

### PRUSSIAN 31-2 p. c. CONSOLS

PRE-WAR GOLD MARK CONSOLS ARE VERY ATTRACTIVE ORIGINAL VALUE \$238,000. PER MILLION MARKS. AT 2 1/2% REVALORIZATION MEANS \$590.00 GOLD.

A good many fortunes were made with Prussian Consols when the price was carried from the hundreds into multiple thousands.

In recent weeks this bond along with other German revalued securities has risen to very high levels and unprecedented buying throughout the continent was experienced, as well as in Germany.

This security was issued by the Free State of Prussia in pre-war days and was then considered about the best German investment available.

These consols were paid for in marks of full gold value and are being revalued on the same basis and at the lowest possible revaluation of 2 1/2% are now worth \$590.00.

The confidence Prussian Consols won from the public is borne out by the heavy buying on this security. It is known for its steadiness as well as its speculative opportunities. Even when the German inflation period was at its worst, consols sold far above the level of ordinary bonds. As soon thereafter as it became apparent the mark had been established again on gold basis, consols have been steadily going up.

Hereunder is a table showing the actual and possible profits Prussian Consols offer:

| Denomination   | We offer at | Revalored at 2 1/2% | Estimated 5% Revaluation |
|----------------|-------------|---------------------|--------------------------|
| 25,000 Mks.    | \$ 37.50    | 297.50              | 595.00                   |
| 50,000 Mks.    | 75.00       | 595.00              | 1,190.00                 |
| 100,000 Mks.   | 150.00      | 1,190.00            | 2,380.00                 |
| 200,000 Mks.   | 300.00      | 2,380.00            | 4,760.00                 |
| 300,000 Mks.   | 450.00      | 3,570.00            | 7,140.00                 |
| 400,000 Mks.   | 600.00      | 4,760.00            | 9,520.00                 |
| 500,000 Mks.   | 750.00      | 5,950.00            | 11,900.00                |
| 700,000 Mks.   | 1,050.00    | 8,330.00            | 16,660.00                |
| 1,000,000 Mks. | 1,500.00    | 11,900.00           | 23,800.00                |

### Police Court

Considerable interest is being taken in the case now being tried before Stipendiary Magistrate at the Police Court in which William Munn is charged with being in possession of stolen goods.

At the preliminary hearing which began on Thursday, the first witness to be examined was Mr. Haywood, one of the Prohibition Inspectors, who stated on the stand that he had seen in the attic of Munn's residence a quantity of sugar, soap and other groceries.

Mr. Joseph Francis, accountant for N. Rattenbury and Co., was the next witness, and on being sworn said that his firm had missed quantities of butter and tea.

The case was resumed yesterday morning, when Rattenbury's head shipper, Mr. Ernest DesRoches, and the second shipper, Mr. Nelson Whitlock, took the stand, and gave evidence to the effect that goods were found missing from the warehouse.

Cross examined by Mr. J. J. Johnston, K. C. counsel for the prosecution, Mr. Whitlock who was still on the stand when Court adjourned at four o'clock, stated that he had possession of the keys to the warehouse during the day, but left them at the office during dinner and at night. Some day last week, he could not remember the exact date, he had found one of the two locks that fastened the door not bolted. He had never seen any further indication that the warehouse had ever been broken into.

The witness identified a box of tea found in the prisoner's house as one which had been in the warehouse and from which he had taken a small amount of tea to be used as a sample. He identified a puncture in the box put in evidence as being made by himself for that purpose. The case was adjourned until this morning at nine o'clock.

### BILL BORLAND

A popular player with the Winnipeg hockey team.

### Truro Bearcats Shutout Halifax Crescents 3-0

HALIFAX, Feb. 26.—Truro Bearcats won from the Crescents here last night 3 goals to nothing, in the first of the home-and-home series. The return game will be played at Truro on Saturday night.

### Campbellton Win Over Atlantics 3-2

MONCTON, Feb. 26.—Campbellton has won the hockey championship of New Brunswick. The North Shore team trounced the Moncton Atlantics in the Arena here last night by a 3-2 score. The game was fast, close and exciting. The result of last night's game gave Campbellton a total of 7 goals to the Atlantics 4.

### St. F. X. Capture College Championship

TRURO, N. S., Feb. 26.—Scoring a 4 to 2 victory after ten minutes of overtime play St. Francis Xavier College hockeyists captured the Maritime Intercollegiate Championship last night after a rugged tussle with the University of New Brunswick. Five hundred spectators witnessed the play.

