SKIRTS SHORTER; WAISTLINES LOWER CHEZ CHANEL OF PARIS

Chanel, that clever French couturiere who made Paris fashion-conscious just about the time the last guns of the Great War ceased rumbling, shows a new mid-season collection. Chanel has the right idea about clothes—her daytime things are practical, wearable and tailed, while her evening clothes are frothy, feminine and luxurious.

Skirts are shorter, waistlines are low (just a little above the hip bone) and clothes are simply tailored. Guits have pointed collars and bloused jackets with the belt set-in-one with the coat.

Afternoon dresses in richly colored velvets are simple in line with skirts an inch or two below the knees. Outstanding is the dress chosen by the young Countess de Chambrun, former Josee Laval, daughter of the former French Premier. This gown is in a green velvet, smartly tailored, short as to skirt and worn with a green velvet coat, fox fur trimmed, and a green velvet toque.

Touches of white on black still are seen, but there are fewer of the stiff little collars, bow ties which resemble a man's bodied shirt front. An interesting afternoon dress in black crepe has circular jabots lined with white. The jabots run down the front of the dress and a whitelined jabot runs from the elbow to the wrist of each sleeve.

Evening things are usually of filmy tulle, moulded to the body as far as the knees and then flaring out to the floor. Particularly lovely is a frock of fish-colored tulle heavily embroidered in mother-of-pearl, with glistening pearl outlining the décolletage.

USE CREAM OR LOTION

ON HANDS IN WINTER TIME

Occasionally you see or hear about a complexion (generally it's a rather oily one) which stays lovely and seems to thrive on soap and water alone. Lacking as they are in natural oil, this is never true of hands. They need soap and water, too, but they also need lotions and creams, particularly in the winter time.

Keep hand lotion not only in the bathroom but above the sink and in the drawer of your office. Massage it in after each washing. If this doesn't keep your hands smooth and white and lovely use warm olive oil or a rich cream one night a week. Put the oil on before you go to bed and wear clean cotton gloves while you sleep.

Stains on your hands can be removed with fresh lemon juice. If

you like, use a lotion that bleaches and softens at the same time. It will keep hands and wrists soft and white. Incidentally, during cold weather it may be used on legs and knees and as a pre-bath lotion. Undress, massage the lotion into skin from head to foot and leave on while you brush your teeth and cream your face. Then bathe in the usual manner.

Remember, of course, that hands which artists describe as "fluid" are important. If you do exercises to keep your waistline, neck and legs supple, why not do some to make hands and wrists flexible and graceful?

Sit in a chair, letting arms hang limply at your sides. Make believe you are shaking water from your fingertips. Bend wrists back and forth until you have finished, wash your hands and with upward strokes, massage cream or lotion from fingertips to wrists.

MacDonald Wins Seat in Edinburgh

The Scotch Universities recently returned Ramsay MacDonald, former premier of England, to parliament in the by-election caused by the death of Mr. Noel Skelton. Mr. MacDonald is shown here with some of the students of Edinburgh University just after his election was made certain. He was previously defeated in general election.

EMPHASIZED IN OTTAWA PROBLEMS OF SHEEP ASS'N

(C. F. by Guardian's Special Wire)

Secretary's Address Delivered At Association's Annual Meeting.

W. R. SHAW'S REPORT

The following was the report of Mr. W. R. Shaw, Secretary of the P. E. I. Sheep Breeders' Ass'n, at the annual meeting Tuesday night. The sheep industry in this province has not shown any degree of expansion in the year 1935. Two factors which have had a decided bearing on this situation are the serious destruction of flocks and the prevalence of parasitism. The former particularly is increasing in its intensity. During the year compensation paid sheep owners was \$326.50 and the number of sheep and lambs slaughtered was approximately 200 animals, involving 70 flocks. Indemnity has not yet been paid in a few cases which are still under investigation. It is estimated that between three hundred (300) and five hundred (500) sheep were killed by dogs during the year. Indemnity is based on animals on which indemnity has been paid, those for which indemnity was not justified, and animals lost but unreported.

