

Say Old Man, here is the only real cure for PILES  
**DR. CHASE'S OINTMENT**

**THE REPUTATION** of Dr. Chase's Ointment as a cure for piles, or hemorrhoids, has been built up by one person telling another about the results obtained. In the club-room, at the business office, in factory, store or field the good word is passed along, until nearly everybody knows about Dr. Chase's Ointment as the standard treatment for itching, bleeding and protruding piles.

We are so sure that Dr. Chase's Ointment will prove effective in every case of piles that we shall gladly send you a sample box, free of charge, if you will enclose a two-cent stamp to pay postage and mention this paper. It will afford relief promptly, and just as certain an effect, as any cure if used persistently.

**ANOTHER RECRUIT.**—Mr. William R. Carmody, City, is the latest recruit for overseas service in the Railway Construction Corps. He signed up on Saturday.

**PURE ICE CREAM AT SPRINGFIELD** tomorrow evening on the lawn of Mr. B. D. Haslam. The festival will be conducted by the Women's Institute. Proceeds for Red Cross Work. 1935.

**REMEMBER THE BOYS.**—The 8th Canadian Siege Battery Auxiliary are sending boxes this week. Any donation of smokes, home-made eats, etc. will be thankfully received at 125 Fitzroy Street, not later than Thursday.

**DEAD DOG.**—A dog lying dead on King Street, near the Railway Station, Saturday morning, caused a number of people to stop and enquire as to how the canine came to its untimely end. The dog belonged to Mr. Egan and from the appearance it apparently had got hold of some poison.

**SUCCESSFUL FESTIVAL.**—East Royalty seemed to be the centre of attraction on Wednesday evening, July 25th, when the ladies of the Red Cross Society of that place held a strawberry and ice cream festival on the grounds of Mr. Allison Holmes. Large numbers came from the city by team and autos as well as from the surrounding country which made the festival a success both socially and financially. The president, Mrs. Frederick Parkman and all the members of the society wish to thank all for their kindly patronage, and contributions which made the evening the success it was, and Rev. Mr. Fulton for his eloquent address and Mr. Holmes for the use of his grounds. The sum of \$165 was realized which will be used to carry on the Red Cross work.

**A TRIBUTE.**—The following poem taken from "Poetical Tributes" to the late Lord Kitchener was written by Florence H. Poole, a sister of Mrs. Artemas Lord of this city.

Head and shoulders over statesmen steeped in diplomatic guile,  
 And the silver-tongued declaimers using every subtle wile,  
 Stood our noble Lord Field Marshal who for Honour drew his sword  
 When he held aloft the Standard, the Standard of the Lord.

Far above the party wranglers, trifling precious time away,  
 While the Empire's needs are vital and when danger dogs delay,  
 All their boasting and mean shirking were alike by him abhorred,  
 For the Standard that he honoured was the Standard of the Lord.  
 Heading not the base traducers of his great and deathless fame,  
 How best to serve his country was his single lofty aim,  
 Undeterred by praise or censure, men might ban him or applaud,  
 Since the Standard he most valued was the Standard of the Lord.  
 Terse his words, but soul-compelling—millions answered his strong call,  
 And went forth for King and Country to fight bravely or to fall,  
 He appealed for willing service all "coercion" he deplored,  
 For the Standard he uplifted was the Standard of the Lord.  
 Now the ocean depths enfold him and above him wild waves roll  
 While we pray that light eternal may shine ever on his soul  
 Till the final consummation brings the Day of Just Reward  
 To the faithful who have followed the high Standard of the Lord  
 (For many years of his life K. of K. was a member of the "Guild of the Holy Standard.")

**THE CURE.**  
 Is there too little kindness in This world of human kith and kin?  
 If that's your view Then why don't you Go straightway thro' it And add yourself what's needed to it?  
 Is there a loss of sympathy Among the mortals that you see?  
 If that's the case, Oh, Gloomyface, Why not renew it By adding what is wanting to it?  
 Small use to howl. No use to mope, And say the world is void of hope  
 Because some lack Takes you aback— But just go to it And what you can to cure it— DO IT!

**VITALITY OF SEEDS.**  
 All vegetable seeds have their limit in vitality. Some retain life longer than others, depending upon the condition, and the climate in which the seeds are kept. Seeds should never be kept in air tight receptacles, as seeds are kept. Seeds should never living matter. We give below a list showing the life of seeds. Also seeds older they are worthless. If they are do not keep so well in moist warm countries as they do in a drier atmosphere. It is not safe to use older seeds than the limits given.

- Asparagus 2 years.
- Beans, 1 year.
- Cantaloupes, 3 years.
- Watermelons, 6 years.
- Beets, 3 years.
- Cabbage, 3 years.
- Cerrius, 1 year.
- Cauliflower, 2 years.
- Celery, 3 years.
- Collard, 4 years.
- Corn, (Sweet), 2 years.
- Cucumbers, 4 years.
- Egg Plant, 5 years.
- Lettuce, 1 year.

**OF LOCAL INTEREST.**—The Pasadena Star-News of California tells of the graduating exercises of Miss Orton's School, held in the Shakespeare Club house of that city. The devotional exercises were conducted by Dr. Benjamin Chappell of Japan. One of the ladies who graduated was a daughter of Dr. Chappell, Miss Martha Jean Chappell. Her graduating essay, "A Trip through Japan" was among those spoken of as remarkable for a deep knowledge of present day events. It is always pleasing to learn of the success of our Island friends abroad, and the Reverend Doctor and his talented daughter who are spending a furlough from the "Flowerly Kingdom," in the Western World, are to be congratulated. It is understood that it is their intention to visit friends in Charlottetown before returning to Japan.

