Textiles Hold Firm On Montreal Market

(C. P. By Guardian's Special Wire) MONTREAL, Nov. 7.—Profit-taking appeared during the last hour's trading on Montreal Stock Exchange today and numerous advances were converted into fractional losses. Volume decreased slightly.

Most of the selling was in the power division but a number of recent favorites also stepped back a notch or two. Textiles held up well and were ahead fractionally as were a few power stocks.

In the textile division a feature was provided when Canadian Cottons jumped 10 points to 48 1-2. Dominion advanced 1-2 in heavy buying while Bruck Silk, Regent Knitting, Canadian Celanese all moved fractionally higher.

Two more new highs for a year or more were established in the power section. Canadian Northern Power at 24 1-2 and Power Corporation at 11 5-8 touched new peaks, the latter receding slightly to close with a fractional gain while Canadian Northern was up 1-2. Bathurst and Brazilian were higher and on the downside appeared Quebec, Shawinigan and Motrel.

Prices broke in the steel division and Dominion Bridge, Steel of Canada and Dominion yielded. Ralls eased off fractionally after a good start.

Total sales were 32,613 shares bonds \$17,390.

Sequel To Pepper N. Y. Stock Exchange

(A. P. By Guardian's Special Wire) LONDON, Nov. 7.—Reverberations of the pepper market crash last February were heard in financial quarters today when summaries were issued against three persons connected with James & Shakespeare, one of the firms that failed.

The crash was caused by an attempted plot on white pepper which piled 23,000 tons of it in London warehouses. After three firms had failed through inability to meet their commitments, bankers and brokers stepped in to avert the threatened debacle to others.

One of today's witnesses was for Garabed Bishirjian, poker-faced naturalized Armenian known as "the pepper king," a director of the firm of James & Shakespeare. The others were for John Howson and Louis Hardy.

They were issued by the director of public prosecutions and based on a prospectus issued to the public concerning the firm's business.

Lower Trend As Traders Trim Profits

(By Frank MacMillan, Associated Press Financial Writer)

(A. P. By Guardian's Special Wire) NEW YORK, Nov. 7.—Stock market traders trimmed off their profits today after Wednesday's active bull thrust.

Most of the list closed mildly lower, with a scattering of higher priced issues off a point or a little more, but final prices did not lack plus signs. A few issues advanced against the trend, especially the mail orders, some of the aircraft and rubber issues, and a few specialties.

The Associated Press average dipped 2 of a point at 53.7. Activity was brisk, especially at the opening of trading when the tone was firm to strong and the tape lagged 2 to 3 minutes behind transactions. The day's turnover in the stock exchange, however, at 2,800,310 shares, was well below the 3,000,000-mark established in the previous session.

Firmness in power company loans was the principal feature of an otherwise rather uneven bond market. U. S. government obligations gave a little ground. Italian issues lost early improvement when it became known that Germany was prepared to embargo shipment of war materials to Italy.

News of the decision by the federal district court at Baltimore declaring against the legality of the Public Utility Holding Company Act, coming in the final few minutes of trading, was too late to do more than stiffen a few of the utility stocks. The third quarter earnings report of Niagara Hudson Power Co. showing profit of 7 cents a common share, compared with 4 cents in the same period of 1934, was also encouraging to followers of the group.

Some of the stocks which advanced major fractions to nearly 2 points against the trend included Sears Roebuck at 3-4, Montgomery Ward at 3-4, American Water Works at 19 3-4, and Union Pacific at 97.

Among the so-called pivotal shares which lost fractions to around 2 were U. S. Steel at 46 3-4, American Smelting at 58 1-4, and Auburn at 36.

Fractional losses predominated in the Canadian list. Dome Mines, McIntyre-Purcupine, International Nickel, Hollinger, Dominion Stores, Distillers-Seagrams, Hiram, Walker and Massey Harris all showed declines of less than a point. Ford of Canada "A," Lake Shore and International Hydro-Electric Preferred were somewhat higher.

WARNING To Prospective Radio Buyers

THE veritable avalanche of new orders that continue to pile in each day for the only Canadian Radios licensed to use the new-type "Metal-Spray" Tubes — De Forest Crosley, Majestic and Rogers — has made it impossible to materially reduce the huge total of unfilled orders accumulated since the day of our convention—June 24, 1935—when dealers and jobbers placed orders for 16,667 De Forest Crosley, Majestic and Rogers Radios in a period of 24 hours.