### SECURED \$2,500 DAMAGES

LONDON, Feb. 25.—St. John Chrysostom was quoted at length by Justice Satter of the Supreme Court in the King's Bench division when he summed up a case in which George Coldwell, Catholic worker and anti-prohibition lecturer, secured \$2,500 damages from the New Catholic Press and its editor, Charles Diamond, for libel.

### In Memoriam

LLOYD FARQUHARSON

Halifax fresh egg receipts are increasing dealers paying delivered Halifax extras 40, firsts 34, seconds 25, jobbing fresh extras 50, firsts 42. Storage prices unchanged with stocks fairly well cleaned up.

MONTEAL, Feb. 26.—The domestic trade was again reported quiet in the local cash grain market there being little demand and only a small amount of business passed. The tone of the market for oats was steady and prices unchanged. There was no change in the condition of the flour situation the market on the whole being dull with no change in prices. The undertone to the market for millfeed remains a fair amount of business was done. The condition of the market for baled hay remains unchanged. The strength that developed for butter on Thursday was fully maintained today and prices scored a further advance of 1-4c per pound. Owing to the continued demand for supplies and the somewhat restricted offerings the volume of business was not large with a few sales of townships at 44c per pound. The tone of the market for cheese was firm today with buyers bidding 19c per pound and sellers asking 19 1/2c per pound for current receipts.

The market for potatoes remains unchanged. A steady feeling prevailed in the local egg situation and prices showed no important change. There was a good demand and supplies were ample. The tone of the market for storage eggs was steady and prices were unchanged.

The funeral of the late Lloyd Farquharson was held at the home of his parents, Mr and Mrs Albert Farquharson of Mermaid, on Sunday, the 21st of February, the officiating clergyman being Rev. George Exantse of Zion Church.

A profusion of beautiful flowers, wreaths, etc. which banked the casket, in unmistakable language, mute, but with the aroma of love, the high esteem in which he was held by neighbours and friends. Notwithstanding the severity of the weather, a large gathering of people from city and country was present to pay their last tribute of respect and love for the young man whose earthly career was of such short duration, yet he had lived long enough to leave behind him impressions of youth's sweetness, whose aroma will help to keep fresh the withering leaves of the blossoms of hope so sadly crushed in the hearts of his mother, father, brothers and friends. "And he being dead yet speaketh."

Lloyd was laid to rest in the little cemetery at Mermaid adjoining the farm, where his boyhood was spent.

He was operated upon for appendicitis at the Prince Edward Island Hospital, the operation being successful, but in a short time pneumonia set in, and all human effort failed to hold him for those who loved him, and he passed to the Saviour of his faith.

Doubly sad is this bereavement in the home, for only thirteen months ago his brother Ivan was also taken from the family circle at the early age of nineteen years.

The pall bearers were his school companions and associates, who, with heavy hearts, carried him to his last resting place, and with dimmed eyes and throbbing hearts they were: Messrs Roland MacDonald, Leslie Boyce, Vernon Munn, Martin Power, Fred MacKenna, and Fred Dixon.

Seldom have griefs so hard come to one family in so short a time, and the reasoning is beyond us. Only beautiful, simple faith can hold the line from the dells of sorrow to the fountains of bliss.

"Good night! dear boy, sleep on. His watch is keeping through the darkest hours. We falter, tired and drooping with the load. Along life's weary way. Our eyes are dimmed with tears, yet hope awakens. For yonder opens up the portals of Eternal day.

Our pathway mid the leaves of hope, now broken. Our tears the "March" stars of the soul. Thy pathway through the stars betoken. They lead to home, to love, the goal.

Dear heart, good-night, thy head is softly pillowed. On Jesus' breast, sweet then thy rest must be. Our fitful slumbers here will but awaken. Our thoughts of home, of God, of love, and thee."

### HOCKEY

There was a friendly game of hockey Thursday between Grade VI and Grade VII of West Kent School. Grade VII, winning out by a score of 5-4.

| Grade VI  | Goal     | Grade VII |
|-----------|----------|-----------|
| Worth     | Defence  | Cudmore   |
| Finlayson | Defence  | Kennedy   |
| Phillips  | Forwards | Ward      |
| Murley    | Forwards | Ferguson  |
| Accora    | Forwards | Williams  |
| Owen      | Forwards | Johnstone |
| Stewart   | Forwards | Johnstone |

Worth and Cudmore did good.

