A proposed new scale of teachers' salaries, for presentation to the Provincial Government, was brought before the annual meeting of the P.E.I. Teachers' Federation yesterday by Mr. J. Reginald MacDonald, general secretary, in the course of his annual report to the convention. Replies to a questionnaire relating to a salary brief showed no unanimity of opinion, and it was thought wise to defer presenting the brief until it was brought before the teachers as a whole, Mr. MacDonald said.

It is proposed to ask for fifteen annual increases of $50 for all first class teachers, and $35 for all second class teachers. "We are asking," he said, "for a minimum increase of $75 for all teachers. Insofar as the so-called superior class teachers are concerned, we leave that matter to the disposal of the proper authorities.

"An obvious discrimination was pointed out by a lady member of the executive. You will notice in the School Act that between second class male and second class female teachers there is a difference of only $60, while between first class male and first class female teachers there is a difference of $85. In our new scale we have corrected that."

A vote of thanks was extended Mr. McLean for his attendance at the meeting. At a meeting held on Monday, April 3, it was suggested the corresponding secretary get in touch with the Institutes and the C.W.L. in the country districts and that representatives from the different organizations be invited to attend a central executive meeting at a later date, notice of same to be given through the press.
