WILLARD LOSES THE CHAMPIONSHIP

THREW UP THE SPONGE IN THIRD ROUND HAVING BEEN KNOCKED DOWN FIVE TIMES IN FIRST ROUND

(Special To The Guardian.)
TOLEDO, O., July 4.—Many hundreds of thousands witnessed the Willard Dempsey fight today and the spectators received little for their money. The world's championship changed hands at the end of the third round when Willard threw up the sponge. He was outclassed from the first. During the first round Willard went to the mat five times, barely escaping the count. In the third round it was all over and the championship went to Jack Dempsey of Utah. For his defeat Willard receives \$100,000 which was guaranteed him by the fighting agreement, win or lose or draw. Dempsey was guaranteed \$27,000. Rickard, the promoter, controls the gate receipts which amounted to over a million dollars. The moving picture privileges are to be divided evenly between the three.

CONDENSED SPECIALS

FURNISHED HOUSE IN CHARLOTTETOWN to rent. See advertisement in this issue. 6771-7-4Mt.

TWO FURNISHED ROOMS WITH or without board. Apply Phone 680-L.

WANTED AT ONCE A CAPABLE girl for housework. No washing. Apply 146 Pownall Street. 6772-7-4Mt.

THE R 34 ARRIVES IN NFLD

REACHED NOTRE DAME BAY AT 6 FRIDAY MORNING COURSE CHANGED BY FOG

Was Expected to Arrive in New York Before Nightfall

(Special To The Guardian.)
ST. JOHN'S, Nfld., July 4.—The R-34 reached Notre Dame Bay at six a. m., it was announced and was to pass over St. John's at noon coming sufficiently near the ground to be seen by citizens and drop a mail bag for the Governor. Owing to weather conditions being more favorable further south, it was announced by the British Admiralty wireless station, the R-34 changed its earlier announced course. The airship, it is said, in earlier radio advice, had been obliged to take the northerly track because of the atmosphere depression here due to a heavy rainstorm and a thick fog. The fog it was believed would lift by noon. It is expected the great air vessel will reach New York before nightfall.

The people of St. John's prepared this morning to give the giant dirigible a big reception upon its arrival here. It was expected at 1.30 local time.

Carries \$2000 Freight.

NEW YORK, July 4.—The cargo of the R-35 includes 20 ounces platinum consigned to a New York metal importing concern, according to a cable from London received today by the firm announcing the shipment had been made. This consignment, the first "freight" carried across the Atlantic by air craft, is valued at \$2000.

\$27,000 for Harbor At North Lake

(Special To The Guardian.)
OTTAWA, July 3.—The supplementary estimates tabled in the House of Commons today contain an appropriation of \$27,000 for a boat harbor at North Lake Kings County, P. E. I.

Mauretania Arrives At Halifax

(Special to the Guardian.)
HALIFAX, N. S., July 4.—The Cunard liner Mauretania arrived last night with nearly 4000 returning troops of whom about 1000 were for Nova Scotia. Among the distinguished aboard was Brigadier General Bruntin of Montreal who was in command of the Machine Gun Company and was the originator of the Motor Machine Gun idea which was adopted by the Allies.

Baltic Also Arrives
HALIFAX, N. S., July 4.—The steamer Baltic entered harbor early this morning with troops.

Ex-Kaiser To Be Tried in London

(Special to the Guardian.)
LONDON, July 4.—The former German Emperor will soon be placed on trial. Premier Lloyd George made this announcement in the House of Commons today in his report on the peace negotiations. The Premier declared that the tribunal which would try the former Emperor would sit in London.

The German army, the Premier said, was at present inadequate to disturb the peace of the feeblest of the neighbors of Germany.

The terms of the treaty with Germany in some respects were terrible, the Premier said but terrible would have been the consequences if Germany had succeeded.

German officers who had committed appalling infamies, the Premier added, would also be placed on trial.

U. S. Army Being Reduced

(Special To The Guardian.)
WASHINGTON, July 4.—Orders for the demobilization of the army by September 30, to the peace time strength of approximately 233,308 officers and men, authorized by the National Defense Act, were issued by the War Department today.

