EASTERN NOTES—The weather continues warmer and more favorable to vegetable growth, an indispensable condition to the welfare of the farmer. The late rains have not been succeeded by the furious and prolonged arctic gales which characterized the earlier parts of the season, and damaged and retarded the growth of the crops and injured vegetation generally.—The cod fish season is over. On the south it was a poor one. There is a better appearance of mackerel than for some years, the first were hooked off South Lake by William Brown, Peter Cameron and Maynard Fraser. Maynard is the best pilot round South Lake, and any one cruising in these waters would do well to secure his services to prevent a accident, he successfully piloted Knight's tug last fall in and out South Lake or Fraser's harbor.—The schools have resumed work with considerable changes in the teachers. Miss Smith is engaged at Red Point succeeding Miss Edith McDonald, who succeeds Miss Dunbar at North Lake, Miss Ethel Rose succeeds Miss Leticia Baker at Lakeville while Miss Murchison succeeds Miss Clarke at Kingsburgh. The advent of the new school mistress, if she is young and good looking, as she generally is, causes quite a flutter among some of the rural swains, many of them past school age, and unless she is endowed with a larger amount of judgement than the common, her head is liable to be turned by the amount of attention bestowed upon her, some of it by the wise men of the district, and perhaps some of it by those who may not come up to the standard.—Our visitors from the south are arriving with the warm weather.—Mrs. Carney, nee Miss Christiana Robertson and daughter, now of Boston, are visiting here at present.—His many friends are rejoiced to see William Young again in his milk-wagon, after being laid aside for a week with illness.—Alfred McLan is enjoying himself among the scenes and friends, which he left thirty-seven years ago.

Let Us Help You To Keep Cool.

That is our most attractive business proposition these days. We are very satisfactorily ready to help men enjoy the summer. There's no sort of reason why a little matter of six or eight or ten degrees of heat should "put you out of business." Summer comfort is only a matter of correct dress. And that is where we come in, in fine shape.

Comfort-making Underwear.

Is here in every quality. We have underwear at 20c, 22c, 25c and 32c per garment. We've better underwear in fine light balbriggan at a dollar per suit—and from that we go right up through a dozen grades to genuine Linen Mesh, the finest Summer Underwear in the world \$4.75 a suit.

Why Don't You Wear a Colored Shirt?

These days when the heat coaxes you to see how many garments you can do without—the best goes first.

If you've a neat colored shirt and a belt, you don't want a vest until September.

Colored Shirts 80c, 1.15, 1.25 and up.

We have soft and stiff fronts—in popular patterns and we're expecting a new lot this week.

Buy a Belt and dispense with your vest.

We've newest belts in greys and tans from 28c, 38c, 55c and 80c.

Going for a Swim?

You'll want a bathing Suit of some sort.

Men's Tights.

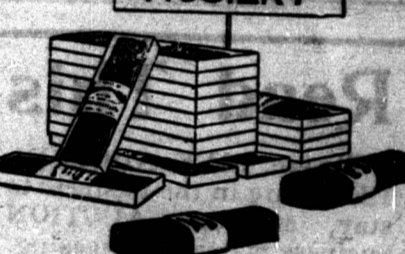

Men's one piece suits 58c 1.10.

Men's 2 piece Suits, 1.15.

Boys' Tights 10, 12, 14c.

INFLAMED NOSE AND THROAT.

And such diseases of the respiratory organs as Bronchitis, Weak Lungs, Cold in the Head, and Nasal Catarrh, are treated with marvelous success on strictly scientific principles by Catarrhazone. The medicated vapor of Catarrhazone quickly traverses every air passage possible to be reached by any treatment. All soreness, pain, congestion and inflammation are at once dispelled, and by means of the healing powers of Catarrhazone the irritated tissues are quickly restored. Where Catarrhazone is used colds last only ten minutes, coughs half an hour, and Catarrh, Consumption, Asthma and Bronchitis flee as from fire. A trial will convince anyone of the startling merit of Catarrhazone. Costs \$1.00, small size 25c. At Druggists, or Poison & Co., Kingston, Ont.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

THE Guardian was shown yesterday an elegant six light electrolux, designed by W. P. Donell and manufactured by Messrs. Munderloh & Co. of Montreal, for the Charlottetown Club for the lighting of their large English billiard table. Three things had to be considered. First to place the light in a position to get the maximum of light; second to light the table evenly and cast no shadows, and third to retain elegance and beauty of design and finish. Nothing could be found in either Canadian or American manufacture, so Mr. Donell set to work and the result is a perfect success, and a credit to him and the manufacturers. The shades are made of steel and are of European manufacture. The electrolux is finished in gilt and satin.
