HUNGARIAN GOVERNMENT HAS BEEN OVERTHROWN

FOREIGN MINISTER ASSASSINATED

Origin of Revolution So Far Unknown. Hungarians Ask for General Conference to Settle Boundaries.

(Special to The Guardian)
VIENNA, April 7.—The Hungarian Communist Government has been overthrown, according to rumors current in official circles. The newspapers say Bela Kun, the foreign minister, is reported to have been assassinated. The reports do not say whether the attempted revolution in Budapest was organized by the Socialists or the Bourgeoisie party.

BUDAPEST, April 7.—The Hungarian Government has proposed to General Jan Christian Smuts, who was sent here by the Peace Conference at Paris, that conferences be held at Vienna or Prague between representatives of Czecho-Slovakia, Rumania, Austria Hungary, and Jugoslavia regarding boundaries and economic questions.

LUNCHEON TO GEN. CURRIE

Demobilization Satisfactory

Half of the Canadian Corps Will be Home by End of April.

(Special to The Guardian)
LONDON, April 7.—At a small luncheon given here today by Sir Edward Kemp to meet General Currie, the overseas Minister took the opportunity to voice his own sentiments upon criticism from Canada. Sir Edward Kemp said he had ever since the armistice urged that Canadian soldiers be repatriated as fast as possible and his own view was entirely contrary to that urged in some quarters in Canada, that soldiers should not be demobilized too quickly or else they would find no work to be done at home. He was absolutely satisfied that they had arrived at the best conclusions possible regarding demobilization and was quite prepared to defend the form it took. He was equally sure the Canadian people would approve directly they understood the situation. Before the end of this month half of all Canadian troops on this side would be back or on the water.

GALLANT ISLAND SOLDIERS WARMLY WELCOMED HOME

Over eighty Prince Edward Island soldiers representing various branches of the service, arrived in Charlottetown last night some after long years of service on the battlefields of France and Flanders.

These men were a portion of five thousand who reached Halifax on Saturday by the S. S. Northland, of the American line and the S. S. Caronia of the Cunard fleet, and who got a splendid reception on their arrival there.

Five Killed On Steamer Cape Breton

ST. JOHN'S Nfld., April 6.—The steamer Cape Breton, icebound here since March 15th, sailed at daylight this morning for Sydney, but off Ferryland, midway between St. John's and Cape Race, her boiler began leaking and she returned for port. Four miles off the entrance the patch on her boiler blew off, scalding to death Chief Engineer McArthur, Second Engineer Scott, and two Chinese stokers. Third Engineer Campbell was burned seriously, but not fatally. The boiler is understood to have been the original installation in the ship twenty-nine years ago, and the force of the explosion moved it twelve inches from its regular bed. The ship otherwise is undamaged, but had to be towed in by tugs and will require extensive repairs.

Proceedings In House of Commons

(From our own Correspondent)
OTTAWA, April 7.—As usual private members' day today saw a variety of matters discussed in the House of Commons. None was of paramount importance. The Guelph novice raid of last year came up for discussion, also a motion by Mr. Nickle on the matter of titles. Nothing new was adduced, in either case, both these occasioning some debate last session, and while there is not likely to be a prolonged discussion this year, yet the fact that they have been introduced at all illustrates they still are regarded as of sufficient importance to attract some attention in the House and country. The present session has been light in the amount to big business transacted, but it is expected the House will make good progress between now and Easter. After the holiday real business will be discussed. The prospects of the

PROCEEDINGS IN PROVINCIAL LEGISLATURE

Daylight Saving Bill Discussed. Premier Replies to Mr. Bell's Criticism of Speech from the Throne and Incidentally Reveals Some Things Mr. Bell Had Not Known.

Monday, April 7, 1919.
House met at 5.20 p. m.
On motion of Mr. Wood, seconded by Mr. Martin, Mr. Gordon Brown, a returned soldier, was appointed a door-keeper in the House, for the present session.
The Premier announced that about ninety men from overseas were due to arrive home that evening and asked the members to be present at the reception for them and take seats on the platform.
On motion of the Premier the House resolved itself into a committee of the whole with Dr. McDonald in the chair to take into consideration a bill respecting time in the public offices.
This bill provides that in each year in which this act is in force in any city or town within the Province, between the 31st day of March and the first day of November, the time in the Provincial public offices shall be one hour in advance of the time as fixed by statute, and that the act shall be in force in any city or town within this Province that shall adopt the same.
The leader of the Opposition, Mr. Johnston and Mr. Dewar entered some objections to the bill. At 6 p. m. the Premier moved that the speaker take the chair and the chairman reported progress.

EVENING SESSION.
Premier Arsenault began his address at 9.40 p.m. He began by congratulating the mover and seconder of the reply to His Honor's speech alluding humorously to the criticism of Mr. Bell on these two speeches, remarking in passing that had Mr. Bell taken notes and adhered to them the House might have been saved considerable valuable time.
Proceeding, the Premier paid an eloquent tribute to Canadian soldiers, mentioning particularly the part played by the soldiers from Prince Edward Island, who are now returning in considerable numbers.
He emphasized the responsibility devolving both upon the Federal and Provincial governments in caring for these men and seeing to it that they were given a fair chance for a start in life.
He referred in passing to Mr. Bell's criticism of the Governor's speech. He complained that the speech contained no policy. What did Mr. Bell want? Was it customary for governments to detail in the Governor's speech the policy and the legislation they proposed to pursue during the session? He, Mr. Bell, criticized the bill for land settlement introduced in 1917. He made similar criticism in 1918, and repeated the same criticism with the exception that this year he stated that the debt which the bill would saddle the Island would be \$100,000, whereas last year he estimated this burden at \$400,000.
MR. BELL—Oh, no, I didn't.
My friend, continued Mr. Arsenault.
