

Here is an easy way to rid yourself of constipation. Take one or two

PENSILAR Pen-Lax Tablets

and cleanse your system of its accumulated waste, gently and without harmful after effects.

PENSILAR LIVER SALINE

is splendid for a torpid, lazy liver. Two teaspoonful in a half glass of cold water half an hour before breakfast, will make you feel like a new person.

E. A. FOSTER CENTRAL DRUGSTORE

DEATHS

NORTON—Suddenly at Winnipeg, on Thursday morning, August 7th Jack Norton, son of Mr. and Mrs. J. P. Norton, formerly of Cardigan Bridge in the 23rd year of his age.

RAINBOW EFFECTS.

Rainbow effects are much in vogue and there are rainbow weddings now at which the bridesmaids all appear in gowns of the same design, but each in a different hue.

Take, for instance, a very charming tulle-trousseau set offered in one of the summer shops. It contains, aside from the usual supply of lingerie, so called, all sorts of dainties for the boudoir—chaise longue cover, clothes hangers, shoe trees, cushions, bags, etc.

Agreed on That. "I am not worthy of you—not worthy. I am not worthy of you."

Cannot Hold Men In Check

Railway Shopmen in United States Everywhere Throwing Down Tools.

WASHINGTON, Aug. 8.—The threat of a railroad strike continues to spread throughout the country despite the efforts of the organized labor heads to hold the men in check until authoritative and official strike votes can be taken.

Shopmen everywhere throwing down their tools in premature strike, it was reported, were threatening national industry because, without them the railroad equipment cannot be kept in usable order at the most necessary of all times—crop-moving season.

Above that hovered the threat of an even more serious labor situation, the demand of all the organized railroad industry that the profits of the business be overhauled to retire private capital and create a tripartite control.

Reports began coming in today saying that unless railroad equipment can be kept in running order, mills, mines and factories will be threatened with closing. It was reported that there are more than 200,000 cars now out of commission.

99 Per Cent. Opposed.

Formal announcement was made tonight on the final tabulations in the referendum conducted among business men by the Chamber of Commerce of the United States on the question of Government ownership of railroads.

Meanwhile threats of hundreds of thousands of railroad employees to go on strike to force higher wages to meet the high cost of living were reiterated. From many parts of the country today came reports that striking shopmen refused to return to work despite the fact that their action was denounced as illegal by the executive council of the six shop crafts.

Funsten Bros. & Co., St. Louis, report that due to the heavy demand for furs they have been requested by a number of buyers to change our fall sale date from September 15th to September 10th.

Serious Charge Against Christian Scientists

NEW YORK, August 7.—An indictment charging manslaughter was read yesterday to Mr. and Mrs. Andrew Walker, Christian Scientists, of No. 889 South Sixth Street, Newark.

The bill returned last week by the grand jury, is based on the death of the couple's daughter, Dorothy, eight years old, on May 4th last. The Walkers pleaded not guilty and Judge Stricker fixed their bail at \$2,500 each, but reduced it to \$1,500.

During the child's illness from diphtheria over a ten days period preceding her death, it is alleged, she received no medical treatment, but was treated by Christian Science healer.

The indictment charges in language that is usual to indictments that Mr. and Mrs. Walker, "one Dorothy Walker, in the peace of God and of this State then and there being feloniously did kill and slay." Judge Martin, who charged the grand jury on May 13, directed that an indictment should be found if the evidence showed the parents to be guilty of neglecting to provide for their child proper care and protection, including medical attention.

"Involuntary manslaughter is the reckless disregard of a plain duty, evincing a reckless disregard for human life. Religious convictions of any character, if they conflict with one plain obligation of the law, constitute no legal defence."

Mr. Martindale said yesterday all of the forty-five Christian Science churches in New Jersey have interested themselves in the case, but that it was too early to say whether they would give material assistance to the defence when the case comes to trial.

District Attorney Harrison believes that when the case comes to trial the defence will be represented by a large array of counsel and will have the backing of the Christian Science mother church in an endeavor to have its doctrines and principles justified in law.

New Device Gives Secrecy to Phones

PARIS, Aug. 8.—The element of secrecy has been introduced finally into modern telephony. An ingenious invention destined to render telephone communication private has been perfected by a French captain of the engineers, and was announced by him yesterday in an official bulletin of the Ministry of Posts and Telegraph.

If a person at one end of the telephone wire desires to communicate a secret message to someone at the other end, with absolute certainty that neither intentional tapping of the wire nor their accidental crossing would enable anyone to pick up the conversation, he needs only to attach the new apparatus to the telephones which are in communication, and talk.

Anyone "listening in" would, of course, hear conversation, but it would be unintelligible and strange. Briefly, this is how it works: An apparatus which is composed of a voice transmitter something like a telegraphic current transmitter, systematically detuning the telephonic currents as they are produced at the sending end and reforming them at the receiving end, restoring their normal intensity. Perfect hearing and understanding is possible only at the two ends of the wire.