Forty Students Executed at Budapest

VIENNA, July 4.—Forty students in the Military College at Budapest have been executed by order of the Hungarian Communist Government, according to advices received here.

Bela Kun has issued a proclamation declaring that since proper appreciation had not been shown "of the mid treatment of the past three months, blood shall flow henceforth if necessary to ensure the protection of the proletariat."

Bela Kun has issued a proclamation declaring that since proper appreciation had not been shown "of the mid treatment of the past three months, blood shall flow henceforth if necessary to ensure the protection of the proletariat."

FANNING FIRE OF GERMAN HATE

CALL TO PRUSSIAN REACTION SOUNDED BY FORMER CHANCELLOR HELFFERICH

DEMAND IS FOR REVENGE First to Be Directed Against Enemies of Kaiser in Fatherland.

BERLIN, July 3.—Former Chancellor Helfferich sounded a call to Prussian reaction in an address delivered at a mass meeting of students at the University of Berlin. He said: "In the Hall of Mirrors, Versailles, German men affixed their signatures. Over humbled Germany's dust President Wilson reaches his hand to the spirits of Louis XIV. and Edward VII. to consummate what neither, or both what France, England, Russia and Italy, with the whole swarm of their satellites were unable to accomplish.

"In the hour of decision the German nation was left in the lurch by its Government. Scheidemann, instead of fighting for his convictions, deserted his post in the face of the enemy, and during the unexampled headlessness and confusion prevailing in Weimar the man who, in this war, was Germany's worst fate—Erzberger, the Empire-wrecker—seized the helm, and under the black and red flag the shipsteered into a haven of shame.

"From this hour on it is our duty to think of the resurrection of the German nation. As in the years between Jena and Waterloo, the academic youth is destined for work of reconstruction." Helfferich analyzed what he characterized as "the catastrophe" as follows:

"First, the madness breeding relief in the nation that it could have peace any day if the pan-Germans, the militarists and a supine Government would give up its support to the supposed plans of conquest.

"Second, the Wilson cult, practiced in fatal fashion by various politicians and newspapers today. Wilson's true picture ought to stand before the eyes of the most stubborn illusionists.

"Third, a factor working destructively within the nation was the vilification practised against Germany's just cause and the honesty and uprightness of the Kaiser and his love of peace.

"Lastly, the throwing away of arms when everything was at stake." Helfferich appealed to the academic youth of Germany to fight with all spiritual weapons against all delusions which still are lurking in German heads and to work for a show-up and the elimination of the mean spirits and thereby caused Germany's misfortune.

The Junker demand for revenge aimed against the men who are charged with having betrayed Germany into the hands of her enemies, has been strengthened by the address delivered at Helfferich.

Directors of officials of companies who refuse to obey an order of the Board will be held personally liable. Furthermore, the Board will have authority to recommend the attorney general of any province in which an offence against the Combines and Fair Prices Act has been committed to prosecute the offenders. Another important provision of the Combines and Fair Prices Bill is that it will empower the Government, if it appears that a combine exists among manufacturers or dealers in any commodity, to permit the importation of that commodity free of Customs duty or at a reduced rate of duty. It will also authorize the Government to apply to the Exchequer Court of Canada for revocation of a patent, if it appears by their owner to limit production unduly or to restrain or injure trade.

In dealing with prices, the proposed Board of Commerce will not be called upon to fix prices of individual commodities. It will be empowered to enquire into it, to restrain and prohibit "the making or taking of unfair profits for or upon the holding or disposing of necessities of life, and all such practices with respect to the holding or disposition of necessities of life as, in the opinion of the Board, are designed or calculated to unfairly enhance the cost or price of such necessities of life." Whenever it appears from an investigation by the Board that the taking of unfair profits upon any necessary of life is facilitated by the Customs duties imposed thereon the Government will have authority to repeal or reduce such duties.

