

WHY HAVE MOSQUITOES? **FLIT** kills them

REFUSAL OF PLAINTIFF'S APPLICATION

The application of the plaintiff was refused in the case of Colin Matheson vs. Angus Matheson, executor of the last will and testament of Flora MacPherson, late of Bradalbane, in the judgment given by Mr. Justice Saunders at the opening of the Supreme Court yesterday. The case had been tried at the last January session of the Court before Mr. Justice Arsenault and a jury, and a verdict had been found for the defendant.

In a lengthy judgment the circumstances of the case are outlined. It was claimed by the plaintiff that there was money due him from the estate of his aunt for separating cream and milk, churning and delivering cream, milk and butter for a period of almost three years. After reviewing the circumstances the judgment concludes as follows:

"It seems to me that under the circumstances the jury in this case had every reason to conclude that the services rendered by the plaintiff for his aunt were rendered without any thought or intention of ever making any charge; in other words that the same was gratuitous.

"The plaintiff's application is therefore refused with costs."

New Canadian Apples

For the ulterior benefit of Canadian commerce, considerable progress has been made in a number of projects at the Horticultural Division of the Dominion Experimental Farms. The breeding of new varieties of fruits, vegetables and ornamental plants has been continued, with promising new varieties blooming or fruiting for the first time last year, or reaching a stage when their value could be better determined. In this category are some of the promising apples, the Edgar, Formac, Grover, Stonehenge, Macfar and Bancroft. A new yellow variety of corn has been named Dorothy. Ruby rhubarb increased very much in popularity during 1932, and among ornamental plants new varieties were evolved of lilacs, rose bloom crab apples, roses, lilies, lilies and early columbine. Two hardy bush roses were named U. P. Hedrick and Amy Hedrick.

MARRIAGES

MURRAY-MACLELLAN — At St. Dunstan's Basilica, Charlottetown, June 19, 1933 by Rev. Bernard Gillis D. D., Ida M. Murray of Summerside to Joseph D. MacLellan of Summerside formerly of Cardigan.

DEATHS

LANE—At her home in Dunstaffnage on June 20, 1933, Louise Derenda Miller, wife of the late Edward Lane, in her 75th year. Funeral Thursday, June 22nd. Short service at home, followed by service at Presbyterian Church, Marshfield, at 2.30. Interment Marshfield Cemetery.

IN MEMORIAM

In loving memory of **George P. Grady**, who passed away June 21st, 1926.

A silent thought
A secret tear
Keeps his memory ever dear.
Inserted by his Wife.

IN MEMORIAM

In loving memory of **GEORGIE EDITH BELL**. Died June 21st, 1932.

Lovingly remembered by her Mother and Sisters May, (Olive) Mrs. H. Tremere.

King's Equerry To Be Married

LONDON, June 20—One of the King's equeries is to be married at the end of this summer.

Captain Lord Claud Hamilton, brother of the Duke of Abercorn, who has held several appointments in the Royal Household since he left the Guards shortly after the war, stated yesterday that his engagement would be announced shortly to Mrs. Violet Newall.

The bride-to-be, who is very beautiful, has a daughter and a son, who is going into the navy. She is living at present in Eaton square, W.

Lord Claud Hamilton lives at St. James' Palace, and has a country house at Brockenhurst, in the New Forest. He was awarded the D.S.O. in the early days of the war when serving with the Grenadier Guards.

Before his present appointment he was successively equerry to the Prince of Wales and deputy-master of His Majesty's Household, and he accompanied the Prince of Wales on his Australasian and Canadian tours.

He is forty-four years old.

He was in attendance on the Prince in France and Flanders during the war, and it is said of him that "he was often to be seen pursuing His Royal Highness on a cross-country run or long-distance bicycle ride, a task entailing considerable staying powers and indifference to danger!"

WATER PROMISES NEW MOTOR FUEL

LONDON, June 20—Motor fuel from water is promised by a group of British scientists.

Experiments are now being conducted to extract hydrogen from water, and the scientists contend that hydrogen is just as effective a motor fuel as the present day gasoline.

Ordinarily, hydrogen is produced by passing an electric current through water, breaking it up into hydrogen and oxygen gases. This method, however, makes it far too expensive to be used as a motor fuel.

