CENTRAL GUARDIAN

TEACHER APPOINTED - Miss Irene Connolly, Charlottetown, has been engaged as teacher for Donaldson School for the ensuing year.

CENTRAL PARISH - Service at New Glasgow Road, Wednesday evening 7.30. James Lamont, student. (Patriot Please Copy).

THE FUNERAL OF THE LATE WILLIAM BEARS - Will take place today Aug. 15th from the McLean funeral home to Mermaid Cemetery. Service at 2 P. M. Please omit flowers.

GIVEN SEVEN DAYS - A man charged with operating a motor vehicle while intoxicated appeared before Magistrate Donald MacKinnon on Saturday, and was sentenced to seven days in jail.

GENERAL MANAGER HERE - Mr. W. U. Appleton, Moncton, General Manager of the Atlantic Region of the C. N. R. and Mr. F. F. Tomkins, arrived in the Province Saturday evening for the golf tournament this week. Freight traffic is lighter at the present time than it has been for years, Mr. Appleton states. The Island Division apart from freight traffic is in first class condition. An increase in freight traffic is eminently desirable. Mr. Appleton is returning to Moncton Tuesday or Wednesday.

DANCING 9 to 12 Beach Grove Inn TONIGHT Admission 50c It's a Gyro Dance 4572-7-23-Sat-Mon-11.

MINOR ACCIDENT - A car proceeding out from a side road without stopping crashed into another car travelling on the highway near Montague Saturday evening. The latter car sustained a damaged front fender, a damaged wheel, a punctured tire and tube, and some other damage. A settlement is to be made between the car owners.

SUDDEN DEATH - The death of Mr. Thomas Cahill, Kingston Road, occurred unexpectedly some time during Saturday night. The deceased was unmarried, and who lived with his ward, a boy of nine, had complained before retiring of feeling unwell. In the morning he was discovered to have passed away. The coroner, Dr. McKenna, was summoned, and after an examination of the body, pronounced death due to natural causes.

PERSONALS

Miss Jean Currie who has been visiting her aunt, Mrs. Patterson, 17 King Square, leaves this morning on return to New York.

Mr. and Mrs. David Legate left Saturday morning on return to Montreal after a delightful holiday with Mr. Legate's parents, Rev. R. M. and Mrs. Legate at the Manse, Pownal Street.

Mr. and Mrs. Joseph Hughes and Mrs. Annie Burge, Tracadie and Miss Millicent Ready, Boston, Mass., motored to South Shore Sunday and were the guests of Mr. and Mrs. Walter Quilty.

Mr. Kenneth Ross, Manager of H. H. Marshall's Ltd., city, leaves for St. John this morning on a two weeks' vacation. During Mr. Ross' absence M. W. I. Ash of Halifax, will have charge of the local office.

Mrs. Alfred Doyle and three children, who have been visiting Mrs. Doyle's parents, Mr. and Mrs. Angus McCormack, Souris, for the past three weeks, have returned home.

Mr. Chas Ritz, General manager of the Robin Hood Mills Limited, Montreal P. Q., was a passenger by the Hochelaga Saturday en route to Dalvey where Mrs. Ritz and family have been spending the summer. While in Charlottetown they are the guests of Mr. and Mrs. F. S. Chandler.

CONSERVATIVE

(Continued from Page 1)

In his address upon some requests made by Mr. Downing, the Premier assured the meeting that some of these suggestions would be complied with immediately, while the remainder would be given immediate consideration by the Executive Council. The work on the road through the golf links to the shore would be undertaken immediately. Some work would be done on the western road, west of Miscouche, and would be carried on as far as the finances of the Province permitted. The surfacing of the road from the end of the concrete work at Summerside to Read's Corner, a distance of about a mile, was also regarded by the Premier as most important and would be considered by the Executive Council immediately.

IN MEMORIAM

In loving memory of our darling baby, Wesley G. H. Lord, August 15th, 1931.

Oh not in cruelty, not in wrath The Reaper came that day, 'Twas an angel visited the green earth And took the flower away.

The Reaper said, and smiled, Dear token of the earth it is Where once there was a child.

And the Mother gave in tears and pain The flower she most did love, She knows she shall find him soon again In fields of light above.

Mr. and Mrs. Earl Lord and Family. 5008-8-15-11.

CROP REPORT CANADA WON TWO CH'SHIPS

(Special to the Guardian) WINNIPEG, Man., Aug 13 - Wheat cutting is in full swing in most districts of Western Canada with threshing expected to start next week no further serious damage to the earlier sown grains is reported. Weather generally has been warm and with slight rains in a few districts in Saskatchewan, according to the weekly reports of the crop department agricultural department Canadian National Railways.

