SHANGHAI, Jan. 29.—(Friday)—(A.P.)—Japanese Marines battled Chinese of Shanghai today, broke down their resistance in a series of bloody battles in the narrow cobbled streets, and precipitated the most critical international complications of the Sino-Japanese conflict by occupying the native city.

After the occupation had been effected, Japanese aeroplanes, flying in high circles, dropped bombs on the Chapel native section. Fire started in the little mud-brick and wood houses of the area, and the Chinese population was in consternation. The bitter fighting of the occupation took place at the very edge of the international settlement.

REFUSED PASSAGE

WITHIN THE BARBED-WIRE BOUNDARIES OF THE SETTLEMENT PATROLLED THE MILITARY FORCES OF FOREIGN NATIONS, BACKED BY ARTILLERY AND TANKS, ADVANCING ALONG THE BOUNDARIES, THE JAPANESE ATTEMPTED TO BREAK THROUGH THESE DEFENSE LINES, BUT WERE REFUSED PASSAGE.

THE CIVILIAN MALE POPULATION OF THE FOREIGN CITY WAS MOBILIZED, ARMED WITH RIFLES AND PUT ON GUARD IN THE BUSINESS DISTRICT. NO CLASHES BETWEEN JAPANESE TROOPS AND THE SOLDIERS OF ANY NATION EXCEPT CHINA WERE REPORTED, BUT SHANGHAI WAS TENSE WITH APPREHENSION.

Planes Bomb City

Several hours after the first wave of the Japanese advance moved through the tiny streets of the native city, Chinese reinforcements were rushed up for a counter-attack of major proportions. They were deployed and hurriedly put into action in an effort to stem the Japanese advance. It was then that the Japanese aeroplanes were brought into play. The planes flew high but the roar of their motors was deafening to observers in the international settlement. Among the aircraft were three from the carrier Notoro.

No Branches In Shanghai

(Special to The Guardian)
TORONTO, Jan. 28.—Canadian chartered banks have no branches in Shanghai, but operate through financial correspondents. It was not felt that the occupation of the city by the Japanese would have any direct effect on Canadian banking interests, except as it influenced world conditions generally. Any Canadian interests in Shanghai would be well protected by British authorities, an official of the Royal Bank of Canada thought. Any major disturbance in China would of course be bound to effect world conditions as a whole and therefore Canadian business conditions.

SEES HOPE OF BETTER PRICES NEXT YEAR

Potato Marketing Situation Reviewed In Report Of Mr. J. W. Boulter.

Prospects of a better potato market in 1932 due to anticipated decrease in acreage this year were noted in a report on the potato marketing situation prepared by Mr. J. W. Boulter, secretary of the Potato Growers' Association, which was read at a joint meeting of potato growers and members of the Egg and Poultry Association in Prince of Wales College hall last night.

Mr. Boulter, who is now en route to England in connection with the urging of the removal of the British potato embargo, states in his report his attitude that under no circumstances should the industry in this country be endangered by allowing European potatoes entry to Canada.

Up to December last the Association moved about 600,000 bushels of seed, 160,000 sacks of certified seed are now in storage. A great part of these potatoes are booked to Canada.

For The Long Term Offenders

The suggestion that prisoners operate Pictou county limestone quarries, was contained in a letter from Don. F.