Now Audolph Erren, a young engineer, has invented a "pressure electrolyser" which produces both hydrogen and oxygen automatically under high pressure at merely the cost of the electric current.

The chief engineer of one of the largest British transport corporations employing some 3,000 vehicles is actively interested in the system, and one of the company's trucks is being adapted to the use of hydrogen produced by Erren's method.

If the tests prove successful it is possible the whole fleet of trucks will be converted to use hydrogen.

The advantages of the gas as a motor fuel are readily seen. Thermally, it is three times more efficient than gasoline; is cooler and cleaner, and gives an exhaust free of smoke, smell or deadly carbon monoxide.

WOMEN EXECUTIVES IN U. S. GOVERNMENT KEEP BIRTHDATES DARK

WASHINGTON, June 20—If the recently issued United States Congressional record is any criterion, more women prefer not to tell their age.

The following refrain from including a birth date in the book: Labor Secretary Frances Perkins; Senator Hattie Caraway, of Arkansas; Representative Florence P. Kahn, of California; Representative Mary Norton, of New Jersey; and Representative Virginia Jenckes, of Indiana.

The following put the birth year in: Representative Edith Nourse Rogers, of Massachusetts; Representative Kathryn O'Laughlin McCarthy, of Kansas.

On the whole, their biographies explode the theory that women have much to say about themselves. Senator Caraway and Representative Kahn use exactly four lines each. The first woman cabinet member is content with a modest twenty-one-liner.

BLUEJAYS AID CAPTURE OF EAGLE

KANSAS CITY, Mo., June 20.—Jimmy Duffy, with the aid of a flock of blue jays, captured an American eagle with a garden rake in the rear yard of his home in Kansas City.

The eagle was busy repulsing an attack by the blue jays when Duffy hooked its foot with the rake and dragged it from its perch in a tree.

The eagle had a wing-spread of seven feet.

IS PROMOTING INTEREST IN MUSIC

Capt. J. S. Atkinson, Director of the Canadian Bureau For Advancement of Music is Visiting City.

Capt. J. S. Atkinson, Director of the Canadian Bureau for the Advancement of Music is visiting the City in connection with the work of his organization. The objectives of his visit are to inspect the work of the piano class established here last year subsequent to his first visit, and taught by Miss Lillian MacKenzie at Prince Street School, to organize if possible violin classes for

Capt. J. S. Atkinson of Toronto

group instruction. He is also attempting to organize the Women's Music Clubs of Canada into a federation.

The Canadian Bureau for the Advancement of Music is an Association of those interested in the general musical advancement of Canada through the development of music in the home, church and school. The movement is supported by voluntary contributions and by grants from the Carnegie Corporation, and other organizations.

The object of the Bureau is to develop interest in music and to awaken a fuller realization of the value of good music in the lives of the Canadian people, both young and old, not only from a personal welfare and happiness point of view, but its value in making them better and more effective citizens.

The patrons of the organization include the Governor General of Canada, and the Lieutenant Governors of the various provinces. The honorary directors are men prominent in the commercial, industrial, and educational life of the country.

The Bureau carries on its work of promotion by means of class instruction in schools, by sponsoring music weeks, music competitions and music festivals.

As an indication of the progressive nature of the work which the Bureau has been conducting, Captain Atkinson points out that the plan of giving group instruction in the schools which began six years ago in Toronto with fifteen pupils has grown to include 45,000 pupils in practically all the leading cities and towns of Canada.

MISS MURIEL CAMPBELL

The demise of Miss Muriel Campbell in P. C. Hospital on June 6th cast a deep gloom over Irishtown and surrounding vicinity.

Deceased, who was a daughter of Mr. and Mrs. Alex. Campbell, was a young girl of rare intellectual ability and charm, and the passing of one so young, in her early bloom of youth at the age of sixteen was indeed sad. She attended school as usual on Wednesday, and went about her duties in her usual congenial manner, when suddenly she was stricken with her fatal illness, which developed into spinal meningitis. She was rushed to P.C. Hospital, and although medical aid could do was of no avail, and her gentle spirit took its flight to Him who gave it.

At the tolling of the Church bell the funeral cortege left her home at 2 p.m. Monday, led by her pastor Rev. G. T. Spriggs, and followed by her teacher, Miss Jennie McKay who sadly led the pupils past the school, which carried the flag half-mast. The flower laden casket was borne to St. Stephen's Church by six school chums, Irving, Norris and Arthur Campbell, John McLeod, John Murphy and Harold McLeod.

