

LOOKING 'EM OVER

BY "TEC."

THE BIG PARADE

The date for the above mentioned event has been set by the Victoria Park Driving Club for Saturday, April 23rd. The "Parade" will consist of the race horses of Charlottetown and vicinity in membership with the Victoria Driving Club, and the new cars now being shown by the various local dealers. In the meantime horsemen will be getting all their equipment polished up.

RETIRING FROM RACING

Colin MacKenzie of Truro, N. S. is retiring from the racing game owing to his trainer, Johnny Conroy, having taken an exclusive position with H. T. Fulton, Upper Stewiacke, N. S. Mr. MacKenzie is disposing of his star performer Captain Mack 2.11 1-4 and other horse holdings.

WILL STICK WITH RANGERS

All rumors as to the possible whereabouts of Frank Graham, clever defenceman of the Dalhousie hockey team are settled. Frankie will remain in status quo at Dalhousie.

ABOUT RIGHT

A dispatch dated New Glasgow and appearing in a New Brunswick Exchange says: "Joe Beaton and Daddy Bubar, outstanding hockey stars with the Fredericton Capitals in the Senior Northern League last season, will play with the Charlottetown Abbies next winter, it was definitely learned here last evening. Beaton confirmed the report that the former New Glasgow Eastern League players would take up permanent residence on the Island, stating that they would leave for Charlottetown early in May. Both Bubar and Beaton have been spending the past few days with their parents in New Glasgow and

Lourdes. A week ago they visited the Island and on their return were undecided as to whether or not they would accept the Charlottetown offer.

Beaton's statement, however, confirms the report that has been on the rounds in the Maritimes recently.

DO YOU KNOW?

Do you know that for the 27 professional hockey games in Toronto this season that the attendance averaged 10,782 per game. The total attendance was 291,113, made up of 249,000 in the league season; 13,030 Chicago game; 13,817 Maroon game, and 14,366 New York Ranger game.

We hear that the Provincial Government received \$54,000 in war tax receipts and that the Ontario Athletic Commission 2 per cent cut on all professional shows was more than \$10,000.

WITH THE HAWKS?

Hockey fans were yesterday discussing a report that had come from Moncton to the effect that McKenzie, sturdy defence player with Montreal Winged Wheelers during the season just completed and who previously performed with Winnipeg Elmwoods, would line-up with the Hawks next year. It was stated McKenzie would be shifted to the Maritimes via the industrial transfer route. It is understood the Moncton line-up would be: Foster, goal; Gill, Burrage and McKenzie, defence; centre, D. McDonald, Dud James, J. McIntosh left wing, B. Connelly, S. McManus, Nucker Irvine; right wing, M. Muckle, A. Webster, Ken Carroll.

Note—The above is a likely looking array of puck chasers, but should the Abbies maintain that superiority complex manifested over Hawks last winter, it looks as if the Moncton moguls will have to add a few more front lines to the personnel.

New Scoring System Mooted

Capt. John L. Read of Borden, who is a well known horseman, has thought out an ideal scoring system for race tracks which he thinks will eliminate the tiresome scoring, which is so trying to the starter, racing men and fans alike. The idea is instead of the horses coming up the main track to take their positions, they will score in a circle or paddock, just inside the centre field, starting from the judges stand. They will come out in the order of their positions and are ready for the word "Go," without further scoring. Mr. J. E. Milligan of Northam has consented to try the new system on his race track at Northam. If it proves successful as Capt. Read, Mr. Milligan and other prominent horsemen think it will, it will be an entirely new departure in horse racing and will put Mr. Milligan's track in the front row of American racing ovals. Mr. Milligan promises some good racing this season. He is putting up a purse of \$1600 and will co-operate in every way with the racing men. His first race on July 13th promises to be away ahead of last year and that is saying something.—S.

Petroleum Resources

MONTREAL, Que., April 15—(By The Canadian Press)—The known petroleum resources of the North West Territories were explained by Dr. G. S. Hume, of the Geological Survey of Canada, Ottawa, in an address on "Oil Prospects of Great Slave Lake and MacKenzie River Areas" at today's session of the annual meeting of the Canadian Institute of Mining and Metallurgy here.

