The Call of the Wild

As civilization advances the need to get close to Nature for a short time, at any rate, becomes greater and greater, and as the world grows in population, the places where one can do this become less and less. Canada with her vast undeveloped territory, affords wonderful opportunity for tired humanity to recuperate and imbibe that strength which contact with Nature alone can give. The call of the wild comes to every man and happy indeed is he who answers it.

In these modern days one can be transplanted from the cities, with their teeming population right out to the great outdoors in a short time, and with a convenience which amounts almost to a marvel. Modern modes of travel put the vast open spaces of the wild right at our front door, so to speak.

Canada possesses many places where contact with Nature is afforded, and among the chief of them is Jasper National Park, located in the heart of the Canadian Rockies where the call of the wild is heard in every pine, in the murmuring streams and roaring torrents, while snow-clad mountain peaks speak to us in awe-inspiring tones, tones that echo and re-echo down the years.

Almost in the centre of Jasper National Park is situated Jasper Park and good cows \$7.75 to \$6.00. Medium quality big bodied cows brought \$4.75 to \$5.50 and common cows \$3.75 to \$4.25. There were over 650 Canadian National Railways, with bulls included in the offering. Those weighing less than 900 pounds brought \$3.50 to \$4.00 and heavier ones \$4.25 and \$4.50.

Quotations: Good veal \$11.00 to \$12.00, medium \$9.00 to \$10.50, common \$6.75 to \$8.00, grassers \$5.00 to \$6.25.

Shaves Tender Faces without Irritating the Skin

"A Woman is as Old as She Looks"

Why should a Man Look Older than He is?

Why shouldn't he appear even younger if he can, and have the world say: "Doesn't he look well!" It is the face—always the face—that tells the story. Whether the face looks younger or older depends to a marked degree on the commonsense attention it receives, a vitally important part of which is the correct shave. Ask the Skin Specialist.

IS YOURS A TENDER FACE? DOES IT SMART AFTER SHAVING?

The Valet AutoStrop Razor with its freshly stropped, super keen blade never leaves that smarting tender face sensation. After a few days of correct shaving, the "tender" unsatisfactory skin, if otherwise unblemished, is headed back to normal—it again takes on that youthful appearance which brings satisfaction to yourself and to others.

Is unnecessary neglect, including today's shave, laying the groundwork for premature signs of age? There is a shave with far less effort—less expensive to your purse—less expensive to your face.
