

WHY DON'T THEY OFFER ME THAT SPARE SEAT?

You have to perspire — You don't have to offend!

It may be a driver's patriotic duty to share his car with others, but you can't blame him if he draws the line at a passenger with "B.O." At close quarters it can be so unpleasant. Every one of us risks "B.O." We all perspire constantly. When perspiration remains on your skin, it becomes stale quickly. Before you know it, you have "B.O." With Lifebuoy, you're sure of protection. It's the ONE soap especially made to PREVENT "B.O." No other popular soap contains the same special

deodorizing ingredient . . . gives you the same, all-over protection that lasts. And when you use Lifebuoy, you'll feel the difference. There's a TANG and ZIP to the lather that peeps you up—makes you feel more alive, refreshed . . . makes you SURE you won't offend. And Lifebuoy is fine for your hands and face, too . . . it's 20% MILDER than many so-called "beauty" and "baby" soaps.

LIFEBUOY FROM HEAD TO TOE — IT STOPS B.O.

Saboteurs May Be At Large In U. S.

WASHINGTON, July 23—(AP)—The possibility that three Nazis trained in the science of sabotage may be at large in the United States led the Federal Bureau of Investigation to broadcast a general request Saturday for officers and the public to be on the lookout for them. One of the men is a former resident of Canada. It was learned reliably that the F.B.I. believes the men are not in America. But since it cannot be certain, the warning was broadcast and the job started of blanketing the country with their pictures and descriptions. The men named were: Walter Kappel, alias Rudolf Kappel, 37, Adelholdt, Walter Barth, 35, and Joseph Schmidt, 33 or 34, former resident in Alberta.

DEAR ISLAND HOME

My home and my beautiful garden is the place where I long to stay. But I am needed by King and Country. So duty calls me away. Wherever duty may call me, wherever my ship may roam, no land will ever take the place of my dear little Island home.

CARE OF REFRIGERATORS

That refrigerator of yours may be the last one you'll have for years, and the proper thing to do is to take very good care of it. De-frost when the frost coating is 1-4" thick to save current and give longer life to the mechanism. Never use a sharp tool to loosen trays; you might injure the freezing coils. Wash the interior weekly with sun-ny-yellow "all pure" soap and lukewarm water, and remember to brush off the fins in the motor box regularly.

INDEPENDENCE STRUGGLE

The fight of Dominicans for self-determination was begun in 1821, but independence was not achieved until 1844. Minard's relieves sprains.

A SUMMER NIGHT

The sound of cow bells tinkling float from over the distant hill. As the birds nestle for slumber with their sleepy little trill. A soft breeze swaying the tree tops comes whispering over the sea. While the big full moon guards in the sky with mighty majesty. Twilight encircles the valleys and dales. In a dazzle of misty grey, the pretty flowers droop their brilliant heads. At the close of a summer's day, the myriad lamps of peaceful homes twinkle up to meet the stars. And the sea gently laps its waters around the Sandy Bars.

The busy town at the twilight hour has ceased its maddening rush. At rich man's door and poor man's wall comes the evening's gentle hush. The cares of the day are forgotten, all troubles are cast away. A gentle peace crowns this tranquil hour. At the close of a summer day. —Cora MacNeill Summerside, P. E. I. Use Minard's for Dandruff.