Ex-Kaiser is Taxed For First Time

AMERONGEN, July 3.—The former German Emperor, for the first time in his life, has paid taxes, the municipality of Amerongen having levied the ordinary taxation after examining and estimating William Hohenzollern's fortune.

For the first three months of this year, the sum levied amounts to 12,000 guilder (a guilder normally amounts to about forty cents).

This sum, however, was merely for local taxation. An income tax will be levied separately by the Government.

The former Emperor was relieved from payment for the first period of his sojourn, as that fell within the previous year. All foreigners who remain three months in the country, are liable for the payment of taxes, the same as natives of Holland.

Icebergs Outside St. John's Entrance

ST. JOHN'S Nfld., July 3.—Icebergs outside the harbor entrance here have interfered with the operations of trap fishermen to such an extent that Governor Harris requested the war ship Cumberland to fire a few shots at the bergs with the intention of breaking them. Some great bergs, moving down the coast much later in the season than usual, grounded off the mouth of the port.

The plan of shooting the barrier to pieces was resorted to as the only means of forcing the ice to continue its movement south. Some of the northern ports continue ice bound.

ST. JOHN'S Nfld., July 3.—Icebergs outside the harbor entrance here have interfered with the operations of trap fishermen to such an extent that Governor Harris requested the war ship Cumberland to fire a few shots at the bergs with the intention of breaking them. Some great bergs, moving down the coast much later in the season than usual, grounded off the mouth of the port.

The plan of shooting the barrier to pieces was resorted to as the only means of forcing the ice to continue its movement south. Some of the northern ports continue ice bound.

French Losses Over a Million

PARIS, July 4.—The total French losses in killed and missing on land and sea, as officially established up to the day of the armistice, November 11, 1918, amounted to 1,365,000.

The figures were given by the Chamber of Deputies today by Deputy Louis Marin in a report on the disposal of the effects of missing men.

The losses of the French Army 1,089,700 killed and 265,800 missing, or 16.2 per cent of the total mobilized force of 8,140,000. The losses of the Navy totalled 10,735, of which 5,521 were killed and 5,214 are missing. The losses in the navy were 4.19 per cent of the complement.

Reign of Profiteer Ended by Parliament

ACT PROVIDES PENALTY OF \$1,000 PER DAY FOR PERSON WHO FAILS TO DESIST FROM PRACTICES PROVED AGAINST HIM

OTTAWA, July 3.—By a vote of 86 to 45, the House of Commons endorsed the report of its special committee on the cost of living calling for the establishment of a tribunal vested with authority to investigate alleged combinations in restraint of trade, and also with regulative power to deal with discriminations in prices between different purchasers of commodities, exclusive purchase and sale arrangements, inter-corporate shareholding and interlocking directorates and unfair methods in commerce. G. B. Nicholson, of East Algoma, chairman of the committee, moved that the report be concurred in and supported his motion by arguing that the appointment of a tribunal of the kind proposed by the committee would do much to allay unrest arising from the high cost of living. Hon. Arthur Meighen, the Acting Minister of Justice, also supported the suggestion embodied in the report. He has already introduced in the House of Commons two bills dealing with the subject matter of the report. One calls for the appointment of a board of commerce and the other, to be known as the "Combines and Fair Prices Act," sets forth regulations to be enforced by the new board. Under these bills the Board of Commerce will be able, as already stated in The Mail and Empire, to restrain or prohibit the formation of operation of combines. It will have authority to order any person charged with being a party to the formation or operation of a combine, to appear before it. It will be able to order him to desist from any acts of practices proved against him. If he fails to do so he will be guilty of an indictable offence and liable to a fine not exceeding \$1,000 a day during the period of his disobedience or to imprisonment for not more than two years.

OTTAWA, July 3.—The big navy dirigible C-8, commanded by Lieut. N. J. Learned with a crew of six men and two passengers bound from Cape May, N. J., to Washington, exploded with terrific force just after landing in Camp Holabird, near this city at 12.30 today to adjust rubber trouble. The explosion shook the continent and the eastern section of the city like an earthquake shock. The great balloon instantly became a mass of flames.

