New Library Endowed

By the will of the late Mr. Percy Pope it is understood that a bequest has been made to the new public library in the way of literature and a substantial endowment, the latter to the extent of about \$500. Several hundred books have also been left to the institution, all the type which one would expect to find in the library of a cultured man, all of distinct value and covering a wide range of subjects—science, biography, fiction, poetry. There was also included in the bequest a sectional book case.

TWO KILLED

(Canadian Press)
HAMILTON, Ont., June 15.—Two persons were killed, and a third is believed dying as a result of the plunge by an automobile down the James Street incline railway, on the mountain side here this morning. The dead are: Mrs. David Birthing and Alexander Dix, both of Delhi, David Birthing, also of Delhi, is in the General Hospital suffering from fractures of both legs, concussion and shock, and it is not believed that he will recover.

Flying Officer's Narrow Escape

LONDON, June 15.—Hanging head downward from a runaway balloon Flying Officer Felham Groom, of the Royal Air Force, had a hair-raising escape from death during gunnery practice in Wales today. The officer, with Sergeant G. W. Robinson, had been up several hours, observing gun-fire below and was being headed to the ground when the balloon's hawser snapped. The balloon shot to a great height with the two men aboard and was blown out of sight across the desolate Welsh mountains where it drifted 15 miles. The men tried frantically to pull the gas valve cord to bring the balloon to the ground. An upward current of air just saved them when the balloon was heading straight for the electric wires of the North Wales Power Company.

Finally Sergeant Robinson managed to jump out, but his companion became caught in the basketwork and was blown up in the air, hanging by his legs from the rigging. For two miles Sergeant Robinson chased the balloon with its dangling passenger over ditches, hedges, thickets and bogs, until at last he caught it. Neither man was seriously hurt.

DUBLIN, June 15.—Captain Charles Kingsford-Smith, Australian aviator, fears he may have to wait another week before beginning a flight to the United States in the famous airplane "Southern Cross."

Reserve Thursday, June 20th, for Greenvale annual ice cream festival. 4453-6-14-11.

Tonight, Bazaar and ice cream social, Central Bedquees Schoolhouse, Women's Institute. 4453-6-16-11.

The Semi-annual meeting of Queens County L.O.L., will be held at Argyle Shore on June 21st, at 8 o'clock. 4464-6-16-21.

Mrs. E. Corbie, of Jones Bros. Toronto, will be at Miss MacDonald's Beauty Shoppe, 37 Grafton St., over Reddin Bros., June 17th, until further notice doing permanent waving. Tel. 158-L, or write Box 313 for appointment. 4467-6-16-11.

The Lot 14 dramatic club will present their four-act play entitled "Molly Bawn" in Malpeque Hall, June 16th. Good specialties between acts. Admission 25 and 35 cents. Come one, come all and enjoy a real play. 4461.

Under the auspices of the Dundas Y.P.E., the Morell players present "Introducing Anne" in Bridgetown Hall Tuesday, June 17th. Good specialties. 4468-6-16-11.

Her Majesty Queen Mary And Little Grandchild

Although the cynosure of all eyes, the charming offspring of the Duke of York, unflustered by this mark of attention, maintains her royal dignity, in one of her few public appearances. Princess Elizabeth, favorite of the British people, is seen in photographs leaving with her grandmother, Queen Mary of England, after attending the royal tournament at Olympia, London, recently.

Gets Portfolio Dr. Cyrus MacMillan Appointed Minister Of Fisheries In King Cabinet.

(Canadian Press)
OTTAWA, Ont., June 15.—Dr. Cyrus MacMillan, Professor of English at McGill University, was appointed Minister of Fisheries at yesterday's Cabinet meeting. W. F. Kay, ex-member for Bromo, Mississquoi, was appointed Minister without portfolio. The appointment of Mr. Kay gives Cabinet representation to the Protestant minority in Quebec, which representation has been lacking since the death of Hon. James A. Robb. No appointment was made of a Minister from British Columbia, but it is expected that a selection of a Minister from the Pacific Coast Province will be made soon. Hon. J. H. King recently appointed to the Senate, still holds the Portfolio of Pensions and National Health.

Smuts Makes Clean Sweep

DURBAN, Natal, June 15.—The South African party, of which General Jan Christian Smuts is leader, made a clean sweep in the recent elections for the provincial council, winning all twenty-five seats. This is a unique feat in South African politics. The South African party had twenty seats in the old council.

Pleasure Cruise Ends In Tragedy

(Canadian Press)
CLEVELAND, Ohio, June 14.—A pleasure cruise of three men and a girl in a small sailboat on Lake Erie, ended with tragedy today. All of the men drowned when the craft capsized. The girl was rescued after she had spent three hours in the water clinging to a life preserver.

