What Constitutes Good Carbide

The quality of Carbide is first judged by the number of cubic feet of gas produced by a given pound.

Four and eight-tenths cubic feet per pound is recognized as the world's standard.

It is the standard accepted by the British and German Acetylene Associations.

While it is possible to make carbide yielding 5 cubic feet to the pound, the cost of production would make it too expensive for general use.

A standard of 4.8 cubic feet, is quite sufficient for general lighting purposes.

It is upon this high standard that [S] Calcium Carbide is produced.

The principal impurity in Carbide is phosphorus, which depreciates the quality of the light—reduces the candle-power of the gas.

This is due in the first place to the presence of phosphorus in the lime.

Now the lime used to make [S] Calcium Carbide contains a minimum of phosphorus.

[S] Calcium Carbide can be relied upon to give a clear, steady, brilliant, white light.

It is the highest standard of carbide manufactured and offered for sale on the market.

Remember, [S] Calcium Carbide is the carbide you require.

Drop us a line to-day and let us give you some more facts about carbide.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000 The Guardian's daily circulation is therefore as 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario.

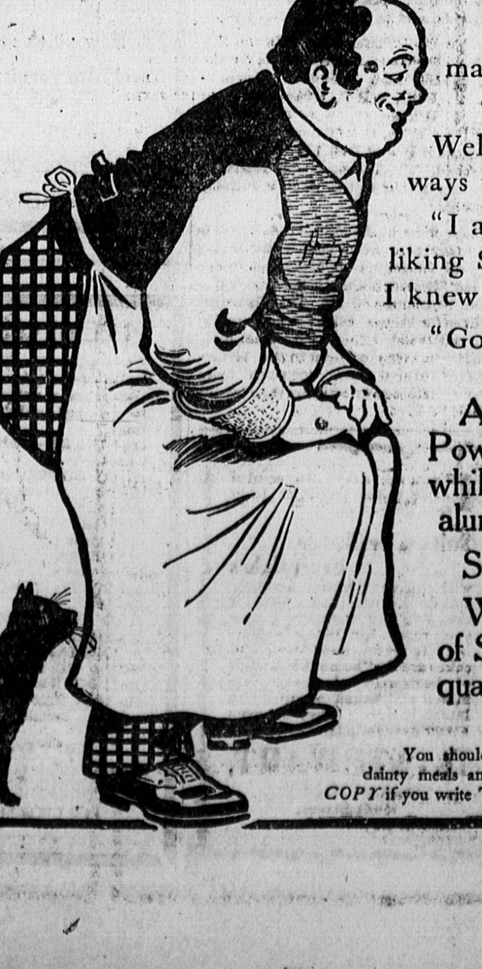
The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal's endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province

"Mother wants another can of St. George's Baking Powder

—and she says not to give her any other kind?"

"Bless your heart!—that's the only Baking-Powder I sell these days. Since your mother, and all the other little girls' mothers, have tried St. George's, they won't use anything else."



"How do you like the Pies and Cakes that Mother makes, now? Fine, eh?"

"And Father thinks Mother is a good cook, now? Well, ST. GEORGE'S is doing good in more ways than one."

"I am not a bit surprised at your mother liking ST. GEORGE'S BAKING POWDER. I knew she would. Everybody likes it."

"Good-bye."

A pure Cream of Tartar Baking Powder makes white biscuits—while a baking powder containing alum, turns the biscuits yellow.

St. George's makes white biscuits.

We ask you to buy just one can of St. George's. We depend on its quality to make you buy the second.

You should have a copy of our new *COOK BOOK* to help you in preparing dainty meals and lending variety to the daily menu. We will send you a *FREE COPY* if you write The National Drug & Chemical Co., Limited, Montreal.
