumped into them that they forgot their signals.

A well-fitting sweater, neat blue skirt, and nobly 'tam' were not in her way at all, and the way she stepped around and took care of play was enough to convince the hundreds present that she knew the rules and

was there to enforce them. "The ball goes back to the place where the play started and Lincoln elevens penalized fifteen yards," she yelled above the babble of the players. "What for?" demanded the Lincoln captain, angrily. "The ball—"

"Never mind the talk—the ball was dead as soon as it hit the ground, and as it was an attempted forward pass," came the snapping answer, and the Lincoln leader went to his position. There was a big crowd on hand to see the fun. When it was announced that a woman was to referee some thought it was a joke. Sophia Henry, however, was on the job. It is the first instance on record where a woman has refereed a game on the gridiron.

YOUTH WENT SWIMMING

And Was Dead inside of a Week—Port Greville Boy.

HALIFAX, Nov. 21—A late issue of the Parrsboro Leader says:—

At Port Greville, last Saturday afternoon, there was laid to rest the remains of Henry Green, a bright young lad 15 years of age. His death was unexpected and the circumstances somewhat singular. He was working at Newville and about a week before his death he, with others tempted by the fine weather, went into the lake for a swim. In so doing he took cold and two days afterwards was attacked by pains in his joints and other parts of the body. The progress of disease was rapid, and in one week he passed away.

DROUGHT IN THE KNOWLTON DISTRICT

KNOWLTON, Nov. 21—There is a great scarcity of water in this vicinity owing to the long continued drought, many wells and springs which were considered unfauling having been dry for weeks. Many farmers are almost entirely without water, and have to draw it several miles for their stock. Many of them are selling off a portion of their cows owing to the scarcity of the hay crop and high prices of grain. It is feared that dairy produce will be very hard to obtain during the winter months, and consequently prices will be exorbitant. There is a poor outlook for the hay crop next season also, as the drought has greatly injured the fields. Unless a large quantity of rain falls before the winter sets in there will most probably be great suffering and much sickness caused by the low water.

APPOINTED CHIEF OF GERMAN MILITARY CABINET.

BERLIN, Nov. 21—The emperor has appointed Lieutenant-General Baron Moltze von Lyncker chief of the military cabinet. This office was made vacant by the death of General Count Huelster-Haessler. General von Lyncker is now commander of the 13th division.

FRENCH BET BIG MONEY

PARIS, Nov. 21—According to the figures of the minister of agriculture, just published, \$62,776,180 was wagered on the horse races in France last year. Since 1891, when bookmaking was suppressed and pari-mutuel betting inaugurated, the exact amount wagered is on the increase, as the figures for the first seven months of the current year already show a decrease of \$3,250,000 in pari-mutuel receipts. He asks for more stringent legislation to prevent illegal betting. The cost of operating the system is about 6 per cent, so that, after deducting another 4 per cent for the state, about 90 per cent of all the money wagered is returned to the pickers of the winners.

Of course clandestine bookmaking among the big betters still goes on, and the minister complains that it is on the increase. As the figures for the first seven months of the current year already show a decrease of \$3,250,000 in pari-mutuel receipts. He asks for more stringent legislation to prevent illegal betting. The cost of operating the system is about 6 per cent, so that, after deducting another 4 per cent for the state, about 90 per cent of all the money wagered is returned to the pickers of the winners.

THE RECOVERY OF MINTO JEWELS

Curious Story of the Recovery of Those That Were Stolen.

LONDON, Nov. 21—Details of the finding of the jewels stolen from Lady Minto when leaving India to attend the wedding of her daughter, Lady Ruby Elliot (now Viscountess Erington), are given by the 'Advocate of India.' It seems that some jewels belonging to Mr. Richmond were stolen while he was travelling from Bombay to Simla, and Mr. Richmond's butler had seen a showily dressed native visit the railway carriage in which the baggage had been deposited.

This man was found by a police sepooy on the platform at Aimers, apparently half-drunk. The sepooy went to the man and sat beside him. "You appear to be a very rich man," he remarked to the suspect. The latter admitted he owned a few rupees, and the sepooy, turning on him suddenly, said, "I know you have. You have Rs. 3,000 which you have stolen from Geo. Richmond." The thief collapsed, and offered the sepooy Rs. 500 to let him escape. The sepooy remarked that he was a poor man, but that was not enough.