Control of Dogs is Needed

There is urgent need if our sheep industry is to receive reasonable protection, for a more rigid and definite control of dogs in this province. The present dog regulations are entirely inadequate and sheep breeders are slowly but surely losing ground under the present system. Careful study of this problem is a matter of immediate necessity. No sheep breeder should be called upon to suffer the loss of his entire flock, and he should be able to sue a profitable industry because of some other citizen in the country keeps a vicious, worthless dog and is too careless and indifferent to keep him under control. The sheep industry has a definite place in livestock programs on a large number of islands and Prince Edward Island and every handicap should be removed which hinders progress and the active operations of those who have confidence in the industry.

Parasite Control

Educational work has been conducted in connection with the control of parasites and demonstrations in the way of treatment have been placed at various points. Arrangements have been made during the year with the Livestock Marketing Board to carry a substantial supply of all kinds of powders for parasite control. A substantial distribution has been made through the Board channels. It is pleasing to report that breeders of all classes of livestock seem to be more alert to the problem of parasitic infestation.

Marketing of Wool Decrease in Quantity

The quantity of wool marketed through the Canadian Cooperative Wool Growers' Association, Toronto, showed a decrease in comparison with the previous year's record. A number of reasons may be advanced to account for this reduction. Cash in the hands of buyers of convenience of disposing of the season's clip to the itinerant buyer at the back door are potent arguments when it comes to marketing. As the individual quantities are not large in most cases, the better price provided through a cooperative marketing system loses to some extent its appeal. Another factor operating to reduce the amount placed with the Association was in the form of greater amounts of wool retained for home utilization. This situation usually prevails during periods of low or moderate market prices. The Prince Edward Island Sheep Breeders' Association gave every encouragement to Sheep Breeders to market their wool cooperatively. Every Sheep Breeder in the Province was circularized early in the season through the Provincial Department of Agriculture. A second circular was also forwarded in co-operation with the Federal Livestock Division. In addition, the services of the Livestock Marketing Board and the press were utilized. In an effort to divert the clip through efficient marketing channels.

System of Payment

A change was also made in the system of payment. In view of the fact that the great bulk of our wools classify into two grades, with only a slight market value between the two, it was decided to settle for the wool on a flat rate as soon as delivery on the basis of the full market value. This system facilitated prompt payment and did away with the irritation experienced in former years caused by delay in payment. The scheme worked satisfactorily. Parties delivering wool at the station were promptly paid, while others shipping in received their cheques in the course of two or three days. The amount paid in all cases was 11 1-2c per pound, which was very substantially in excess of prices quoted by buyers throughout the country. There is a possibility that a further amount may be credited to the Sheep Breeders' Association after the Canadian Cooperative Wool Growers, Ltd., has completed its sales and business for the year. In this event, patrons will receive a further amount on the basis of the grade of their wool of 1935, at the time when payment is made for their wool.

PREVENT DANGERS OF CONSTIPATION*

"Bulk" in ALL-BRAN Is Gentle in Action.

Common constipation is largely due to insufficient "bulk" in meals. You fail to get your intestinal exercise. Millions of people have found that Kellogg's ALL-BRAN supplies soft "bulk" with satisfactory results.

Tests in nutrition laboratories demonstrate that the "bulk" in ALL-BRAN can be used with the utmost confidence. Naturally, those few individuals with diseased or highly sensitive intestines should not take "bulk" in any form—either in leafy vegetables or in bran.

Unlike cathartics, ALL-BRAN is natural in its action—nor does this food lose its effectiveness with continued use. Within the body, it absorbs moisture and cleanses the intestines, promoting normal and healthful elimination.

Two tablespoonsful of this delicious cereal, served with milk or cream, are usually sufficient. Enjoy it also in cooked dishes.

Help your family keep well. Serve ALL-BRAN regularly for regularity. Sold by all grocers. Made by Kellogg in London, Ontario.