# A Great Year ~ A Great Car ~ and Lower Prices

1925 was the greatest year in Dodge Brothers history. More than a quarter of a million Dodge Brothers Motor Cars were built and sold, yet demand was far in excess of production—and continues to mount. To meet this world-wide need for a smart and dependable motor car, Dodge Brothers, Inc., and their subsidiary companies have recently completed a \$10,000,000 program of expansion, vastly increasing production and lowering the cost of manufacture. Remarkable new machine equipment has also been installed—further reducing costs and perfecting quality. As a result Dodge Brothers (Canada) Limited, were enabled recently to announce a schedule of prices that has revolutionized all previous standards of motor car value. Prices all the more impressive because they apply to a dependable and trusted product made still better in many vital respects—

- Instant engine response and elasticity.
- Stylish bodies finished in rich and distinctive colors.
- Exceptional driving vision.
- And the most important advance in steel body construction since Dodge Brothers pioneered in building the first all-steel body.

### Strangest Monsters of All Ages Revived in Film

Of all strange creatures which have been given us by the motion picture art perhaps the strangest ever seen on the screen are the animal characters presented in "The Lost World," to be shown at the Prince Edward Theatre next Wednesday and Thursday.

These creatures represent reincarnations of prehistoric monsters which scientists say passed from earth at least 10,000,000 years ago. Their revival was achieved by Waterson K. Rothacker and First National, and they share stellar honors in a picturization of Sir Arthur Conan Doyle's novel "The Lost World," with Besse Love, Lewis Stone, Wallace Beery, Lloyd Hughes and others of the human cast.

Thumbnail sketches of the various monsters follow: THE ALLOSAURUS—A carnivorous lizard of the Upper Jurassic period, approximately 10,000,000 years ago. Its minimum length was 35 feet and its height no less than 9 feet at full growth. Its brain was very small and inferior to that of a modern crocodile or lizard. It balanced itself on its hind limbs, using its long heavy tail as a counterpoise. Its vicious teeth and claws were propelled in an attack by instinct, not intelligence.

THE BRONTOSAURUS, also known as the Thunder Lizard and the Leviathan of the Shallows, was an amphibious reptile of the Jurassic period, about 10,000,000 years ago. It got its first name, probably for its walk, for it "came up with noise like thunder" in the ages far away. It was an ungainly, herbivorous quadruped with elephantine limbs and feet, long giraffe like neck and very small head and brain. It was an animal automaton.

THE DIPLODOCUS, more commonly identified with his brother, the Morosaurus (Stupid Lizard), was of the Brontosaurus type, but exceeded it in length. It measured upwards of 87 feet and belonged to the order of the two principal dinosaur fauna.

THE PTERODACTYL—This Pterodactyl, or wing-fingered bat lizard, had a reptile jaw and body, but massive leathery wings with finery claws attached to them. Because they were miraculously wiped out by some great cataclysmic climatic change, the Pterodactyls are scarcely known to paleontologists. They measured easily 40 feet in length and must have had a wing spread of at least twice that much.

THE STEGOSAURUS—Another herbivorous, quadrupedal giant. It had elephantine feet, a short neck and a ridiculously small head. Its body and short tail were armored with massive bony plates and often with large spines.

THE TYRANNOSAURUS—Perhaps as early as 15,000,000 years ago lived the Tyrannosaurus, or Tyrant Lizard. It was a gigantic flesh-eater that measured upwards of 47 feet in length and 20 feet in height. Its vicious teeth were six inches long and an inch wide. To imagine a leaping elephant is to appreciate this terror but slightly.

THE TRACHODON—The duck-billed of the dinosaurs was the Trachodon, dating back 10,000,000 years. It was a heavily armored herbivore with hoofs instead of claws and numerous rows of small-teeth set close together to form a gridding surface. It had more than 2,000 teeth in both jaws. In shape the Trachodon was somewhat like the kangaroo, with short fore legs, long hind legs and long tail. Its protection was its ability to remain in the water. It was 16 feet high.

### THE MOST ABSOLUTELY ASTOUNDING PICTURE EVER FILMED.

During the evening the chairman announced to the veterans message of regret from American Consul Gunzales, who had been unable to attend the function, who sent his best wishes.

### Butter Trade

If the President takes action under the flexible provisions of the Fordney-McCumber Tariff, butter imported into United States will be dutiable at 12 cents a pound, the present rate of duty being 10 cents a pound. Under the United States (Democratic) Tariff of 1913, butter was assessed only 4 cents a pound, and under the Payne-Aldrich (Republican) tariff of 1911, butter carried a duty of 6 cents a pound. One of the rarest shawls in the world was displayed at the Exhibition in Wembley, England, taken 12 years ago. It was made by a woman who lived in the mountains of Tibet.
