CANADA'S BUMPER WHEAT CROP

"I SHOULD WORRY!"

to see that they have seen where their and every young man's duty lies and have taken the first steps towards performing that duty of their own free will and accord. I am proud of them and I wish to tell them so.

When they reach the firing line the goal of every true soldier, I wish to tell them not to be afraid of being afraid, for the bravest man is the man who is afraid yet does his duty bravely in spite of his fear; while the cowardly man is the man who is not afraid in far less brave than the man who is afraid, yet does it.

When they reach the firing line let them fight like mad, ask no quarter and give none. Fight to the last gasp, for they need expect no mercy from the Germans. Kill and keep up the reputation so hardily won at Langemarck, St Julien, Ypres, Passchendaele and Givenchy. The first contingent have set the pace, let the young men that are coming up now keep it up or beat it, always remembering that they are fighting for humanity; justice and right.

But above all, men, have patience. The course of training is hard and tiresome in the extreme but it is necessary and more than repays when once one reaches the firing line, for the joy of battle in a righteous cause is the most elevating thing in this world. If it had been in my power would I have missed one moment of it? No! No! No!

True there are many hardships to contend with but we also have many hardships all through life and we all have to endure them.

TO THE UNENLISTED.

Now to the young men who have not enlisted. What are you thinking of? Do you ever think about the thousands of brave Canadian boys who are weltering in their blood in France and Belgium. Are you going to stand at the street corners, far from the scene of action and talk about what we have done instead of being here helping us? Are you going to stand idly by and look at what we have gone through? Think of the wounded, bayoneted and crucified! Think of the thousands in the hospitals, going manfully back to the firing line again, and in many cases again and again. Why? Because if they don't all their labour, suffering and agony shall have been in vain.

I suppose many of you stand at the corners discussing this war problem and say amongst yourselves that you could come over here and do a lot more, and perhaps teach many of our Generals how to conduct the war to better advantage. If so why then aren't you in the Kings uniform? Think of you shirkers at home who are too selfish and too cowardly to come to our assistance, you so called men whose shameful excuse is that you have a wife at home, and that your business would suffer. God help you and your wife and your business, if the Germans ever get the upperhand, which God grant they never will so long as there is a real man left in the Empire!

What would be said of men of a town or village, who stood idly by and watched a few of their number fighting a fire that threatened to overwhelm that town or village and would not go to their assistance because they might get their clothes wet or their hair singed? Yet young men that would be a paltry crime, compared to the one you are committing by idly watching your fellow countrymen fighting and dying and you not going to their assistance? I suppose many of you will be saying, "If they want me they can fetch me." To you I will say What would have happened to the rule of the Kaiser, had you not been there to give up this heritage without striking one blow in its defence; if so you are unfit to be called Britons. But I am sure the spirit of all true Canadians is not to bow down to the rule of the Kaiser, no more than did our forefathers bow down to the tyrannical rule of King John.

The destiny of Canada is being fought on the European battlefields today, the same as if it were fought on Canadian soil.

Are you young men now ready and willing to uphold the glorious freedom you have always enjoyed? Think it over seriously. When the war is over will you be able to say: "My country called I answered, or will you look at my boys in the face and say: "I wish I had gone to and shared in the honors of the battlefield and of the nation."

May those five words "MY COUNTRY CALLED, I ANSWERED" ring in your ears till you have put on the uniform and come to our assistance.

We are in a battle struggle and need your help. The first Canadian Contingent have shown the greatest gallantry when in tight corners and not only fought hard but surprised the enemy, and not only opened the eyes of the nation but the eyes of the whole world. Such gallantry has never been beaten, and I hope and trust that you young men who are aching now will awake to the fact that your help is needed now, and that you can be equally as gallant as those who have won honor and glory, not only for themselves but for the Empire.

ALWAYS REMEMBER THAT THE JOY OF BATTLE IN A RIGHTeous CAUSE IS THE MOST ELEVATING THING IN THIS WORLD.

Trusting that you young men of P. E. Island will rally to the colors and come to our assistance in the near future. I remain yours in the nation's cause.

R. C. H. A. Brigade,
Belgium.

FAMOUS ECHOES.

Among the most noted echoes is that heard from the suspension bridge across the Menai Strait. The sound of a blow from the hammer on one of the main piers of the structure is returned in succession from each of the cross-beams that support the roadway and from the opposite pier at the distance of 576ft., in addition to which the sound is many times repeated between the water and the roadway at the rate of twenty-eight times in five seconds.

Outside Shipley Church, in Sussex, is an echo which repeats twenty-syllables in the most remarkable manner.

The famous echo of Woodstock, when awakened, answers no fewer than fifty times.

In the Whispering Gallery of St. Paul's Cathedral the faintest sound is faithfully conveyed from one side of the dome to the other, but cannot be heard at any intermediate point.

In Cloudester Cathedral a gallery of an octagonal form conveys a whisper 75ft. across the nave.

