

GOING MAD FROM THE TERRIFIC PAIN

Prominent Merchant Thinks His Life Was Saved By "Fruit-a-lives".
 DRYSDALE, ONT., June 15th, 1913.
 "I am a general storekeeper at the above address, and on account of the great good I have experienced from using 'Fruit-a-lives', I recommend them to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrific pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took 'Fruit-a-lives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-lives', and I verily believe they saved me from a disastrous illness."

 RESERVE MONDAY, July 27th., for the big Tea at Union Road, in aid of the church. 358c.

CROPS LOOKING WELL.—The crops in general in the central part of the Island are looking fairly good, the heat making everything grow, but what is wanted is a good shower of rain; the rain that came before now having done little or no good as it was always so cold afterwards.

AN IMPORTANT EVENT.—The schooner T. J. Martin arrived at Rustico on Saturday evening, consigned to Mr. W. W. Fyter with a cargo of 170 tons of coal. This is the largest craft that has been able to enter this harbor for a number of years, and that this desirable condition has been brought about is due to the good work done by the dredging plant of Mr. Vivian T. Barron in connection with the Dominion Department of Public Works. The inhabitants of Rustico greatly appreciate the work that has been done in deepening their harbor, and recognize in connection therewith the yeoman services rendered by their representatives in the Dominion House, Messrs. D. Nicholson and A. A. McLean. They hail the event of the entry of the T. J. Martin as marking a new era in their prosperity, being formerly handicapped by the limitation of the accommodation of that port.

CHRISTIAN CONVENTION.—The closing sessions of the Christian Convention at Montague were marked by increasing attendance and interest. In the forenoon Saturday the work of the Bible school received special attention, an address on "The Adult Class" being given by W. H. Harding, and another on "Teacher Training" by C. A. Hatfield. W. D. Wilson, Secretary of the Temperance Alliance, spoke on "Constructive and Destructive Forces," and vividly portrayed the conflict between the Church and the liquor interests. A helpful sermon was preached by W. P. McVie, his subject being "Pure Religion." In the afternoon an address was given by W. E. Piper on "The Relation between the Spiritual and Financial Conditions of the Church." J. H. McNeill, of Winchester, Kentucky, gave an inspiring talk on Bible school work. The latter part of the afternoon session was occupied with the completion of unfinished business. It was decided that the convention should be held next year at Murray Harbour; July 8-11. Evangelist L. C. McPherson preached the sermon of the evening, his subject being "How to Receive and Enjoy the Holy Spirit." After the sermon, W. H. Harding made an appeal for money for P. E. I. missionary work, and in a short time the sum of \$1,200 was subscribed. This amount was increased by cash offerings to \$1,293.14. Sunday morning the devotional service was led by A. P. Wells, several others participating. The sermon of the forenoon was preached by W. H. Harding, Text 2 Cor. 10:45. The communion service was conducted by L. C. McPherson. In the afternoon at 3 o'clock W. H. Bell preached, subject, "The Intensity of Christ." In the evening an evangelistic sermon was preached by L. C. McPherson, who begins a series of special meetings at the Montague Church immediately after the convention. Special music added much to the enjoyment of Sunday's services. A solo was rendered by Mrs. A. N. Simrén at the morning service and another by Mrs. M. P. Ståhrman in the afternoon. In the evening a mixed quartet sang. The convention was brought to a close Sunday evening by a "Mizpah Service," at which several delegates gave expression to their enjoyment of the convention, their gratitude to the people of Montague, who had entertained them, and their hopes and aims for the coming year.

ANNOUNCEMENT.—Dr. and Mrs. George Carruthers announce the engagement of their daughter, Georgie, to Mr. W. J. Reid, B. S. A. of the Department of Agriculture, the marriage to take place on the last Wednesday of the month.

Mr. Arthur R. Bishop, Provincial Manager of the Sun Life, Charlottetown, leaves today for Hong Kong, China, where he will assume management of the company's agency in Hong Kong, which is of considerable importance. Mr. Bishop has been all round the world in the capacity of representative of the company. This will be his second trip to Hong Kong, and he was for a time stationed in Singapore. Mr. and Mrs. Bishop have made many warm friends in this city who will wish them bon voyage on their long journey.

TRIPPERS RETURN.—Mr. J. P. Hood and party, eight in all, returned yesterday from a delightful two weeks cruise in Mr. Hood's house boat Doris to Tidnish N. B., Bâie Verte, Capes Tormentine and Travers, yesterday's leg of the cruise being from Summerside to Charlottetown with a call at Victoria. The outing throughout was declared by all to be the most enjoyable of many enjoyable voyages in this model and well appointed craft. The weather was favorable, many friends were met on both sides of the Northumberland, and entertainments on land and at sea made up an outing with only one regrettable feature, namely, that it came to an end.

ONE BASEBALL LEAGUE GOES, ANOTHER COMES

WESTVILLE, N. S., July 17.—The church baseball league has disbanded in order to permit of the formation of another league being formed. The church league had five teams entered and handed out some fast ball. The new league will consist of three teams only, the pick of the players who have done themselves credit this season.

