Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Bank of Montreal from its Branches. Our Managers have knowledge of each local situation and are in touch with crop conditions in all sections of the districts mentioned.

General
 In the Prairie Provinces, wheat seeding is about finished, except in a few scattered points in northern districts. Seeding of coarse grains is practically completed. The weather during the past month has shown extreme variations, with temperatures ranging from below freezing to 80 degrees. Frost damage was slight to early-sown wheat, which is showing up well because reseeding of coarse grains has been necessary. Due to high temperatures and drying winds, soil drifting is reported in many points. Precipitation has been below normal and good general rains are needed to bring conditions to normal. In the Province of Quebec, wet and cool conditions during recent weeks have delayed much of the seeding of coarse grains. In the Maritime Provinces, wet and cool conditions during recent weeks have delayed much of the seeding of coarse grains. In the Maritime Provinces, wet and cool conditions during recent weeks have delayed much of the seeding of coarse grains.

Sailing Classic Resumed After War

BY CARLE HODGE
 NEW YORK (AP)—A Manhattan textile merchant's trim 75-foot yawl will defend its crown as the first ocean race to Bermuda in eight years.

With 40-odd other competing yachts, Henry C. Taylor's Bermuda will skim out of the broad, blue harbor at Newport, R.I., June 29. At the finish line of this No. 1 test in U.S. sailing, at St. David's Head lighthouse 68 nautical miles away, boasting's silver galleon, the Bermuda Trophy, awaits the winner.
 In 1906, Baruna grabbed the cup by navigating the treacherous trip of 78 miles by land measurements—in 91 hours, 5 minutes, or three and three-quarter days.
 Then war made a dead calm for the bi-annual Cruising Club of America classic.
 John Alden goes to the fleet of schooners named Malabar—"corrected" time, with handicaps yachts has weathered.
 There are awards, too, for the winning navigator, the most rapid and the most economical. The 54-foot schooner—and for the slowpoke yacht which blows in.
 To enter, boats must measure over-all at least 35 feet, and both the master and navigator must be amateurs.
 John Alden, Boston boat designer who won the Bermuda Trophy in 1926 and 1932 and class prize in three other years—with three different schooner named Malabar—will try for another trophy. He will skipper the Malabar 13th, a 54-foot schooner, winner in the 15th Bermuda race.
Sailed On Ranger
 The sailing Stevens brothers, Olin and Rod, will race the Mink, a 45-foot sloop. New York boat designer, they were members of the 1934-35 and 1936-37 races. Rod Stevens topped Class B—for smaller boats—in the 1932 Bermuda race with his yawl Borade. Naval Academy, midshipman from Annapolis will race the Vandyke, a 45-foot ketch which twice, in 1904 and 1906, won the Bermuda trophy for the course. It never, however, won either the trophy or a class prize.
 Flying the colors of England's Royal Ocean Racing Club will be the 56-foot yawl Letitia, the only foreign entry. Letitia started in the 1934-35 race, but rigging trouble forced her to drop out.
 Baruna and Vandyke—near the 75-foot maximum limit—probably will be the biggest racers. The smallest, perhaps, will be the 37-foot 36-foot sloop Fun whose home port is Fort Washington, N. Y.
 Royal speaking, Class B for smaller boats in all those races, varies from race to race. It may be 45 or 50 feet, or 35 or 40 feet, or 30 or 35 feet, or 25 or 30 feet, or 20 or 25 feet, or 15 or 20 feet, or 10 or 15 feet, or 5 or 10 feet, or 0 or 5 feet, or 0 or 10 feet, or 0 or 15 feet, or 0 or 20 feet, or 0 or 25 feet, or 0 or 30 feet, or 0 or 35 feet, or 0 or 40 feet, or 0 or 45 feet, or 0 or 50 feet, or 0 or 55 feet, or 0 or 60 feet, or 0 or 65 feet, or 0 or 70 feet, or 0 or 75