This Bandit Knew What He Wanted

(Canadian Press)
CHICAGO, June 15.—He was a bandit who knew what he wanted, which was \$700; and when the paying teller of the Superior State Bank, at the urge of a pistol, pushed forward a package containing \$5,000 the robber objected. "I don't need that much," he said, whereupon he carefully counted out \$700, put it in his pocket, and walked out.

Crop Conditions Bad In The West

WINNIPEG, Man., June 15.—Western Canada is burning up and its crop is blown out of the ground, in many places rain is actually needed, yet the wheat market is not showing much effect. From Three Hills, Alberta, comes a typical report as follows: "Three Hills district needs rain, crop going back every day, very dry. Soil drifting caused by excessive high winds; also several reports of cut and wire worms doing severe damage. Conditions are not as good as his date last year and unless rains received by next Sunday our crop will suffer severely, as the weather last four days has been 75 to 80 and high winds with no rain."

Aldermen Out Of Luck

(Special to the Guardian)
TORONTO, Ont., June 15.—Toronto Aldermen cannot receive the increased remuneration which they voted themselves two months ago, until next year. This is the effect of a judgment handed down at Osgoode Hall today by Mr. Justice Kelly, granting E. Robertson an injunction, restraining the City from paying the increase stated by the City Council in April last. His Lordship says: "It comes down to this, that though section 455 of the Municipal Act) as amended, gives power to Council to pass by-laws for payment of annual allowances not exceeding \$1,200 to Aldermen, the terms and conditions by which that power must be exercised were not observed and the power has not been effectively exercised. In consequence, the defendant is not entitled to pay increased remuneration to Aldermen for the year 1930, and shall be restrained from doing so."

The Weather, etc.

TORONTO, June 16.—Moderate to fresh westerly winds, mostly fair and warm, possibly a few local thunder storms. High tide this afternoon at 1:28 and tomorrow morning at 3:14. Sun sets this evening at 7:53 and rises tomorrow morning at 4:06. Last quarter moon Thursday, June 19, 4:36 a. m. Summerside tide eighteen minutes later than Charlottetown.

Tornadoes Take Heavy Life Toll

Damage In Wisconsin Villages Is Estimated at More than Million Dollars—Many Dead.

(Special to the Guardian)
ST. PAUL, Minn., June 15.—National Guardsmen patrolled storm-twisted ruins of southern Minnesota after they had been swept by tornadoes that left a toll of five dead. Damage is estimated at more than a million dollars. Four people were killed at Monowise, Wis., when the wind wrecked their homes. A freight car was lifted from the rails at Randolph, Minn., and flung against a workman killing him instantly. Small children were missing in some parts of the storm area, and relief parties reported at dawn today to give aid to those injured in more remote parts of the country. Scores were injured. Striking three times in southern Minnesota, the twister curled just south of St. Paul and darted into Wisconsin, hammering at the towns along the route between Ellsworth and Eau Claire. Nearly seventy-five persons were brought to hospitals with injuries. Two companies of National Guards were on duty at Oslo, Sergeant and Randolph, Minn. Like an angry python, the wind whipped in and out among the villages, leaving some devastated and others nearby untouched. At Randolph the storm cut a swath two miles long and a half mile wide. Half the buildings in some towns today were only piles of debris where the owners half heartedly sought to rescue a few belongings. Curling the edge of the St. Paul suburbs the tornadoes swung into Wisconsin.

Naval Treaty Gives United States Parity With Great Britain

(Canadian Press)
NEW YORK, N. Y., June 15.—The Naval Treaty gives the United States a parity with Great Britain for which it otherwise would have to expend \$2,000,000,000 over a period of 15 years, remaining inferior in sea power during that time. Ambassador Charles G. Dawes said on his arrival from London last night on the Cunard liner, Aquitania. Dawes expressed confidence the Treaty would be ratified by the Senate. In a prepared statement, he pointed out that the difference between the United States and Great Britain in tonnage was relatively small, 15,500 tons between fleets of 2,500,000 tons each and said Treaty critics were magnifying small differences between what each nation wanted and what each nation got. "The firmness of the settlement is demonstrated by the fact that the opponents of the treaty in Japan claim that England and the United States got the advantage. The opponents of the Treaty in the United States claim that Great Britain and Japan got the advantage. The Treaty, Dawes, said protects this country both in the Atlantic and Pacific. Dawes attended the Lawrenceville, N. J., preparatory school commencement today, where his son is a graduate. His nephew and secretary, and Sir Henry Cole, director of the British Department of Foreign Affairs and Expositions, proceeded to Chicago, both are on the advisory staff of the Chicago World's Fair.