The apparatus is a very delicate and complicated affair, and was intended by the inventor for use at the battle-front. Experiments were being made at grand headquarters when the armistice was declared. For the present it is likely the benefits of the invention will be reserved for official usage and withheld from the general market.

Two U.S. Settlers Killed Each Other

(Special to The Guardian). VICTORIA, Aug. 10.—Quarrelling during a recent trip into the wilds of the Peace River country two American prospectors F. L. Sharpe, and J. J. Regalado, settled their difference instantly by drawing their guns and actually murdering each other in cold blood.

DEADLOCK LIKELY ON PEACE TREATY

U.S. Foreign Relations Committee Want Documents from President.

WASHINGTON, August 7.—A strike of the Foreign Relations Committee, insofar as the consideration of the Peace Treaty is concerned, was today foreshadowed by one of the prominent Republican members. The senator states that the committee cannot proceed without certain documents, chiefly the American draft of the covenant of the League of Nations, which the President has been requested to forward to this body, but which have not been received.

On the other hand, I am informed that the President called Premier Clemenceau asking him not to submit these documents to the French Chamber of Deputies, and this request was complied with. Under these circumstances it is not probable that Wilson will give the Senate what they have demanded.

If the committee claims that it cannot proceed without the consideration of the treaty without the documents, which will show how certain decisions were arrived at, a deadlock will ensue.

Under these circumstances the decision would be left to the Senate itself, and the big fight would take place on the floor. By a majority vote the Senate could take the treaty out of the hands of the committee, and complete the deliberations. Whether the Democrats could obtain a majority vote on such a resolution is uncertain, but it seems probable. There are sufficient Republicans who believe in the virtues of the treaty, it is believed, to break the committee strike.

The President, it is expected, will make reference to the treaty and the League of Nations in his message which he will read to a joint session of Congress on Friday. The message primarily will deal with the high cost

of living, and the railroad situation, but incidentally it is expected, an appeal will be made to clear the decks of all other matters as soon as possible, in order that instant action may be taken to pass legislation dealing with the pressing problems.

A reaction of public settlement, if the treaty is delayed in ratification, will be looked against the opposition.

Secretary Lansing, it is expected, will spend the remainder of the week studying the treaty. Henry Ford on the stand showed that he at least knew something of his own business. What Mr. Lansing, Secretary of State for the United States and second member of the peace committee knows about the Peace Treaty has yet to be discovered. His examination by the Foreign Relations Committee yesterday was a remarkable sequence of questions and answers. After it was all over, the proponents of the treaty had nothing but apologies and excuses to offer. Early in the day they gave up their attempts to come to the assistance of Mr. Lansing, and sat back in disgust while attack followed attack.

The secretary made it very clear that he did not approve the Shantung settlement and placed all responsibility on the President for the surrender to Japan of the German rights. Asked if the Japanese would have signed the treaty without the agreement, he replied that they would.

"Then the effect of the settlement was to keep China out and yet it was not necessary to bring Japan in?" questioned Senator Johnson of California, who was conducting the examination at that moment. The secretary acquiesced.

But in our joy in having you once more with us, let us not forget your brave comrades, who will not return, but now sleep in far-off France. Let us remember that they have not sacrificed their young lives in vain, for today the grand old Union Jack floats higher and prouder than ever before.

And now, as you assume civilian life we feel that those honest and upright principles which prompted you to don the King's uniform will give ample assurance of your future success.

In conclusion we ask you to accept this gift, which is but a slight recognition of your sacrifices and may it always remind you of our good feeling and friendship towards you. Signed in behalf of the people of Village Green.

PRESENTATION AND ADDRESS

A large number of friends and relatives assembled at the home of Mr. and Mrs. Mathias Acorn, Village Green recently to welcome back Cpl. C. Roy Weatherlie from the battlefields of France and Flanders. An appropriate address was read and a substantial sum of money presented to the returned hero. Cpl. Weatherlie

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of Chas. H. Fletcher In Use For Over 30 Years

made a fitting reply after which all wended their way to the dining room where a sumptuous repast provided by the ladies was awaiting.

The remainder of the evening was very pleasantly spent in music and music. The entertainment was brought to a close by bouncing the hero and singing the National Anthem.

Following is the address given by To Cpl. Chas. Roy Weatherlie, Dear Friend—It is with pleasure that we, your friends and neighbors assemble here this evening, to extend to you a hearty welcome home, after having played your part so gallantly in the recent great conflict which has terminated so successfully for our glorious Allies.

It is almost three years since we bade you farewell, as you so courageously went forth, sacrificing everything near and dear to you, even life itself, which you did not deem too precious to give up in our defence, and for the cause of righteousness and humanity which are so dear to every loyal British heart.

