THE PRIDE OF THE WESTERN ROMANCES

Where fiery Spanish passions, where Spanish ideals of honor still cling to the American West—that's the setting of Peter B. Kyno's greatest story.

A virile romance gay with color and bold with adventure.

A big virile story told in a big way. Adapted from the story which was published serially in the Red Book Magazine.

CROP REPORT.—The following interesting review of the crop situation is published by courtesy of Superintendent J. A. Clark of the Experimental Station, it being a copy of his report submitted to headquarters, Ottawa: "June was cool and favorable for late seeding of cereals, potatoes, corn and roots. The first three weeks were dry with only very light showers, retarding the hay crop. Soaking rain the last week greatly improved all crops. Hay will be about average. Grains, roots, etc., are promising. Potatoes have grown well. Present prospects indicate a light crop of fruits. Strawberries were injured by hard frosts, the latest occurring June 16th. Trees were over a week later than the average. The first appearance of green June 4th and the leaves were not fully out until the 10th."