FIRE IN WESTVILLE

WESTVILLE, N. S., July 17.—Mrs. Bailey's house, which is situated near the railroad track, was badly damaged by fire. It is supposed the roof caught from sparks that flew from a passing locomotive. The local fire brigade was on the scene in short notice but there was such a high wind that the house was badly damaged before the flames were under control.

DELICATE OPERATION PERFORMED

PARIS, July 17.—The two sisters who were born March 12th joined together, back to back, in the lumbar region, were cut apart yesterday. This difficult operation was performed by Dr. Mignot, assisted by C. W. Dubouché. The most delicate part of the operation was the dissection of the intestines which at one point were united for a space of an inch and a quarter.

SELECTING AN IRONING BOARD.

In selecting an ironing board, often one makes the mistake of getting a board too soft for practical work. It is well to have the board long enough to permit ironing a skirt from hem to band without moving the garment on the board, says the *Nov Orleans Picayune*.
 The board having been selected, attention should be given to the matter of covering. If the board is well covered the ironing will be more expeditiously accomplished. There is nothing better for covering the ironing board than two or three thicknesses of padding such as is used for silencing cloths on the dining table. Over this stretch a piece of unbleached muslin. Old sheets are sometimes used but they soon look soiled, and the task of recovering must be repeated.

PRINCE'S TRIP WAS PROHIBITED BY EMPEROR.

BERLIN, July 17.—Crown Prince William's trip through the German colonies, which he desired to make this year, but to which the Emperor refused to consent, may be made in formed sources. The consent of the Emperor has been gained, and all that now remains to be done is to induce the Reichstag to appropriate \$45,000 for expenses. This, however, is likely to prove a serious obstacle. When the subject was mooted during the last session of the parliament it encountered so much opposition that the Emperor's decision to refuse to permit the Crown Prince to make the trip was in part actuated by the attitude of the Reichstag. Other reasons for the Emperor's refusal are understood to have been his wish that the Crown Prince should first do some real work with the General Staff, and his conviction that proper preparations to protect the personal welfare of the future ruler had not been taken. The latter objection, it is reported has been removed and the other will have been removed by next spring.

HOUSEHOLD HINTS.

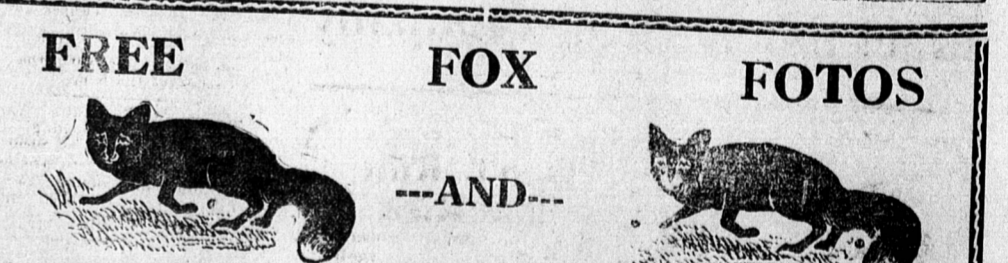

- In making salad dressing, cream and melted butter may be used in place of oil.
- Soup should never be boiled in an iron vessel; porcelain or granite iron are better.
- For the bathroom, cork mats which can be rolled up are among the sensible accessories.
- Rag rugs made of cotton wash well, are inexpensive and are often just the thing for the kitchen.
- It is best not to serve the same dish twice a week unless it is a vegetable, as every one likes variety.
- Don't forget to close the refrigerator door each time you raise the lid; the lid will last much longer.
- Oysters chopped and served in the gravy of a particular fancy porter house steak are delicious.
- The ham should be left in a roast; it will help to keep the juice in and will add flavor and sweetness.
- Damp sals is an excellent thing to remove stains on cups and saucers caused by sea and careless washing.
- Always take off the draughts of the kitchen as soon as you have finished a meal, thereby saving fuel.
- When choosing potatoes take those of medium size, free from blemishes and of a yellowish white color.

KILLED BY TRAIN.

SYDNEY, July 17.—Donald Martin, one of the best known residents of the county, was killed by a Sydney and Louisburg coal train in front of his own gate at the Gardiner, near the town of Donington, yesterday evening. The body was found lying on the track at an angle with the head on the rail as if he had fallen and been stunned by hitting his head against the rail.
 The trainmen saw him lying there, but it was impossible to stop the train, as it was a heavy one and on a down grade. The whole train passed over him, crushing his head, knocking his brains to one side, and cutting his legs up terribly.
 Mr. Martin was 75 years old. The oldest daughter is a nurse in the Children's memorial hospital in Montreal. His brother Rory died a number of years ago in China.
 This spring his son John, was found dead in a pond at Waterford, after being missing for several months.

Starvation In The Midst Of Plenty

Many are actually starving, even though eating heartily three times a day. They are starving because the usual diet lacks certain essential elements.
 In making white flour, the outer coat of the wheat, containing the phosphate of potash and other vital mineral salts, is discarded. These mineral salts are absolutely necessary to nerve health and therefore to body health.

Grape-Nuts

FOOD
 contains the whole nutriment of wheat and barley, including the mineral salts. The malting of the barley starts digestive processes and the 20-hour baking breaks down the starch cells. Grape-Nuts food digests in about one-third of the time required by white bread.
 Ready to serve—convenient, healthful and appetizing