BLUENOSE TOTAL LOSS

(Canadian Press)
ST. JOHN'S, Nfld., June 14.—All attempts to save the schooner Bluenose by jettisoning her salt cargo have failed, and efforts of the steamer Argyle to pull the erstwhile speed champion of the north Atlantic off the rocks at Point Roche, Placentia Bay, have proved unavailing. It is now believed the schooner will be a total wreck. The Bluenose was on her way to Agnetia, to take on caplin as bait for the Banks, when she grounded near the harbor entrance Friday Morning.

Alleged Libel In N.B. Campaign

(Canadian Press)
WOODSTOCK, N. B., June 14.—Wendell P. Jones, K. C. of this town, Leader of the Opposition Party in New Brunswick, today retained Winslow and McNair, of Fredericton, as solicitors for himself to demand retraction from St. John Telegraph Journal and any other newspapers which might publish the advertisement headed "liquor joke barred." Like action will be taken in regard to the authors of the advertisement, which appeared today for the first time as part of the Provincial general election campaign. The libel alleged in the advertisement mentioned is contained in the intimation that the Carleton Sentinel published in Woodstock is "his own (Jones) paper, and also in the intimation that he made a statement to the effect that the present New Brunswick liquor act is well enforced.

MONCTON, June 14.—John Gillies, of the Dominion Live Stock Branch who has been attached to the Charlottetown office for the last four years has recently been transferred to New Brunswick. Mr. Gillies is one of the pioneers in co-operative marketing work, having had a personal interest in this work for many years. The expansion of co-operative marketing on the Island is the result of the untiring efforts of those who sponsored and followed up this work in the interests of producers. In New Brunswick, the livestock producing areas are more widely scattered than on Prince Edward Island, which has made organization for marketing purposes more difficult and less effective. Realizing the benefits of such methods of marketing, many districts in this province have asked that assistance be given them in organizing for such work, therefore, the Dominion Live Stock Branch in response to such requests, has made the services of Mr. Gillies available. He will be attached to the Moncton office of the Branch and will work in the English sections of the province in close connection with the Maritime Marketing Board, Inc., and agricultural representatives of the Provincial Department of Agriculture.

TOURING THE MARITIME PROVINCES

Mr. W. C. Burkholder, Chief Engineer of C. N. Telegraphs, Prophecies Automatic Train Control.

Touring the Maritime Provinces for the first time in connection with the work of his department, Mr. W. C. Burkholder, chief engineer of the Canadian National Telegraphs, and the man who made it possible for the Canadian National Railway to establish and maintain a two-way telephone communication from a moving train, arrived in the city Saturday evening. Mr. Burkholder, accompanied by his assistant, Mr. A. S. Cook, have inspected telegraph lines in New Brunswick and Nova Scotia, and also the office at Summerside.

Speaking in regard to the newly developed means of communication, when interviewed by a Guardian reporter Mr. Burkholder stressed the fact that it was a development rather than an invention, and moreover, merely a first step in development. Soon, Mr. Burkholder prophesied it will not only be possible for the dispatcher and engineer to converse or to establish this type of communication between the rear of the train and the engine but also to inaugurate automatic train control.

Up till the present time commercial service has been established on two trains only, the International and the Maple Leaf, both travelling between Toronto and Montreal. As the present range of conversation is only 200 miles, two terminals are necessary between the cities. However, in three or four years the range will extend to 350 miles. The development took two years to complete, and commercial service was begun on April 27, 1930.

To demonstrate Mr. Burkholder will, on Tuesday next, while travelling between Montreal and Toronto address the assembled delegates of the American Institute of Electrical Engineering, who at that time will be convening in the latter city.

Mr. Burkholder anticipates, next year, improvements and rearrangements in the plants here, and in those at other points in the Maritime Provinces. This year the carrier system was installed in Moncton, and it is expected that the same will be done at other points.

Telephonic communication on board a moving train is accomplished by means of a system embodying the carrier telephony principles. The telegraph lines paralleling the railway track are used as longitudinal conveyer between the terminal pick-up points and the car. In this manner, the actual ether distance is reduced to only that between the telegraph line and the railway tracks.

King Will Deliver His Keynote Speech

(Canadian Press)
OTTAWA, Ont., June 15.—This will be an eventful week in the Dominion general election campaign. Tomorrow night Premier Mackenzie King will deliver the keynote speech for the Liberal party at a meeting at Brantford. His words will be broadcast across Canada. It will probably contain a review of the record of the administration of which he is the head, a reply to the keynote speech delivered by Hon. R. B. Bennett, Conservative Leader in Winnipeg a week ago, and an announcement of the Government's plans, if returned to power.

With the difference in time, Hon. R. B. Bennett will probably be able to listen in on Mr. King's speech before he begins his at Victoria, B. C., the same night.

The Sales of ROBIN HOOD Flour are Increasing, There's a Reason --- QUALITY