The funeral service was conducted by her pastor, Rev. G. T. Spriggs. Miss Pauline Coulson rendered very sweetly "Does Jesus Care." Hymns "There is no Night in Heaven"; "The Sands of Time are Sinking"; "Safe in the Arms of Jesus" were

CHICK HATCHED WITH THREE LEGS

OROVILLE, Cal., June 20.—A baby chick hatched at the farm of Mrs. E. M. Baker, near here, began life in the midst of a series of complications.

In the first place the chick's father was a Barred Plymouth Rock rooster and its mother a bantam hen. The chick, shortly after being hatched, developed three legs. The "extra" grew from its backbone and is as large as the two normal legs.

THE REMAINS WERE LAID IN THE FAMILY PLOT AT ST. STEPHEN'S CEMETERY.

There are left to mourn, besides a circle of friends and relatives, her parents, four sisters, Hilda, Jean, Alma, Marjorie and two brothers, Borden and Earl.

Hearfelt sympathy is extended to the bereaved.

WOOL

Wanted, a large quantity of unwashed wool. Highest cash prices paid. Bought daily at 267 King St., past railroad station.

from the Smith home had been used to buy her a wrist watch.

Smith also made a statement and the veteran Crown Prosecutor, Charles R. Smith, K. C., will attempt to introduce the two statements at the trials.

It is expected Herwood and Smith will be given separate hearings. Tomorrow morning, Smith's case will go to the Grand Jury, while Herwood's trial before the petit jury will open at the same time if the non-appearance of a witness causes postponement of a theft case.

Herwood was under close guard in the county jail tonight, following a frustrated attempt to gain his freedom this week. Jailor W. E. Lockhart surprised him while cutting through the bars of his cell with a hacksaw which he had secured from some unknown source.

HINDU MYSTICS VISIT CITY TO PREACH

Two Hindus, Sadhu J. Nelson Christananda and Edmund Devadoss Christananda, who have been travelling through Canada for the last two years preaching on India's interpretation of Christ arrived in the city yesterday and will probably remain in the province about two weeks. The former speaks seven languages, and has travelled for a number of years in India, Europe and America.

The two Hindus state that they have recently come from British Columbia, and were planning to return home through Halifax. Before leaving, however, they had wished to visit the "proverbially, glorious Island."

The "Sadhu" states that he is presenting the mystic teaching of Christ from the Hindu standpoint. In India "Sadhu" generally means a holy man, one who separates himself for a religious purpose.

Sadhu Christananda who is officially connected with the Church of England conducts an independence mission among the higher castes of southern India. He states that he and his brother have enjoyed their stay in Canada very much, and that they have received a very kind reception in Prince Edward Island. They are lodging at the Y. M. C. A.

BUSY WORK FOR PULLETS

Pullets don't develop cannibalistic habits if they are kept busy. A. H. Ward, hangs cabbage heads in their houses for them to peck. This form of greens is objectionable if given in large quantities after birds come into production because it affects the quality of egg yolks. Mr. Ward grew some mangels last year to test their effectiveness.

Some poultrymen use sheaf grains to keep the birds working. The bundles are merely thrown into the house where they become a part of the litter after the grain has been scratched out or they may be suspended within reach of the birds above the floor.

ROSA BELLA'S GUARDIAN ANGEL

Gertrude, her nurse—Muriel McDonald.

Agnes, Gertrude's daughter—Nora McMillan.

Antonia and Mina, Ladies at Court—Patricia Arsenault and Isabel McDonald.

Madame Massey, Governor's wife—Gertrude Connolly.

Madame Dozons, Doctor's wife—Jacqueline LaCoursiere.

Mademoiselle Vergez—Thelma Peppin.

Rosabella's Guardian Angel—Alma Sheehan.

Twenty Village Children.

Twelve Angels of the Grotto.

In conclusion, His Excellency Bishop O'Sullivan thanked the pupils and the Sisters for the enjoyable entertainment given on what was a notable occasion.

NOTRE DAME ACADEMY HELD CLOSING

The Commencement Exercises of Notre Dame Academy were held last evening with a very large attendance. His Excellency Bishop J. A. O'Sullivan presided. Graduation diplomas were awarded to eight young ladies, who had successfully completed their course in Grade X. A very interesting and enjoyable programme was presented, the chief feature of which was the play, "Bernadette of Lourdes."

