ON HOLIDAY VISIT—Mr. and Mrs. George F. Pingree and daughter Eleanor of Weston, Mass., have arrived on a visit to the Garden Province and are the guests of Mrs. Pingree's cousins Mr. and Mrs. John MacQuarrie of Bonshaw. It is interesting to learn that the well known Quarrie of Hollywood, Calif., who conducted the radio program "Do You Want To Be An Actor" on the Sanborn Hour, is a cousin of Mr. MacQuarrie's and Mrs. Pingree and a son of the late Mr. Kenneth MacQuarrie of Bonshaw. He has visited Mr. and Mrs. Pingree on numerous occasions and would like to have come here this summer but was prevented by business engagements. Mr. Pingree, who with Mrs. Pingree and daughter, leave shortly for their summer home in Maine, is charmed with the Island and is a great booster of the loveliness of his wife's birthplace.

Scout News and Notices

The Cub Camp at Point Prim is now completed, after a grand week of both fine weather and good Cubbing. Sixty-five Cub Scouts, a week of Council Pins, swimming, hiking, passing of tests, and many enjoyable features that are given to the boys when in Camp.

The Inspections of the Camp were a special feature, and the staff in charge of the boys, as well as the boys themselves, deserve credit in having the tents, dining shelters and grounds in Al condition. It was a credit to the boys and the leaders, one that even Scouts might well be proud of.

The Scarlet Six, under the direction of Daniel Murray, held the inspection flag for tents for three successive days, half of the Camp. The dining shelter flag went twice to the dining shelter under the supervision of Mr. Col. Moore.

This Camp was the first Provincial Camp ever to be held on the Island and it is hoped that it will be possible to conduct similar camps in future years. These camps give the boys a marvellous training, both in citizenship and good sportsmanship. They are taught to camp smoothly, not just to rough it. Through this training the boys acquire something that will be of benefit to them in future years. At Cub Camp we try not to spoon feed the boys.

Before closing this article, I would like to call special mention to the staff, and to thank them for their kind co-operation throughout. Especially I would like to mention the work conducted by the advance party. Three boys and two men erected all the tents, shelters, tables, and, in general, the Camp ready for the Cub Scouts. These boys are going to the Holland Jamboree, and together with the experience that they already have, and the experience they received during this camp, I can state that the Island should be proud of these boys.

It is the wish of the Provincial Council to thank Mr. Ceretti of Borden for taking time from his work to deliver to our Camp which he donated as a permanent shelter which has been erected at Borden, and has done much in promoting Scouting and Cubbing on the Island.

Also we wish to thank Mr. Col. Moore for his kind donation of one case of Catell Baked Beans, which were devoured by our Wolf Cubs in short order. They stated that they hadn't tasted better beans for a long while, and wanted to know when they could get some more. Mrs. Moore also donated matches, macaroni and namiks. All donations were greatly appreciated. Thank you Mr. Moore who have in any way helped in making this Cub Camp a success, the Provincial Council wishes to thank you and hope that you parents who had boys at the camp, feel justified in having allowed your boys to attend, and that you are thoroughly pleased with the results.

Again hoping that it will be possible to hold a similar camp in 1938.

OUR ISLAND'S SUMMER

There are breezes in the And there's foam along the There's dipping sails and boats

And splashing of the oars And there's looting on the beach And there's a-ving in the surf From Tignish down to the Point

And up to Sour's bay.

There's fishing in the rivers And the brooks and inlet streams There's grifting on the rocks

And bowling on the greens; There's dancing in the ball rooms There's racing at the track Where the target rifle cracks

There's honey neared roses And there's clover scented hay And there's dew kissed lady's slipper In the dusk and dawn of day

There's warblings of the robin And there's chirping of the bluebird Where the chorus of the farm life Appeals to city 'slices.'

There's motoring on the highways On the surfaced roads, and crowding On city streets of cleanliness And cambered country ground Where verdant fields and orchards And the swaying wheat and corn Give greetings to the motorist Along each Island way.

There's picnics on the chum grounds And there's parties serving tea Where the fiddlers and the rhyms Swing their music for a spree Where the lads swing his lass As he clouts the dancers floor In the reels of Lord MacDonald Which those Islanders adore.

New Linsed Oil Mills For Sherwin-Williams Co.

