Here's An Attractive Public Utility The Porto Rico Railways Company

Dated Nov. 1, 1906 Due Nov. 1, 1936.
Interest payable May 1 and Nov 1.
Bonds with stock Bonds or Bonus alone.
Price on Application

The Island of Porto Rico is very progressive. Much development has taken place, and the exports and imports more than tripled since the American occupation.
The population has increased from 953,243 in 1900 to 1,250,000 estimated at present time.
The entire Electric Tramway system serving three municipalities, including the Capital city, San Juan, and lighting plants for five Cities and towns, are now being operated direct by water-power from the new Comerio Plant.
This has greatly reduced operating expenses and is resulting in large increases in net receipts.
We consider these Bonds possess to an unusual degree, elements of a safe and conservative investment, and offer a profitable purchase at present prices.

The Provincial Department of Agriculture has just received a copy of a bill respecting an agriculture fertilizer, which was introduced at last session of the federal Parliament. The chief provision of the Act is that every brand of fertilizer offered for sale each year must be registered for that particular year, in order that it may be identified. In the past a guaranteed analysis had to be submitted on each package, but on account of the difficulty of indentification this province could hardly ever be enforced. This however, is intended to be provided against in the present bill. The manufacturer's of fertilizer and their agents have been sending deputations to the Department complaining that the Act is too stringent and exacting. This bill however, is framed for the protection of farmers, but there is no intention to place unnecessary hinderance in the way of manufacturers. The Farmers' Institutes through this Province should obtain a copy of this bill and bring it up at one of their meetings and consider whether or not it is too stringent and exacting. Copies of it can be obtained from A. McGill, Chief Analyst, Island Revenue Department, Ottawa.
