**Headaches Mean Your Blood Is Poisoned**  
If your bowels, kidneys or skin are not ridding the system of waste-matter, the blood is laden with impurities, which inflame the nerves. It is these irritated nerves that make the head ache.  
Powders and pills won't cure, they merely drug the nerves into unconsciousness and relieve for a short time.  
**"Fruit-a-tives" cure Headaches, Neuralgia and Nerve Pains**  
because they purify the blood. They act directly on the three great eliminating organs—Bowels, Kidneys and Skin—and restore them to healthy action, thus ridding the system of all poisons.  
"Fruit-a-tives" are fruit juices—chemically changed, by the process of combining them, into a far more effective medicinal compound than the natural juices. See a box—6 for \$2.50. At all dealers or from Fruit-a-tives Limited, Ottawa.

**THE GUARDIAN**  
**COVERS THE FIELD**  
The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.  
With a daily circulation of its morning and evening editions now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.  
Charlottetown has a population of 12,000 and Prince Edward Island has 105,000. The Guardian's daily circulation is therefore as 1 to 15 of population in the city in which it is published, or 1 to 13 of the population of the Province. This is the management believes unequalled by any daily newspaper published in Canada.  
Take one or two comparisons with other leading newspapers in other cities and provinces.  
St. John has a population of 40,000 and the Province of New Brunswick 320,000. St. John has five newspapers and among these The Telegraph and The Sun are

8-21dmwfmwff

perhaps the foremost. Each claims a circulation of about 8,000 or say 1 to 5 of the population of that city and 1 to 10 of the population of the Province.  
Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,250,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 30,000. That is 1 to 5 of the population of Toronto and 1 to 15 of the population of Ontario.  
The point is this: The Guardian covers the field of its circulation three and a half times as well, it compares with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.  
These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal is endorsed by the reading public, among whom it circulates and how completely it covers the field on an advertising medium in this City and Province

**Dr. Coderre's Infants' Syrup**