Eight Young Ladies Graduated—Enjoyable Entertainment Including Play Given.

Graduation Diplomas were awarded to the following young ladies, who have completed, with an average over 75%, the course of studies prescribed for Grade X:

Yvonne Gaudet
Jacqueline LaCoursiere
Rita McLean
Jennie MacKay
Mary McKinnon
Marion Mahar
Catherine Shama
Muriel McDonald.

Commercial Department

The following young ladies were awarded Certificates for Stenography, Typewriting, Filing and Correspondence:

Florence Martin
Isabel Wisner
Frances White.

Following is the prize list:

Bronze medal of His Excellency the Governor-General of Canada, for the highest yearly aggregate in Grade X, awarded to Yvonne Gaudet.

Gold Cross, for Religion, donated by His Excellency J. A. O'Sullivan, awarded to Marion Mahar.

Gold Coin donated by His Honor Sir Charles Dalton, for the second highest yearly aggregate in Grade X awarded to Jacqueline LaCoursiere.

Prizes donated by a Friend of the Institution, in memory of the late Bishop O'Leary, awarded for Mathematics, with equal merit to Yvonne Gaudet and Jacqueline LaCoursiere.

Gold Coin for Latin, donated by Right Reverend Maurice McDonald, awarded to Jacqueline LaCoursiere.

Prize for General Proficiency in Grade X sent by Reverend Patrick McMahon from Rome, awarded to Yvonne Gaudet.

Gold Coin for English, donated by The Notre Dame Alumnae, awarded to Yvonne Gaudet.

Prizes for English awarded to Jacqueline LaCoursiere and Mary McKinnon.

Gold Coin for Arithmetic, donated by Messrs. W. D. Gillis & Co., awarded to Muriel McDonald.

Gold Coins for Assiduous Application to Study, donated by Dr. J. D. MacGuigan, awarded to Jennie MacKay and Rita McLean.

Gold Coin for French, donated by Dr. J. E. Blanchard awarded to Jacqueline LaCoursiere.

Gold Coin, donated by the Catholic Women's League, awarded for History to Yvonne Gaudet.

Missal, donated by the Children of Mary, awarded for Geography to Yvonne Gaudet.

Pearl Rosary for the highest yearly aggregate in Class Work and Christian Doctrine, awarded to Florence Martin.

Two volumes for stenography, awarded to Isabel Wisner.

Prize for Correspondence awarded to Frances White.

Following was the programme:

Piano Duet—"Lita"—Selected—Miss M. Mitchell, A. Pigott, M. King, G. Monaghan.

Prologue—"Bernadette of Lourdes"—Marion Mahar.

Act I—Bernadette, her mother and children at the Grotto.

Chorus—"Te Deum."

Act II—At the Castle of the blind Princess of Valenaria.

Chorus—"Magnificat."

Act III—The Pilgrims at Lourdes—The Miracles.

Hymn of Thanksgiving to Our Immaculate Mother.

Awarding of Medals and Diplomas to Graduates.

A Parting Word—Yvonne Gaudet.

Class Song—"The Emblem of Life."

God Save the King.

Following is the Cast of Characters for "Bernadette of Lourdes":

Bernadette of Lourdes—Bernadette Trainor.

Louisa, her mother—Vivian Cameron.

Eleanora, Princess of Valenaria—Cavell Dicks.

Rosabella, her blind daughter—Norma Peppin.

Lucia, her young sister—Betty Leightner.

Laurinda, the governess—Mary

Drowning Mystery At Shippigan Island

BATHURST, N. B., June 20.—Aurele Savoie and Ernest Savoie, both about twelve years old, while playing on the beach at St. Mary's Shippigan Island, yesterday afternoon about one thirty o'clock, noticed the form of a baby being brought in by the waves. They immediately spread the alarm and it was found that a boy three years old about three feet tall and weighing thirty-two pounds had been washed in. It was first thought that the little body had drifted from the Gaspé Coast or Prince Edward Island. The matter was referred to the R. C. M. P. and Dr. J. E. Hackey, of Caraquet, held a post mortem. The doctor upon examination found no water in the lungs. He found considerable sand in the throat, mouth and nose. He also found undigested food in the child's stomach. He found no external marks of violence and found that rigidity had not set in. From this it was concluded that the little body had not been in the water for any length of time.