*Constipation due to insufficient "bulk"

Light up with BAG-PIPE THE NEW SMOKING TOBACCO IN THE PERSONAL RUBBER POUCH It took long experimenting to develop BAG-PIPE . . . a cool slow-burning tobacco. It took the best leaf and an unique ageing process. But every man in the country will say the result is worth it. Try BAG-PIPE. You can't become acquainted with this grand new smoke too soon. Mellow and mild and long-burning, with a rich, round satisfying body that never wears off on the edge. Crumble-cut and fresh but never gummy. ROCK CITY TOBACCO COMPANY, LIMITED 100% CANADIAN AND INDEPENDENT

Prize Awards at Poultry Show

Prize winners in Poultry Show held in Charlottetown Feb. 17-21 under the auspices of P. E. I. Poultry Association.

STANDARD CLASSES

Ancoons: 1st and 2nd Cock, 1st and 2nd Hen; Howard Gudmore. Brahams: 1st Cock, 1st Hen, 1st Cockerel, 1st pullet won by Ted Carr; 2nd Hen, Peter Coles. Bantam Cochins: 1st Cockerel, 1st and 2nd pullet, Harold Gudmore. Bantam Rose Comb: 1st and 2nd Cock, 2nd and 3rd Hen, Harold Gudmore; 1st Hen, 1st, 2nd and 3rd Cockerel, 1st, 2nd and 3rd pullet, L. A. Hazard. Bantams: Games: 1st Cock, 1st Hen, John Hanna; 1st Cockerel, 1st pullet, Geo. Bell; 2nd Hen, 2nd Cockerel, 2nd pullet, James O'Neill. Bantams, Seabright, 1st and 2nd Hen, 1st Cockerel, 1st and 2nd pullet, L. A. Hazard. Cornish Games: 1st Cock, Jas. O'Neill; 1st Hen, 1st Cockerel, 1st pullet, Peter Coles. Black Red Games: 1st Cock, 2nd Hen, Geo. Bell; 1st Hen, 1st Cockerel, 1st and 2nd pullet, Peter Coles; 2nd Cock, 2nd Cockerel, Robert Daziel; 3rd Hen, Wallace McRae. Games A. O. V.: 1st Cock, 2nd Hen and 3rd pullet, Robert Daziel; 1st Hen, Peter Coles, 1st Cockerel, Clifford Jackson, 2nd Cockerel, 1st pullet, Albert Carr.

Jersey Giants: 1st Hen, Leith Douglas, 1st Cockerel, John McDonald, 1st and 2nd pullet, Jack Reddin; 2nd and 3rd Hen, Alex McKay; 2nd Cockerel, Buddy Coffin.

Returned soldiers in the Government service will be given 11 days extra leave with pay this summer to enable them to take part in the Viny pilgrimage. This will be in addition to the ordinary holiday leave of three weeks. Secretary of State Rinfret made the announcement in the House of Commons, replying to Thomas Reid (Lib. New W.).

Representations have been made to the government to increase tariffs against baby chicks imported from the United States. Hon. J. J. Gardiner, Minister of Agriculture, told the House of Commons that the Government has made no decision. Before the reciprocity treaty, the Canadian tariff against chicks was 30 cents each, a prohibitive duty. The treaty reduced it to 17 per cent which amounted to a cent or two each. Canadian poultrymen, the Minister said, had suggested a rate less than the 30-cent figure.

The Dominion has renewed for one year a loan to the Province of Saskatchewan amounting to \$3,542,019. An order-in-council authorizing renewing of the loan which matured Feb. 16 was tabled in the House of Commons today by Finance Minister Dunning. The Minister reported to Cabinet that the provincial treasurer of Saskatchewan stated finances of that province did not permit redemption of treasury bills which the Dominion held as security for the last loan. He requested renewal for another year. As security for the renewing loan the Dominion has accepted treasury bills carrying four per cent interest.

The Federal Government has no power to force abattoirs to comply with rigid grading regulations. Hon. J. G. Gardiner, Minister of Agriculture told the House of Commons. The Dominion, however, went as far as possible in co-operation with municipalities, provinces and abattoirs.

forwarded to the station during the next year.