Tonight we cannot but feel proud of you, proud that when our country was in danger, you nobly went forth to stand between her and destruction by a ruthless foe, that we might be able to remain in our peaceful homes undisturbed and untroubled on by the autocratic Hun.

But in our joy in having you once more with us, let us not forget your brave comrades, who will not return, but now sleep in far-off France. Let us remember that they have not sacrificed their young lives in vain, for today the grand old Union Jack floats higher and prouder than ever before.

And now, as you assume civilian life we feel that those honest and upright principles which prompted you to don the King's uniform will give ample assurance of your future success.

In conclusion we ask you to accept this gift, which is but a slight recognition of your sacrifices and may it always remind you of our good feeling and friendship towards you. Signed in behalf of the people of Village Green.

Good Food Does Make a Difference The presence in Grape-Nuts of all the nutriment of the wheat and barley from which this delicious food is made, including their vital mineral elements, often spells health instead of illness. Grape-Nuts is a wonderful health builder. "There's a Reason"

Boring Pole Holes. The tiresome and time consuming work of digging holes for telegraph and electric service poles is now at an end, says Scientific American. At least there has been evolved a gasoline driven earth-boring machine which makes an average boring time per hole of one and one-half to two minutes. The equipment is mounted on a horse drawn truck and is operated by two men. In ordinary soil it maintains an average of 100 holes per day, each measuring five feet deep by 24 inches in diameter. The equipment consists of a truck, which carries a gasoline engine, driven mechanism and a huge auger which is slowly rotated and fed downward. The augers are furnished in sizes from 2 to 24 inches.

To remove stains from serge suits or dresses place a teaspoonful of borax in a quart of clean cold water; boil for half an hour, then pour into a bowl. When lukewarm dip a sponge in the mixture and rub the stains; then brush over with a brush dipped in clean cold water and press placing a cloth over the serge before ironing.

TORONTO'S MILLIONAIRES

TORONTO, Aug. 8.—The best information obtainable is that there are thirty-nine millionaires in Toronto, and here are the names in alphabetical order:

- A. W. Austin. Sir Frank Baillie. Alfred Beardmore. George Beardmore. Mrs. C. W. Beatty. Mrs. T. G. Blackstock. R. J. Christie. Herbert C. Cox. Sir John Eaton. Major W. F. Eaton. Mrs. Timothy Eaton. David Fasken. Sir Joseph Flavell. H. H. Fudger. Sir William Gage. Nicholas T. Garland. A. E. Gooderham. George H. Gooderham. W. G. Gooderham. Ross Gooderham. John B. Harris. William Harris. W. G. Jaffray. E. Aemilius Jarvis. Z. A. Lash. Sir Edward Kemp. Hon. Frederick Nicholls. John Macdonald. Sir William MacKenzie. Sir Donald Mann. Chester D. Massey. Sir E. B. Osler. Sir Henry Pellat. Elias Rogers. Mrs. J. F. W. Ross. Sir Edmund Walker. Mrs. H. D. Warren. E. R. Wood. Sir James Woods.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. I relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass. for advice. The result of many years experience is at your service.

Suggests Spruce Trees As Decoration for Streets

ST. JOHN, August 7.—The feature proposal this morning concerning decorations for the celebrations on August 14 and 15, was that small spruce trees be used to line the route which the Prince will take. It is suggested that a tree be placed to each post along the line of march. In order to test the effect, several trees will be procured and the scheme given a trial.

It is also suggested that evergreens be used to decorate the mammoth stand to be erected at Reed Point for the school children, who will sing the choruses of welcome. A point in favor of this idea is that flags and bunting will be used to such an extent in general decorations that a mass of evergreens would attract more attention. Certainly trees and boughs would not be affected by inclement weather, and the odor and appearance of the evergreens would be no doubt pleasing to the royal guest and his party. Flags and bunting are nothing new to the Prince, but he probably is not enjoying the beauty of New Brunswick spruce everywhere he goes.

Commissioner Thornton announced this morning that he had arranged for the decorating of the whole front on King Square on the Charlotte street side. There will be an arch at the King Square fountain, with an appropriate inscription of welcome and a figure of a soldier in khaki. The arch will be surmounted with a crown. The square will be illuminated at night by colored globes.

The Charlotte street front of the City Market will also be made gay with flags and bunting, and the old court house will be camouflaged.

The Federal Government has made a good start in preparing for the royal visit by having the post office scrubbed and cleaned.

The Board of Trade has completed arrangements for its holiday front for its headquarters. Materials for the decorations are on hand and painters are at work.

Mice do not like the smell of pepper-mint, and a little oil of pepper-mint placed about their haunts will soon make them look for other quarters.