In Manitoba, wheat cutting has been general with about 85 percent completed. Threshing is expected to be general next week in the sprague sub division the average estimated yield per acre for wheat is given as 20 bushels with 40 bushels for oats and barley in the Portage subdivision conditions are reported good. The Brandon sub division reports ideal harvest weather with some little threshing done but not sufficient to say what yield per acre can be expected. Late crops have ripened too fast and this will probably cause a lighter yield. In the Dauphin division cutting of coarse grains is well under way and wheat and early grains promise a good yield.

In the Regina division of Saskatchewan weather during the early part of the week was hot and dry turning cooler Thursday with light rain. Wheat cutting is general and it is estimated yields will be from eight to fifteen bushels per acre. In the Melville division weather has continued hot and dry ripening the grain much faster than it should to give first class yield but it is not anticipated damage will amount to more than 10 percent at any point. In the Saskatoon division the hot dry windy weather of the past week will cut the yield to some extent. The Calgary division in Alberta reports weather generally clear and cool with high winds. Showers would be beneficial and tend to increase the yield especially in the Esmonston division all grains are progressing rapidly with no damage reported from any source. In the Peace River territory weather during the past week has been fine and warm. Crops are ripening fast and cutting should commence in ten days to two weeks time. Light rain is reported around the gth no damage reported from any point. The market for desirable classes of butcher cattle showed a little advance during the past week but the hog market was unsettled.

McNaughton and Gwynne are the only champions. But there are the two "unsung heroes" of these games, Alex Wilson of Montreal and Phil Edwards of Hamilton. They leave California without a championship between them, yet each shattered two world's records. Wilson was second in the 800-metres and third in the 400. Edwards was third in the 800 and third in the 400.

Percy Williams, a shell of the great sprinter of four years ago, lost his 100 and 200-metre titles and no Canadian came up to take his place. Likewise Ethel Catherwood's high jump championship, won at Amsterdam, was lost. Eva Davies, Toronto, successor to the Saskatoon Lily, jumped higher than Miss Catherwood did at Amsterdam, but 5 feet 3 inches, were good for only third place.

Hilda Strike of Montreal won second place in the 100-metres for women and anchored the Canadian 400-metre relay team that took second place to United States. Of the wrestlers, only Danny McDonald of Toronto was able to gain points. He took second place in the welterweight division. Gwynne was the only boxer to reach the finals, winning his class on a clear-cut decision last night from Hans Zigliarski of Germany.

BIG LEAGUE BALL RESULTS

SATURDAY'S RESULTS AMERICAN LEAGUE
FIRST GAME - Philadelphia 13 17 0 Boston 2 6 0
Grove, Choehrane and Heving; Boerner, McNaughton, Gallagher, Michaels and Connolly.

Cincinnati 3 7 0 Pittsburgh 0 6 0
Rixey and Lombardi, Swift, Harris, Grace and Padden.

Safety-razor blades were used recently by a burglar to open a window. This method of solving the safety-razor blade problem is not quite fair. Young physician (in witness box): "I employ myself as a physician." Lawyer: "But does anyone else employ you as a physician?"

Voice over Phone - Hello is this the Bridge Commission? Office Called - Yes, what do you want? Voice over Phone - How many points do you get for a little slam?

FINAL (Continued from Page 1)

final determination. Little authentic information leaks from the highly confidential discussions now entering their final phase. Proposal and counter-proposal are made, modified, changing the figures. But, subject to these qualifications, discussions are understood to be following these lines:

Wheat: Duty of four cents a bushel on foreign wheat with a preference of 2 1/2 cents in favor of Empire wheat.

Meats: One and one-half cents per pound on foreign lamb, mutton, pork and bacon.

Butter: Four cents per pound on foreign as against the present ad valorem duty of 10 per cent which is equivalent to about two cents per pound.

New or increased preferences on fish including canned salmon.

Russian Dumping: Restriction by special order directed against products such as wheat and lumber as the necessity arises rather than against particular countries. During the financial crisis of last winter, the United Kingdom took similar action against abnormal importations of certain foreign products. The idea then was both to prevent dumping before the tariff could be brought down and to strengthen exchanges. The duty imposed by order was fifty per cent. The act gave authority to impose duties up to one hundred per cent.

On the Canadian side, chief concessions are likely to be on coal and iron and steel. The United Kingdom would like reductions in the rates now imposed by Canada on British textiles. This seems likely in regard to certain high-grade lines. But in regard to textiles generally, it is doubted if the British request can be fully met although complete inquiry by the tariff board is under review. The plan would be to have the tariff board recommend rates based on the difference in cost of production as between the United Kingdom and Canada.

Similarly, the British tariff board would review the British tariff to see how far Canadian products can be assisted. Free trade between the United Kingdom and Canada on motorbikes, side-cars and motor-trucks seems probable.

By implication, the report of the conference sub-committee on standardization recognizes development of secondary industries in the Dominions. The sub-committee's report recommends approval of a report by the Imperial Economic Committee. This report recommends that the more highly industrialized countries should devote themselves to specialized lines of production: the lesser industrialized, to general lines.

HURRICANE

(Continued from Page 1)

of farming communities and small cities near the Gulf of Mexico.