Coroner J. C. Meahan and A. M. Rouchaud, Clerk of the Peace, went to St. Mary's last night where Doctor Meahan held an inquest and the jury found that the body of the unknown child found on the beach at St. Mary's Island had come to its death by drowning under unknown circumstances.

The little boy was poorly clad, being clothed in a dress, stockings and home-made moccasins. In view of the fact that it was found that the body had not been in the water long it is thought that the body came from Wilson's Point on Miscou Island some three miles from the spot where it was found. This view is based on the direction in which the current was running at the time. R. C. M. P. are carrying out a rigid investigation on Shippigan and Miscou Islands. The fact that the little boy has not yet been claimed is causing considerable alarm and concern in the lower part of the country. After the inquest Dr. Meahan gave permission to bury the remains. This has not yet been done pending claiming of the body. The boy was a perfect specimen of childhood.

Canadian Mosquitoes

There are about sixty species of mosquitoes in Canada, many of which feed on the blood of man. Although the majority of them, particularly the kind known as Aedes are most troublesome in field and woodland, in certain seasons, as at present as the result mainly of non-control, they often cause considerable annoyance indoors as well. Their attacks are most noticeable at dusk, and in warm, dull, humid weather. In autumn and winter, also, complaints are frequently received of the presence of numbers of mosquitoes in cellars and basements. These mosquitoes are the hibernating females of the genera Culex and Anopheles which pass the winter as winged adults in protected situations. Attacks from them are rare. However, in many parts of Eastern Canada, the cosmopolitan house mosquito, known scientifically as Culex pipiens, is now well established, especially in towns and cities, and in one large city has become a public nuisance. This species is found not far from dwellings which it enters freely, biting particularly at night. How householders and others can combat the mosquito nuisance is fully explained in "Mosquito Control in Canada," a pamphlet issued on request by the Dominion Department of Agriculture.

PIG IN PARACHUTE JUMP

BALTIMORE, Md., June 20.—Despite protests by the Maryland Society for the Prevention of Cruelty to Animals, plans were being made today to have a pig make a parachute jump from a plane in suburban Ruxton Saturday.

The jump promises to be the high spot of a country fair. The owner of the pig, Edward M. Fenimore, a Chestertown, Md., farmer and aeroplane enthusiast, said the pig had taken jumps from planes before and actually enjoyed them.

Central Banks

The central banks should let it be publicly known they were pursuing a policy of cheap and abundant money, declared the British Chancellor. The Governments also should be associated with any subcommittee that might be appointed by the Central Banks to consider co-operative efforts. Mr. Chamberlain's resolution appeared to have strong support and several important quarters expected it would be adopted.

The second biggest single issue of the day was the United States resolution on currency reserves presented by Senator Pittman. Like the Chamberlain motion, it received wide support. Germany, Italy, India, China, Mexico and the Irish Free State delegations expressed approval. Several others including the United Kingdom, Brazil, and Czechoslovakia agreed with the broad principles enunciated in the resolution. The developments cheered the United States as indication there was nothing to certain reports that have appeared to the effect Europe was lining up solidly against the United States.

Senator Pittman announced early that the proposal "was entirely satisfactory to our delegation and has the approval of the President of the United States." This was significant in view of the fact the American programme on tariffs and trade agreements remained

CROSS CURRENTS

(Continued from Page 1)

Plans Proposed

Meanwhile in mimeographed memoranda, in formal resolution, in modest pamphlet and in ponderous some plans for getting the world out of the mess shower on the hapless delegates, in an endless stream. Submission of British financial proposals for the recovery of wholesale commodity prices were followed today by a series of resolutions containing joint proposals on the gold standard by Bulgaria, Latvia, Poland and the Little Entente.

Further discussion in the general economic commission of the French proposals for restriction of production of basic commodities bought another afternoon of schemes and suggestions, particularly as affecting wheat. Portugal had a fresh set of suggestions.

The developments of a busy day may be summarized as follows:

(1) Currency stabilization remained in abeyance, the British pound climbed to more than \$4.19 in terms of the United States dollar and the consequent weakening in the United States dollar provoked alarm in France and other gold standard countries.