Despite the fact that we have already shipped almost 50% more than that quantity since then—and despite the fact that our factory is at peak production of over 2,000 radio sets per week (employing over 1,200 people) our unfilled orders as at October 31, 1935, totalled over 7,000 sets—with new orders piling in at an average rate of over 1,500 per week ever since September 15th. These unfilled orders alone will absorb over fifty per cent of our total possible production up to Christmas.

Already there are orders on hand for certain models in each of the three lines (De Forest Crosley, Majestic and Rogers) in excess of total production. So inevitably, there will be a shortage of the most popular models in each line long before Christmas.

Hence, this warning to those considering the purchase of a radio before or for Christmas to avoid delay.

Visit your nearest De Forest Crosley, Majestic or Rogers dealer and learn why the new 1936 Models of these three great Canadian Radios have far outstripped all competition (their sales for September 1935 totalled ONE-THIRD of ALL the sales of ALL the radios manufactured in Canada COMBINED).

One of the outstanding reasons is to be found in the new-type Rogers double-purpose guaranteed, Metal-Spray Tube. These tubes, the only metalized type of tube with any record of proven performance (three years) afford an entirely new quality of reception; new freedom from noise, hum and distortion.

For Instance: Coupled with this feature are specific advancements in design, construction, control and performance more revolutionary and practical in character and positive results than all the improvements of the last three years combined.

Noise suppression; silent tuning; variable sensitivity; automatic tone control; bass compensation; hi-fidelity; dual ratio tuning control; multi-wave bands; vernier tuning indicator for logging short wave stations; guaranteed foreign reception; signal light tuning indicator; start and stop clock that turns the radio on and off; auditorium type speakers; variable selectivity that doubles the possible number of stations to tune; super automatic volume control; "A-B" Amplification—all these major advancements (some of which are found in other radios, but all of which are found in no other radio) combined with many other minor developments and entirely new cabinet designs, with spectacular dial arrangement, have resulted in a combination of exquisite beauty, extreme simplicity and superb performance that has created a public popularity never before equaled in Canadian Radio history.

Yet the prices are not high—\$49.95 for "personal" sets that cover the continent and \$59.95 to \$109.95 for sets that cover the globe, and \$129.95 to \$325.00 for the all-wave De Luxe Models with all the features outlined above.

Moreover, any De Forest Crosley, Majestic or Rogers dealer will extend liberal allowance for your old radio as part payment and arrange easy monthly payments. So ACT NOW!

And Remember
Only Three Radios in Canada are Licensed to use the New-type Rogers Dual-Purpose "Metal-Spray" Tubes
Majestic Radios—Rogers Radios
De Forest Crosley Radios

LIVESTOCK

(Canadian Press)

OTTAWA, Nov. 7.—Approximately 100,000 head of heavy cattle have been exported from Canada to United States in the first 10 months of this year, figures to the end of October reveal 117,000 head have gone over and it is estimated that 17,000 more calves, U. S. tariff on live cattle is three cents a pound when the animal is over 700 pounds, and 2 1-2 cents when below that weight. So a 1100-lb steer would meet a customs duty of \$33.

The year has witnessed an entire reversal in the export trade in Canadian cattle. Last year nearly all Canadian cattle exports for the first 10 months went to the United Kingdom. The total shipments were 46,500. For the corresponding period this year they were 6,500 whereas the shipments to the United States jumped from 4,700 cattle and calves last year to 17,000 this year.

The reason for the shift was the shortage of beef cattle in the United States and relatively lower prices in United Kingdom market. When live cattle went into the United States free Canadian cattle shipments occasionally reached 400,000 annually but the average shipments were below that.

MINING

(Canadian Press)

TORONTO, Nov. 7.—Prices wildered in the last hour of the mining market today after standing up fairly well against a fusillade of profit-taking in the first four hours. Losses of any consequence were boarded chiefly for the golds and base metals that had figured prominently in the recent advances. Weakness in New York helped to turn the tide and to keep buyers out of the market in the late proceedings.

A drop in the London price for copper of about 5 shillings helped to take the starch out of the base metal shares and although Noranda was able to register a new high for the current movement, 42 3-4, the cheaper issues sagged.

Soft spots in the gold line up were San Antonio, down 16 cents, Pickle Crow, off 6, Airways, off 15 cents, McWaters, down 17 cents, Central Pacific, down 7 and Conlarum, down 14.

The silver weaker lower with other groups. Eldorado lost 8 cents, Castle 6, Premier 2 and White Eagle and Peterson-Cobalt minor fractions. Otis were quiet and mainly steady.