LATER

HOUSTON, Texas, Aug. 14 - (A.P.) - Seventeen persons were dead, at least 50 were injured and property damaged was estimated today at many thousands of dollars in the wake of a tropical storm which buffeted south Texas last night.

The list of dead and injured slowly mounted as crippled communications were repaired and rescue workers moved into the stricken area, which centered roughly about this city with a radius of 75 or 100 miles.

The storm moved slowly through south Texas in a southwest direction tonight with rapidly diminishing force, after sweeping an area near Taylor, about 200 miles northwest of Houston.

Striking the Texas coast between Galveston and Freeport, 34 miles from Galveston, late yesterday, the storm raged for many hours, the wind attaining a velocity of about 70 miles an hour at Houston. From Galveston and Houston it moved north to Taylor before turning southwest.

"It is following the usual course of such disturbances," the weather bureau at Dallas reported. "It probably will blow itself out without further violence."

Protected by the great seawall, constructed many years ago after a storm in 1900 had devastated the city, Galveston reported no great amount of damage, although a number of flimsy structures on low beaches were swept away, houses were unroofed, windows were broken and trees were uprooted.

Galveston passed the night in darkness, power having been shut off to lessen the danger of fire. About \$10,000 damage was done to buildings at Fort Crockett, army post.

Early reports that the city was isolated were denied, although telegraph and telephone wires were out of commission at intervals, and the causeway connecting Gal-

MONTREAL BOY WINS CANADIAN GOLF CH'SHIP

(By Sam Robertson, Canadian Press Writer)

LAMBTON GOLF CLUB, Toronto, Aug. 14 - Gordon Taylor, Montreal had climbed today to the top most peak of amateur golf in Canada at the age of 22. The rhythm of his effortless swing provided the music for the long, hard march.

Accuracy of the shots that flew from his clubs was the dominating factor in the young stylist's five-and-three victory over Jack Cameron Saturday when he met the Toronto veteran for the title of Dominion amateur champion. In addition to battling Taylor the Toronto aspirant was fighting a driver that hooked and sliced. He fell behind on the second hole when a tee shot strayed into a sand-trap and was never able to catch up with his straight-shooting opponent.

FARM EXHIBIT AT FIELD DAYS

In order to make the Illustration Station Field Days more instructive and interesting, Dr. Clark, Superintendent of the Experimental Farm has again made available a large truck exhibit. This exhibit is in charge of Mr. B. F. Tinney, Assistant Superintendent, who has shown it, to date, at nine Field Days. It will also be on display at the three Field Days during the coming week.

The exhibit is in the form of six panels, each dealing with an important farm problem. These panels are as follows:

1-Growing fodder corn. This crop has proven very satisfactory on Prince Edward Island.

2-Results of seed drill survey.

3-Treating grain for smut. The loose and covered smut of oats, the bunt of wheat and covered smut of barley can be satisfactorily controlled by treating with formalin.

4-Control of sheep ticks. This is accomplished by dipping.

5-Poultry parasites. Heavy losses occur each year from poultry parasites. This loss may very easily be prevented by raising the chicks on fresh land removed from old quarters and hens.

6-Results of "Time of Topping Turnips" experiment. This experiment, conducted at the Rustico Illustration Station, showed clearly that it was an uneconomical practice to top turnips early.

On rainy days the exhibit is displayed under a large tent where seats are a lecture hall on such occasions. At West Devon and at Palmer Road Field Days when the day was showery, the program was carried on under canvas, with no inconvenience to those present.

Steps To Curb Power Of The Irish Senate

DUBLIN, Irish Free State, Aug. 14 - (A.P.) - Steps to curb the power of the Free State Senate, and possibly to do away with the Upper Chamber entirely, are being contemplated by the De Valera Government, it was revealed today.

The Senate has lost standing with the administration because it has forced delay in the government's attempt to eliminate the oath of allegiance to the Crown and has opposed other De Valera measures.

Defence Minister Frank A'ken, speaking today at Castlepollard, referred to the holding up of the oath bill and said the government party soon would ask the people to deal with the Senate in a way to prevent it from barring the road to National independence.

veston with the mainland was clogged by motor vehicles stalled when motors were drowned out by rain. In the oil fields at Bolding and Newgulf derricks were scattered about. Many unemployed persons found occupation repairing storm damage. It was estimated weeks would be required for the work. An accurate estimate of damage in the storm area probably can not be made for many days, if at all, but it was known to be tremendous with the greatest losses incurred by cotton, rice and corn planters.

Over 30,000 Readers In The Prov. Over 8,000 Readers In The City. - Every Day -

Advertisers cannot afford to be without the Charlottetown Guardian to convey their message to customers and prospective customers. It pays to advertise in the Charlottetown Guardian. Readers owe it as a duty to patronize advertisers in the Charlottetown Guardian who make it possible for them to get their paper at less cost than any other morning newspaper in Canada.
