## STYLE IN MILLINERY

Is not a mere matter of dollars and cents—not the consequence of leaving an order. It's the result of ARTISTIC TASTE without which the best efforts are dismal failures.

That's the reason this store's millinery gives such entire satisfaction, the reason that of hundreds of millinery customers this spring, none were dissatisfied. All are united in praising the artistic work of our splendid milliners.

New shapes and trimmings arriving almost daily makes it easy for us to satisfy the most particular. There isn't any other store in so good a position to make your new hat as this store.

And—albeit it may not be a consideration—the price will be much less than you might expect.

## THE SULTAN CLAIMS SINAI

CAIRO, June 23.—The Mussulman population Egypt now knows that the Sultan is claiming Sinai territory in virtue of its being Shabanah land, which is as much as to say that it is sacred. It would be possible to electrify Islam with a watchword like this. For the present, and until further orders, El Arish is under martial law, and therefore depends on the Cairo War Ministry. Kaimakam Parker, of the Intelligence Department, will for some time replace the naval Governor of El Arish who has been recalled, his astonishing apathy in the presence of Turkish aggression having highly displeased the Khedive and his advisers.

## REVOLUTIONISTS STILL HOPEFUL

MEXICO CITY, June 23.—Guatemalan regulars are said to have crossed over into the territory of Salvador, thereby committing an act of war. One Salvadoran General, Puentes Rivero, who joined the revolution, was killed in battle. There is little doubt that the detention of General Barrillas on this side of the frontier by the Mexican officials was instrumental in breaking up the revolutionary plan of campaign in Northern Guatemala. The revolutionists continue hopeful.

## KODAK Film for KODAKS

The film you use is more important than the camera you use—more important than the lens you use. The amateur of experience insists upon the film of experience, Kodak film has 20 years of experience behind it. If it isn't Eastman, it isn't Kodak Film.