The oil wells opened at Norman on the MacKenzie River ten years ago had awaited a local market since that time but a market now seemed assured with the discoveries of radium, silver and copper at Great Bear Lake, 250 miles to the east, Dr. Hume said, Norman is at the point where Bear River empties into the MacKenzie River and so is on the water route to Great Bear Lake.

While the wells already drilled and capped at Norman will provide a moderate amount of oil for fuel and power at the respective mines at Great Bear Lake there was evidence that greater quantities might be found by a further search, both around Norman and fifty miles further to the north, he declared. At Great Slave Lake, 350 miles to the south, there had already been proven important deposits of lead and, should these be exploited, it would be of great advantage to have a local supply of petroleum.

HOW THEY STAND

Table with columns: International League, National League, American League. Rows include teams like Rochester, Newark, Reading, Buffalo, Montreal, Toronto, Baltimore, Jersey City, Philadelphia, St. Louis, Cincinnati, Chicago, Pittsburgh, Brooklyn, Boston, New York, Washington, Chicago, Detroit, New York, Philadelphia, Cleveland, St. Louis, Boston.

BEANS MAKE GOOD CROP

The Dominion Experimental Station at Lethbridge, Alta., reports a decided increase in the growing of field beans in Western Canada, particularly in irrigated areas. Heretofore practically all the beans used in cities and towns of Western Canada have been imported from Japan, the United States and Eastern Canada. A point like Lethbridge, for example, uses about six carloads of 30,000 pounds each annually. Beans require a long season to mature and should be planted sufficiently early to ensure against loss from fall frosts. The small white varieties are best suited to market demand, and it is also pointed out that too rich land, to heavy irrigating, too thin seeding, and too wide spacing of rows all tend to prolong the period of growth.

he said. Drilling done so far near surface seepages of oil had failed to give productive wells but Dr. Hume pointed out that there were good chances for finding oil in quantity southwest of the lake. There was a third oil area near the mouth of the MacKenzie River, or Arctic Red River, Dr. Hume stated, but little was known of this area and its exploration would have to await the discovery and development of some other local resource as had been the case with Norman and Great Slave Lake areas.

BIG LEAGUE BALL RESULTS

(Canadian Press) AMERICAN LEAGUE

VICTORIA AND VICINITY

Mr. Hermas Myers of Carleton, who underwent a serious operation in Prince County Hospital, is much improved and doing nicely.

Mrs. Frank McDonald of Crapaud, is spending a few days in Summerside the guest of Mr. and Mrs. Crilly Lea.

The many friends of Mr. Percy Howatt of Tryon Branch Roads are glad to hear that he is much improved after having a bad attack of neuritis.

The many friends of Mr. W. A. Watton, Crapaud, our good and faithful mail carrier, are pleased to hear he is improving after a serious illness.

The friends of Mr. Herbert Haywood welcome him back to his home in Wilmet Valley after spending three months in Prince County Hospital.

TWIN AND TRIPLET PRINTS ALWAYS GOOD

prints break into publicly only now and then, they are going on and on and frequently seen in all levels

of fashion. A draped evening gown with a train shown by Callot Soeurs, for example, is made of a large cool spot print, using three shades of blue—light blue for the top, medium blue for the main part of the frock and deeper blue for the section which results in the train. White ground prints in contrast with the same pattern in a dark ground are still employed for light tops and contrasting touches on dresses, and the blouse of a matching print in a different harmonizing color is often presented with a tailored suit, particularly types made from inconspicuous patterns.

those \$19.50 Suits Shown this week are simply marvellous value! Compare them with the best you ever bought between \$25 and \$30.. Plain Blue, Blue with White stripe, Black with White stripe, Brown.

New Topcoats are in — \$12.50 and up

RETURN OF CLOCHE Cloches are good style for evening, and fabrics are being used for them more and more. It is said that women like the casual look and the head comfort of fabric hats. Taffeta is one of the materials which is employed in versions for town wear, navy taffets, for instance, stitched all over and faced with pink taffeta. Dotted silks such as heavy rough crepes printed in conventional polka dot patterns, are among the newest materials to be used for small turban shapes.

for CUTS & SORES Apply Minard's freely. It washes out poison and cleanses. Any wound heals quickly after its use. There's nothing better! MINARD'S "KING OF PAIN" LINIMENT