**THE COLOR OF THE OCEAN.**

Sometimes, when we look at the ocean from the pavilion or while on the sand of our favorite bathing beach, the water in "the ocean looks" very beautifully blue, and on other days will look dark green from the same standpoint. Why is it? If you will stop to think that at night when there is no moon or other light the water in the ocean looks black, you will soon be on the right track to answer the question yourself, says the Book of Wonders.

When the sky is blue—the kind of blue we like to see in the sky when we are at the beach—the water in the ocean is blue, because the sea reflects the color of the sky, and when the sky is overcast and gray the color reflected by the sea will be gray also.

But, say you, sometimes the water in the ocean is dark green, and yet the sky is never green. Quite true, and I will try to tell you what produces the green color. This happens sometimes where the water is shallow, either near the shore or out farther where there is a sandbar or other shallow place. Sometimes at such points the sunlight strikes the water at such an angle that the rays go clear to the bottom and are reflected from that point—the bottom—to our eyes. In such a case the light will be changed through a combination of the color of the sky itself at the time to make the color green as it is reflected to our eyes from the bottom.

**Carefully Reviewed**

A well-known bridge-player who imagined himself an authority on the game, and who had proved to be a perfect bore among his friends by his verbal comments, suggestions, and advice upon methods of play, decided to write and publish a book. One copy was sent to a famous player for his opinion about it. A few days later the book was returned to the author with the following note:—"My Dear Sir—Your favor of the 8th instant Sir—was duly received. I have read the book carefully. It relates to a very good game, but I don't think it as good a game as bridge!"

**Another War Sacrifice**

A pompous country gentleman was very wrath because the war authorities had commandeered two of his best hunters, so he ordered out his motor-car and drove in hot haste to the office in command to protest.

The officer listened, and while by his verbal comments, suggestions, and advice upon methods of play, decided to write and publish a book. One copy was sent to a famous player for his opinion about it. A few days later the book was returned to the author with the following note:—"My Dear Sir—Your favor of the 8th instant Sir—was duly received. I have read the book carefully. It relates to a very good game, but I don't think it as good a game as bridge!"

**PURE RICH BLOOD PREVENTS DISEASE**

Bad blood is responsible for more ailments than anything else. It causes catarrh, dyspepsia, rheumatism, weak, tired, languid feelings and worse troubles.

Hood's Sarsaparilla has been wonderfully successful in purifying and enriching the blood, removing scrofula and other humors, and building up the whole system. Take it—give it to all the family so as to avoid illness. Get it today.

**OUR RESPONSIBILITY**

We have not merely to make our way in the world; we have not only to keep our own character from spots and stains; we have to labor to get out of the lives of others.

There is some little bit of work in some corner that will not be done if we do not do it.

It is time we assumed some responsibility, not for ourselves alone but for others, somebody near us whose strength is falling and who is losing heart in the weary struggle.

I am perfectly certain that our Lord is calling us to this high service; that He has need of us, that by temptation.

The call of God to us all seems to be to rise up and help our Lord in His fight against evil and wrong everywhere.—Charles Brown.

**APRIL 1st, CASH BUYING**

**THE DAWN OF A NEW DAY IN OUR BUSINESS**

The Cash System which we introduced on April 1st enables us to offer you immense values in our different departments.

Our customers and the public in general, have been big enough to see that our somewhat severe terms are no reflection whatever on the financial standing of any customer.

If you knew there was a \$5.00 bill between the pages of a book, you would look mighty careful, even if there wasn't a picture on every page. Lack of space prevents us from illustrating every article, but a careful inspection will disclose many opportunities for profitable purchases.

Our early buying enables us to offer you excellent values in our Millinery, Dry Goods, Boot and Shoe and Grocery Department.

We have just received two cars of Woven Wire from the N. B. Fence Co. which we are selling at the old price, and as there has been an advance of 15c per chain, with the probability of \$2.25 for next year, we would advise early purchases for your future requirements.

- WE HAVE ALSO RECEIVED:—**
- 500 bbls. ROBIN HOOD FLOUR.
  - 300 BAGS STANDARD MIDDINGS.
  - 300 BAGS GERMAN MIDDINGS.
  - 300 BAGS OIL CAKE.
  - 300 BAGS BRAN.

We wish to call the attention of all dairymen to "Germ Middlings," which has a better analysis than Oil Cake and is an ideal feed for your dairy cattle. Give it a trial and be convinced.

Special prices quoted on quantities of Feed and Flour. Freight paid on woven wire to all stations. Highest prices paid for washed or unwashed wool. Ask or write for prices.

Why not come in and get a new Couch?

Dear Mary—  
 When you bought your new furniture did you overlook buying a nice bed couch? Well, I did and when company came all four of us tried to pile into one bed. We put James and Ruth in the middle to keep them in—and what do you think? I fell out. It was so funny, but I might have broken my arm.  
 I just must have a new couch which, when needed, can be converted into a bed. Don't you, too, need one.

Hastily—HELEN.  
 P. S. Let's go down today and look at new couches at