MONTREAL, July 13.—Contractors for a new \$300,000 linsed oil mill plant to be erected by Sherwin-Williams Co. of Canada, Ltd., according to an announcement made by L. C. deMerrill, Vice-President and Director of Manufacturing, the present linsed oil capacity of the company's plants, and will embody the very latest types of processing machinery new to America.

This will be the first mill in operation on this continent of this type of equipment," said Mr. deMerrill in an interview here by the result of world-wide research made by our experts who have combed Europe for the newest scientific discoveries for processing the finest oils.

"Our Winnipeg and present Montreal linsed oil plants will continue to operate. Pressure of business has made it impossible to close down our plants for the customary needed repairs; and even at that we have been unable to meet the increasing demand from our plant plants and from growing sales of this product in various industries.

"The new mill's may, in fact, be said to be a result of the recent heavy demand for paint and varnish in connection with the current boom in the building trades. Industrial sales have also contributed to the growing need for larger production of linsed oils."

Contracts for the new Centre Street mill in Montreal have been awarded to the Hamilton Co. for construction and to Dore & Macdonald for mechanical plans.

ments where the Reds are concerned they are not contented and can't be made to keep their word. Therefore General Franco considers all concessions on this subject as a sham."

Should Dip Sheep Twice Annually

Ticks in sheep are more easily discernible after shearing and perhaps that account the dipping of sheep in the early part of the year is more commonly practised than in the fall. However, two dippings a year are recommended because a few ticks in the fall may increase to large numbers by spring. So far as early dipping is concerned, all sheep not already dipped should be attended to at once. In the warm weather there is little danger from cold and the lambs have reached an age to stand dipping well.

Ticks and lice are two external parasites that are common pests to sheep. They sap the vitality of both ewes and lambs and are the cause of much discomfort. To secure the best results from sheep dipping should be done in the summer and early fall of the year. The cost of dipping should not exceed three cents per head. Dips are sold in two forms, powder and liquid. Any of the standard dips carry directions for use on the package and good results are usually obtained if directions are followed.

Community dipping tanks have come into common use in recent years. One of the first and math costs of dipping sheep is to make enough dip for the bath and after that dipping fluid is added as required. When a lot of sheep are dipped co-operatively the cost for dip is less and the labour involved is reduced also. A better dipping is usually secured.

The following are the reasons why it pays to dip:

1. Sheep that are free from ticks and lice grow more and better wool.
2. A clean flock requires less feed and is more easily kept in good condition.
3. The lamb crop is stronger, ewes milk better, and lambs grow more rapidly.
4. Parasites are a source of serious discomfort to sheep. The good shepherd should be mindful of the comfort of his flock.

Death Severs Link With Glamorous Days

NEW YORK, July 12—(AP)—A big link with the glamorous days of "way back when" was broken today with the death of Jack Curley, a restless, take-a-chance man who in many ways was a far more romantic figure in the realm of exciting promotional adventures than the immortal P. T. Barnum.

Curley died at the age of 61 in the quiet of his Long Island home at the price of one. Behind him he left a chapter of early Americana bound between the bright covers of a diversified promotional career that may never be duplicated or equalled.

Curley made the whole world chuckle and groan with his shows and stunts that included everything from flea circuses, dance marathons, wrestling matches, to bull fights.

He was born of Alsatian parents, who named him Jacques Armand and ringlets, he was nicknamed "Curley," a name which he later legalized.

Minister attended the Coronation of King George VI, represented Canada (with four of his ministers) at the Imperial Conference and paid courtesy visits to France, Germany and Belgium.

There will be a great deal to tell his colleagues at this first Cabinet return and it is not anticipated the Government will reach any important decisions on the various fronts before it until later in the week.

Against Withdrawal Of "Volunteers"

LONDON, July 12—(CP)—General Francisco Franco will not discuss the question of withdrawing foreign volunteers from Spain, high Insurgent official told the Reuters correspondent at Salamanca, Spain, today.

Withdrawal of volunteers is an "insoluble problem" in Franco's eye "even if the Valencian Government could be trusted to keep its word," the Insurgent spokesman said.

"The Valencia Government does not possess the power to withdraw the thousands of foreigners fighting on various fronts with us," according to information from prisoners, regarded as Spanish subjects for the duration of the war," he added. "It is impossible to make agree-