Quantity for Five Year Period

The following statement gives the comparative quantity for the past five year period:

Table with 5 columns: Year (1931, 1932, 1933, 1934, 1935) and Quantity (12,677, 7,239, 21,189, 21,421, 13,091).

The finances of the Association are now in excellent condition, as the financial report will show. In the amount to the credit of the Association in the bank there is included the sum of \$16 which is the rebate made from the Dominion Sheep Breeders' Association to the Provincial Association on the basis of membership. This amount will be ear-marked for the specific purpose for which it is intended, namely, encouragement of breeding stock in this province.

for RHEUMATISM

Put Minard's into a warm dish. Rub liniment gently in directions . . . and soon you'll get relief!

MINARD'S "KING OF PAIN" LINIMENT

With parcels of food and supplies attached to bomb racks in place of the usual missiles of death, U. S. army bombing airplanes flew

Jersey Giants: 1st adult, Jack Reddin, 2nd adult, 3rd young, Hollis Jenkins; 1st young, John McDonald; 2nd young, Ira Douglas.

Black Minorcas: 1st and 2nd Hen, 1st and 2nd Cockerel, 1st and 2nd pullet, W. J. Gudmore. Buff Leghorns: 1st Cockerel, 1st pullet, Blair Moore. Buff Orpingtons: 1st and 2nd Hen, 1st and 2nd Cockerel, 1st and 2nd pullet, Geo. Gudmore. White P. Rocks: 1st Hen, 1st Cockerel, Alfred Chipman. Barred P. Rocks: 1st cock, 1st and 2nd Hen, 1st and 2nd Cockerel, 1st and 2nd pullet, Geo. Gudmore. White P. Rocks: 1st Hen, 1st Cockerel, 1st pullet, Geo. Gudmore. Rhode Island Reds: 1st cock, 1st and 2nd Hen, 1st and 2nd Cockerel, 1st and 2nd pullet, Easton Bros. A. O. V. Plymouth Rocks: 1st cock, 1st and 2nd Hen, J. Curley. Rhode Island Reds: 1st cock, 1st and 2nd Hen, 1st and 2nd Cockerel, 1st and 2nd pullet, Wilfred Gudmore. White Wyandottes: 1st cock, 1st and 2nd Hen, 3rd pullet, Mrs. J. Hughes, 1st and 2nd Cockerel, 1st and 2nd pullet, Ernest Carr. Columbian Wyandottes: 1st cock, 1st and 2nd Hen, 1st Cockerel, 1st pullet, Robert Hudson, 2nd cock, 2nd Hen, 2nd Cockerel, 2nd pullet, John Hanna. Any other variety: 1st Hen, Hollis Jenkins, 2nd Hen, Harold Gudmore.

White Wyandottes: 1st and 2nd pullet, 1st pen young, Earl Gregory.

Orpingtons: Pen young, Keith Jenkins. White-Leghorns: 1st cock, 1st Hen, 1st and 2nd Cockerel, 1st and 2nd pullet, 2nd pen young, Keith Pickard; 2nd cock, 2nd Hen, Fred Shea; 3rd pullet, 1st pen young, Willard Prowse; 1st pen adult, James Sheen. Rhode Island Reds: 1st cock, 1st and 2nd Hen, 1st and 2nd Cockerel, 1st pullet, 1st pen adult, Harry Hyde. R. O. P. Hens: Barred P. Rock: 1st Hen, S. R. Pendleton, 2nd Hen, Mrs. Fred McLaren.

SQUASH RACQUETS COMING UP

HARTFORD, Conn.—Five-man teams are expected from various Canadian and United States cities for the national team squash racquets tournament here Feb. 22-24. Don Strachan of Philadelphia will defend his individual title gained last year.

Bombing 'Planes Get Food to Marooned Islanders

over stranded Tangier Island, ice-bound in Chesapeake Bay, and released them at the little settlement. One of the ships is shown risking a "crack-up" hedge-hopping" the improvised airport there, as the "mercy parcels" are released. BE-LOW, the food is distributed by Mayor J. T. Crockett to the hungry inhabitants of the marooned island.
