OUR FEDERAL REPRESENTATION.

The Pioneer is of opinion that in seeking to regain and retain the full quota of six members in the Commons stipulated for at the time of the union, the Province should "go it alone". These are not the Pioneer's words, but they fairly express its position in this matter. It says: "The moment this Province makes common cause with Nova Scotia and New Brunswick in the matter of increased representation at Ottawa that moment it will help to raise a hornet's nest of opposition, not only in Quebec but in the Northwest.' This is equivalent to saying that we had better to go to battle without allies than with them.

The Parliament of Canada must presently pass a Redistribution Bill, apportioning the number of members by which each Province shall be represented in the Commons for a decade more or less in the future. This Province has already had its representation reduced below its original number. No other Province has yet suffered a reduction below its original number of representatives, but Nova Scotia and New Brunswick stand in danger of such loss. If now we want to move the Parliament of Canada to give us redress it seems reasonable to most persons that a joint effort of the three Maritime Provinces would be more likely to succeed than would the effort of Prince Edward Island standing alone.

There are certain Provinces that are either indifferent or hostile to the movement in which the Island is so deeply interested. These are Quebec, Ontario and the western Provinces. The two larger of the Maritime Provinces are interested with us in retaining the full representation with which they entered the union. But it seems inevitable that if they are to have no remedy for themselves they would almost certainly oppose any concession in this matter to be made to Prince Edward Island alone. They would naturally say, "Let all the Provinces be placed on the same footing in this matter. The Islanders want something for themselves, but are unwilling to join with us in securing like justice for their sister Maritime Provinces. Well, let them fight out their battle as best they can. Why should we vote to give them relief which they would deny to others?"

It may be said, with truth that the Island's case is stronger than that of New Brunswick or Nova Scotia. This is true, but only in part. Our special Act of Union and the conditions under which we entered the federation, give us this advantage. But in another respect our position is weaker than that of the two Provinces just named, because a portion of our original representation has been already taken away and we have submitted to it. We failed to have our right to six members respected in the first instance and we failed to have it since restored, although we were very ably and influentially represented in the Government for some years. To-day, with but five members of the Commons and without any representation in the Cabinet and with the precedent of having submitted to a reduction of our original representation, we are in a very disadvantageous position to make our battle alone.

New Brunswick and Nova Scotia are both strongly and influentially represented in the Cabinet, and they have not yet submitted to a reduction of representation below their original number. They are now in a position of common danger with us. And though they are perhaps more fully bound by the unfavorable terms of the B. N. A. Act than we are, their position is otherwise better than ours, for the reasons above stated. We cannot afford to cast off such allies as these who stand ready heartily to make common cause with us. If we do cast them off, where are we to find other help? Our five members, only three of whom are supporters of the Government, cannot be expected to secure for us the special restoration we seek. We fear The Pioneer has not considered the matter fully.

Goldwin Smith in the Toronto Sun points out that it is not beyond precedent to call an immediate session of the Legislature in Ontario at the present time as he has advocated. He says: "In 1841 the Melbourne Government having been defeated at the polls in June, Parliament was assembled in August, a month generally avoided, to settle the question of the Administration, and adjourned when that question had been settled. Time cannot have been allowed for the trial of election petitions before the decisive vote. So in 1834-1835, the King having dismissed the Melbourne Government, and a new Administration under Peel having been formed, December 31, the new Parliament was convoked in February to determine the fate of the new administration. To call a Parliament at once when the fate of an Administration is to be decided will be found, it is believed, to be the general practice in Great Britian. The question, however, is one of expediency for ourselves, and dispute about British precedents is little to the purpose. The Provincial election has taken place on an appeal to the country by the present Government, and the Government ought not to shrink from facing the result."

That Lame Back

You can hardly straighten up, the back feels so sore. There's a chance that it is kidney "trouble," and that is something which it is dangerous to neglect. The best medicine for disease of the kidneys is Dr. Pierce's Golden Medical Discovery. The use of this medicine has resulted in some remarkable cures. It increases the activity of the blood-making glands, purifies the blood and relieves the kidneys from clogging impurities.

"I feel it my duty to let you know that I have recently advised a young gentleman who was suffering badly with kidney and bladder disease to try your 'Golden Medical Discovery,'" writes Frank Startz, M. D., of Flatonia, Fayette Co., Texas. "He bought four bottles from our druggist here, and after he had used the first bottle he began to improve. Sometimes he was unable to walk ten steps; now he can ride any horse without any pain in his back and he looks as well and sound as a young boy. His age is only 28. He has suffered for nearly three years, and several other doctors called the case incurable, but I had confidence in Dr. R. V. Pierce's Golden Medical Discovery. I have been offered one hundred dollars several times already for my kind advice, but I would not accept it because I want everybody to know what Dr. Pierce's famous medicine can do.

"This testimony is absolutely true, and the reason I haven't mentioned the young gentleman's name is because he don't want to have his name published."

Accept no substitute for "Golden Medical Discovery." The sole motive for substitution is to enable the dealer to make the little more profit paid on the sale of less meritorious preparations.

Dr. Pierce's Pleasant Pellets stimulate the action of the sluggish liver. They should always be used with "Discovery" when there is need of a laxative.

DEAR SIR,—

Your circular letter of July 8th received, in reply would say that we heard of the Newspaper report last Friday, July 25th, a customer came in to buy some Kno Bug and he informed us he had seen the report in one of the Farmer's Papers but the same party has used Kno Bug and was back for more. We might say we have had to order three different lots of it, the last two lots we had to have to come by boat and rail as we could not wait for Schooner.

We hope next year to handle much more of it than we have this We have not had one complaint from it.

Yours very truly,
W. A. & A. D. IRWIN.
