**GALLANT-ATKINS**-A quiet but very pretty wedding was solemnized at Saint Dunstan's Basilica at five thirty o'clock Wednesday morning with the Reverend Father McCarthy officiating, when Miss Catherine Gallant, only daughter of Mr. and Mrs. Dominic Gallant of Oyster Bed Bridge, was united in marriage to Mr. James Atkins, son of Mrs. Regina Atkins of this City. The bride was charmingly attired in a dress of beige lace with hat and shoes to match and fox neckpiece. Miss Regina Atkins, sister of the groom who acted as bridesmaid, was beautifully dressed in blue figured chiffon with hat and shoes to match. The groom was supported by Mr. James Gallant, brother of the bride. The groom's gift to the bride was a white gold chain and pendant with earrings. To the bridesmaid a crystal necklace and to the groomsmen a set of gold cuff links. After the nuptial Mass the wedding party drove to the home of the groom's mother, where a sumptuous breakfast was served. The happy couple left on a honeymoon trip to St. John's, N. B., where they will be the guests of Mr. and Mrs. Frank Horan. Among the many valuable and practical wedding gifts received were a well filled purse from the business, editorial and mechanical staff of the Patriot Publishing Co., where the groom is a valued and popular employee of the Mechanical Department, and a substantial cheque from Dr. and Mrs. J. E. Blanchard. The former was in the form of a presentation, accompanied by a complimentary address on the eve of the momentous event when the prospective groom was summoned to the "stone" where the address was read and presentation made. The Guardian joins with numerous friends in wishing Mr. and Mrs. Atkins many years of happy wedded life.

**LIBERAL PRESS**  
Continued from page 1

sensational matter which floods the news-stands, and partly to curtail the demand for United States goods which is stimulated by the advertising in the numerous weekly and monthly periodicals from across the line.

**PROTECTING AGRICULTURE**

The most significant change in the agricultural schedule is the imposition of heavy duties against United States oranges, which, it is hoped, will tend to divert a large portion of Canada's \$10,000,000 trade in this popular fruit to British Empire countries like the West Indies, South Africa and Australia. Oranges formerly were imported free of duty. The tariff on United States oranges has been fixed at 35 cents per cubic foot, while the British preference has been left free. Practically all the imports were from the United States. The Government here has been assured that British countries can supply a large portion of Canada's requirements.

Mr. Bennett is attempting to protect Canadian meat products by the imposition of higher duties against American meats. The duty on American hogs has been increased from 2 to 3 cents per pound, while the duties on American beef, veal, lamb and mutton have been increased from 6 to 8 cents per pound. Imports of these totalled \$200,000 last year. Upon canned meats, poultry or game, imported from the United States, the duty has been raised from 27 1/2 to 35 per cent, and this will affect an annual trade of \$1,250,000. Similar treatment has been accorded to prepared or preserved meats. Bacon, hams, shoulders and other pork, which formerly entered at 3 1/4 cents from the United States, will now pay 5 cents per pound. Imports of these last year totalled nearly \$2,000,000.

**NEW DUTIES ON CHEESE**

The new duties on cheese are more than double the old. This is considered important by Canadian producers as the imports last year totalled 1,750,000 pounds. The duty on American cheese is raised from 3 to 7 cents per pound, which makes it prohibitive, while British cheese will pay 3 instead of 2 cents, and European cheese 7 instead of 3 cents per pound.

Another increase in duties on hops is imposed, additional to the increase announced last year, which was designed to help British Columbia producers. British hops will continue to come in at 8 cents per pound, but foreign hops must pay 16 cents per pound.

Imports of 7,000,000 pounds of starch will be curtailed by an increase of 33 per cent. in the tariff.

The British preference remains unchanged, but foreign starch must now enter at 2 cents per pound.

Important changes are made in the duties on Indian corn, which formerly entered free of duty, with the exception of distilling corn. A duty of 25 cents per bushel is now imposed and as the imports last year totalled 10,000,000 bushels, half of which came from the United States and half from Argentina, it is thought that American corn will be curtailed, as Argentine corn will enter at 20 cents and United States corn at 25 cents per bushel. The duty on hay is increased from \$2 to \$5 per ton.

**DUTIES ON SEED**

There are some notable changes in the duties on seeds, outstanding of which are the increases on timothy and clover seeds, to protect Canadian growers. Foreign timothy seed must now pay duty of 2 cents per pound, and foreign clover seed, including alfalfa seed, 3 cents per pound.

There is a stiff increase in the duties on canned vegetables; in fact, they are doubled in respect to United States products, which are sold largely in Canada. The tariff on American baked beans is increased from 1 1/2 cents to 3 cents per pound; on corn and tomatoes the increase is from 2 cents to 3 cents per pound; on peas, the same. Last year's imports from the United States totalled more than \$1,000,000.

Similar treatment is accorded the duties on prepared fruits. Apricots, peaches, pears, pineapples, and the like must now pay a duty of 5 cents per pound, as against 2 3/4 cents formerly. These duties are increased all across the board.