The two then began to bargain, and the discussion finally ended in the thief taking the policeman to his bungalow. The pair were followed by other policemen, and the house was searched, and buried beneath the ground was discovered a quantity of jewellery and about Rs. 2,250 (£150).

Amongst the jewellery so discovered were the jewels stolen from Lady Minto, and also those stolen from Mr. Richmond. The travelling-bag was afterwards found on the railway-line from the train on to the metals, and another train had gone over it, destroying its contents.

OPPORTUNITY TO BUY A HAREM

TORONTO, Nov. 21—A droll report has reached Casa Blanca from Fez, says the correspondent of the Daily Telegraph, stating that Mulat Hadid has manifested a desire to enter into possession of the harem of Abdul Aziz. It should be noted that in Moslem States the harem is regarded as a mark of sovereignty rather than as the private and personal property of the Sultan.

Still more comical, however, is the assertion of persons who enjoy the intimate friendship of Abdul Aziz—namely, that the ex-Sultan is quite disposed to fall in with the wishes of his brother. It must not for a moment be supposed that, in his complaint attitude, Abdul Aziz wishes to please Mulat Hadid; he would be willing to make the concession for financial rather than for friendly reasons. For it must be confessed, with the modest resources now at his disposal, Abdul Aziz finds it a very difficult matter to maintain the large number of women who form the Sultan's harem.

He has, indeed, already been thinking of selling a large number of the fair creatures—Circassians who were sold to him by a French Jew of Tangier, who enjoyed the title of Provider by Sheerehan Warrant to the Imperial Harem.

MONTREAL THIEF LOST HIS NERVE

MONTREAL, Nov. 21—One of the most barefaced hold-ups of recent years was attempted yesterday afternoon in a thickly populated section of the business part of St. Henri Ward. G. J. Tolmie, cashier of the Colonial Bleaching and Printing Company, while on his way from the Bank to the firm's premises in St. Henri, carrying a satchel containing \$4,000, was stopped by a man who snatched the satchel and pointed a revolver at Tolmie exclaiming: "I'll shoot you if you follow me."

Then the hold-up man wheeled round and ran along Notre Dame Street, the Cashier in hot pursuit. The thief seemed to lose his nerve and dropped the bag containing the money, climbing up at a hayloft. Although every effort was made to effect his capture he is still at large. The streets were crowded at the time of the affair, and it is regarded by the authorities as one of the boldest attempts at robbery for a long time.

ASSETS SEEM TO BE IN DEMAND

TORONTO, November 21.—The National Trust company, liquidators of the York Loan company, have refused an offer of \$700,000 from the Assets Realization company of Chicago, for all the unsold assets of the defunct company. The offer was \$400,000 for the real estate and \$300,000 for mortgages and other assets. As there are between thirty and forty thousand feet of York Loan property yet unsold and as the property in the west end, where it is situated, is steadily rising in value, selling at from twenty-five to forty dollars a foot, the liquidators consider that the real estate of the York Loan is worth a million dollars alone.

THE PLOT WAS DISCOVERED

MANILA, Nov. 21—Evidences of an extensive plot to smuggle opium here from China have been discovered. A fortnight ago workmen employed on the military buildings at Camp Stotenberg, discovered a quantity of opium concealed in cement which had been shipped from Hong Kong. Workmen engaged yesterday on the Manila forts opened a supposed barrel of cement and found it to be half full of opium. The opium has been traced over to customs officers and the government is now investigating.

FERGIE TO EXAMINE COAL PROPERTIES

HALIFAX, Nov. 21.—Chas. Fergie, lately Superintendent of Mines for the Dominion Coal Company, arrived in the City Friday and will proceed to Cape Breton in a few days to examine some coal properties there. Asked regarding the report sent out from Montreal some days ago that he was going to examine areas that the C. P. R. were contemplating securing, Mr. Fergie said that he was going to Cape Breton to report on some properties there and would leave on Monday for Sydney. Mr. Jas. McVey, who holds a number of areas in Cape Breton which it has been reported the C.P.R. would like to acquire, is also in the City.

THIRD CONFERENCE HAS BEEN PROPOSED

THE HAGUE, Nov. 19—The Government of The Netherlands has proposed to advocate the convocation of an International Committee to arrange for a Third Peace Conference. During a debate today in Parliament on the Foreign Office Budget, Foreign Minister Van Swinderen made a general statement on international politics in the course of which he said he had declined to ask the powers for a declaration of neutrality in the case of the Netherlands, explaining that such a course would have been incompatible with the independence of Holland.