ABSORBINE

Removes Bursal Enlargements, Thickened, Swollen Tissues, Curbs, Filled Tendons, Soreness from any Bruise or Strain; Stops Spavin Lameness. Alleviates Pain. Does not Blister, remove the hair or lay up the horse. \$2.00 a bottle, delivered. Book 1 K free.

BASIC SLAG

(Sometimes known as Thomas Phosphate Powder)

The two sources of Phosphoric Acid, the element of fertility lacking to the greatest extent in the cultivated soils of the Maritime Provinces, are Basic Slag and Acid Phosphate, or Superphosphate. These two Fertilizers both contain from 250 to 300 lbs. of available Phosphoric Acid to the ton.

BASIC SLAG

Contains in addition to the Phosphoric Acid from 800 to 1000 lbs of Lime. In the form in which this Lime exists it does not burn up the humus in the soil like burnt Lime. It is calculated that 95 p.c. of the soils of the Maritime Provinces are sour and the effect of an application of Basic Slag is to correct this acidity.

BASIC SLAG

In addition to the Phosphoric Acid and Lime contained in Basic Slag there is also present a quantity of iron, the effect of which is to aid bacterial growth in the soil, a matter of the highest importance.

BASIC SLAG

Also supplies magnesia and manganese, which in conjunction with the other elements present, especially Lime, will prove a great aid to the farmer in rendering available the crude potash contained in the soil and making him independent of potash which in former times was supplied at enormous cost from Germany.

BASIC SLAG

Is the only phosphatic fertilizer in which all these valuable elements are combined. Do not overlook the fact that when you buy a ton of Basic Slag you get as much available Phosphoric Acid to the ton as in any other fertilizer and in addition you have the benefits of the other elements referred to herein.

The Maritime Hide Co., Ltd
Newcastle, N. B.

have decided to open a branch of their business in Charlottetown which will be under the charge of the Mr. C. S. Amos.

The Company pay the highest prices for Hides, Skins, Wools, Raw Furs, old Rubbers, Hair and Junk.

Prof. Cumming of the Agricultural College, Truro

In the annual report of the Dept. of Agriculture for Nova Scotia, for year 1914, writes, referring to their experiments in connection with commercial fertilizers as follows:

"In our experience with roots the best results were obtained from Phosphoric Acid, either in the form of Acid Phosphate, or Sydney Basic Slag. The addition of Muriate of Potash did not materially increase the yield. The heaviest yields of mangels were in the plots treated with Slag instead of Acid Phosphate. In the turnip fields Basic Slag gave better results than Acid Phosphate. Where potash was used on this land there was no advantage"

Foley, 404 Charles St., Malden, on Dec. 27, Services at the Church of the Immaculate Conception, Interment at St. Joseph's Cemetery, West Roxbury.

ADDRESS AND PRESENTATION

A very pleasant time was spent at the home of Capt. Dan Sutherland, Stanley Bridge, on Christmas night when a number of people of the vicinity assembled to bid God-speed to the boys in Khaki who have enlisted from that part of the country in the 16th Battalion. The evening was spent with speeches, music, singing and dancing. Special mention may be of the splendid singing of Mr. and Mrs. H. P. Found also excellent violin mu-

ISLAND BOY'S APPEAL

To the Young Men of Prince Edward Island to Rally to the Colours and to Support those Already at the Front. The Joy of Battle in a Righteous Cause is the Most Elevating Experience in this World.

A New London P. E. I. boy, L. E. McKay, who enlisted in the Royal Canadian Heavy Artillery at Calgary at the outbreak of the war, and is now at the front, sends The Guardian the following appeal to his fellow Islanders to rally to the flag, Belgium, Nov. 26th, 1915.

To the Editor Guardian.

Sir,—In looking over the Canadian papers I came across a P. E. Island paper and in reading its columns I saw the names of several boys whom I used to know well when on P. E. Island my native province and I am delighted to know that they have answered their country's call to arms. As I was writing a letter home to the Calgary News Telegram I thought a similar letter to P. E. I. papers would be perhaps a help to recruiting and be of some cheer to those brave boys who have offered their services to the Empire in her hour of struggle here but we are in a great struggle here but we are determined to win, and all is going as well as can be expected here. The weather is wet and cold and the hardships are many, but the spirits of the boys are good and they carry on their brilliant work as though the weather was the best. The water is about eighteen inches deep in the trenches and the mud is awful. The fighting is severe and we are gaining ground slowly but surely. The enemy makes it quite interesting for us at times, but they have learned to fear the Canadians, for they are a gallant lot of men and afraid of nothing the enemy can hand out. I am sure the boys from P. E. I., who are coming over later to assist us will be just as brave. I am delighted to see that several of the boys whom I used to know in New London have joined the colors. I am indeed very pleased

AGENTS WANTED

AGENTS WANTED TO SELL FOR the old reliable Ponthill Nurseries. We teach our men to sell. Experience unnecessary; highest commissions paid; handsome free equipment. Stone & Wellington, Toronto, Ont. 5462-12-M261.