(2) Neville Chamberlain, Chancellor of the British Exchequer, introduced in the first monetary committee a resolution demanding that central banks cooperate and push a vigorous cheap money, credit and open market policy. With strong support forthcoming its adoption was likely.

(3) Wide approval was forthcoming for the United States resolution suggesting steps for restoration of the monetary standard, lowering the traditional 40-percent gold coverage to 25 percent including optional use of silver for one-fifth of this amount.

(4) The United States policy on monetary standards as set forth by Senator Key Pittman in the above paragraph does not mean the United States is prepared for an immediate return to the gold standard, Senator Pittman declared.

MONETARY STANDARDS

The committee dealing with the Pittman resolution accepted a British amendment by Viscount Hallahan which leaves the time and the parity at which nations will return to the former standard to the determination of each government.

(6) Australia's readiness to cooperate with Canada, the United States and the Argentine—the rest of the "big four" in measures to restrict production of wheat aiming at raising the price, was announced. But Australia fundamentally is opposed to this method and if it is adopted, it should be only temporary, said Stanley Bruce, Australian Minister in London.

THE BRITISH RESOLUTION

The British resolution to the committee dealing with temporary monetary measures declared monetary action was one of the essential points in bringing about a recovery in wholesale prices, which recovery should be great enough to restore equilibrium between costs of primary production and the yield for these products, bolstering his stand that any action having a deflationary influence should be distinctly injurious to the recovery programme.

THE DISCIPLINARY ACTION TAKEN

At one recent demonstration pacifist students blocked the way of Dr. Frederick B. Robinson, president of the college as he was escorting friends to the annual military exercises of the institution's training corps unit.

COLLEGE EXPELS 20 PACIFIST STUDENTS

NEW YORK, June 20—Twenty students were expelled from the College of the City of New York yesterday on the recommendation of a special committee formed to investigate recent anti-war disturbances.

"The disciplinary action taken," said a college statement, "was in no way related to the views of the students affected concerning military training or other controversial questions. The issue is whether college students shall be allowed to interfere with a stated college function."

SCHOOL OF MUSIC GAVE RECITAL

Piano and Vocal Numbers Were of a High Order and Greatly Appreciated.

The annual recital by the students of the Charlottetown School of Music under the direction of Prof. A. R. Kendall took place last evening and was greatly enjoyed by a large and appreciative audience. The numbers were of a high standard and were excellently rendered by the various pupils showing the instruction at the school to be of a very fine character. Herewith is the programme

- Songs: (a) "Where Go the Boats" N. F. Demuth
- (b) "The Wind" Mary Couper
- Class of Girls
- "The Carrion Crow" English Folk Song
- Class of Boys
- "The Sandman" Johannes Brahms
- Misses Joan MacIntyre, Helen Mills and Philippa Bradley
- Piano Solo: Sonata in G (Part One) Beethoven
- Miss Mary Ferguson
- Song: "Marie" Robert Franz
- Miss Nellie Brenton
- Piano Solo: (a) "The Watchman's Song" Grieg
- (b) "Grandmother's Waltz" Grieg
- Miss Alfreda Pickard
- Song: "When Song is Sweet" Gertrude Sans Souci
- Miss Sarah Wood
- Piano Solo: "Rondo" Lichner
- Miss Virginia Large
- Piano Solo: "From Erin" Felix Swinestead
- Miss Philippa Bradley
- Piano Solo: "Two Preludes" Chopin
- Miss Francis Simmonds
- Song: "The Nightingales of Lincoln's Inn" Oliver
- Miss Gwendolyn Fry
- Piano Solo: "Melody in D flat" Colin Taylor
- Miss Margaret MacEwen
- Songs: (a) "On Wings of Song" Mendelssohn
- (b) "The Lass With the Delicate Air" Arne
- Miss Alice Corrin
- Piano Solo: "Minuet" Beethoven
- Melody in E flat Mendelssohn
- Miss Mabel Parkman
- Vocal Solo: "Rushen" Alice Neetham
- Mary Ferguson
- Piano Solo: "Theme With Variations" Beethoven
- Miss Doris Simmonds
- GOD SAVE THE KING
- Heintzman & Co., piano supplied by Miller Bros.

THE FLORAL DECORATIONS

The floral decorations were very attractive and thanks are due to Miss Doris Tait who kindly decorated the platform.