Seventy-five persons, mostly women and children were burned or otherwise injured. None of the officers or crew of the C-8 were hurt though several of them sustained severe shock.

According to the commander the explosion is believed to have been due to rapid expansion caused by heat.

Garment Workers Call a Strike

MONTREAL, July 3.—The Garment Workers Union called a strike in Canada today. The operatives are demanding the same wages that are paid in the United States. Two thousand members responded to the strike order in Montreal.

Revolution in Lima, Peru

(Special To The Guardian.)
LIMA, Peru, July 4.—A revolution broke out here at three o'clock this morning. Presuik Pardo and the members of his cabinet were imprisoned. General A. A. Caceris, former President, was in charge of the revolutionary corps. Later in the morning he turned over control of affairs to Augusto B. Leguia, the president elect. The revolutionary movement was accomplished without bloodshed.

Germans Consider Treaty Today

ZURICH, July 4.—The German peace treaty recently signed at Versailles will come before the German National Assembly at Weimar for ratification tomorrow, according to the Zurich Nouvelle Gazette it is said the Assembly probably will approve the treaty unconditionally.

Eighty Thousand For Each Province

OTTAWA, July 4.—Eighty thousand dollars is the initial amount that will be paid to each of the provinces under the provisions of the Highways Act. Subsequent payments will be on the basis of population.

For technical education the sum of ten thousand dollars will be given to each province as an initial payment.

Big Group of Island Soldiers Got Home Last Night

225 Prince Edward Island soldiers who came out by the S. S. Mauretania and Baltic to Halifax arrived in Charlottetown at 10.35 last night in charge of Lieut. McDonald, M. C.

They were as fine looking a lot of men as any that have returned. 162 of them came by the Mauretania and 63 by the Baltic. They consist largely of 17th and 13th Reserve men and quite a number who went from here in 1915.

A large crowd of citizens were at the station to greet them including Colonel W. B. Prowse, Lt. Colonel Leigh, Captain Bagnall and Mayor Wright.

The League of the Cross furnished lively music from the depot to the Market Building where the Ladies Aid of the G. W. V. A. had a splendid "spread" of good things in waiting for the men.

At the Market House the men were welcomed in short addresses by Mayor Wright, Rev. (Major) Fullerton, Ex-Mayor Brown, Rev. (Capt.) Taylor, Rev. Mr. Raymond and Colonel Prowse, D. S. O.

Hearty cheers were given for the men before the reception broke up. The men were met at Borden by Bomb. Edgar W. McNis, Military Secretary of the Y. M. C. A.

Among those who returned were the following: J. R. White, Georgetown; L. Blacquire, Souris; E. T. Peters, New Glasgow; J. R. Champion, Summerside; G. L. Holland, East Baltic; J. A. McLaughlin, Mt. Stewart; W. J. Sutherland, Souris; E. Webber, Victoria, B. C.

(Continued on page six)

AIRSHIP EXPLOSION LIKE EARTHQUAKE

U. S. NAVY DIRIGIBLE EXPLODES AT CAMP HOLABIRD

SEVENTY-FIVE INJURED Believe Cause Was Rapid Expansion Due to Hot Weather.

OTTAWA, July 3.—The big navy dirigible C-8, commanded by Lieut. N. J. Learned with a crew of six men and two passengers bound from Cape May, N. J., to Washington, exploded with terrific force just after landing in Camp Holabird, near this city at 12.30 today to adjust rubber trouble. The explosion shook the continent and the eastern section of the city like an earthquake shock. The great balloon instantly became a mass of flames.

Seventy-five persons, mostly women and children were burned or otherwise injured. None of the officers or crew of the C-8 were hurt though several of them sustained severe shock.

According to the commander the explosion is believed to have been due to rapid expansion caused by heat.

THE CIRCUS AT BORDEN

BIG TENTED SHOW ATTRACTED IMMENSE THROUNG OF PEOPLE.

A DAY OF ENJOYMENT A Wonderful Menagerie—Also Beautiful and Clever Horses and Able Acrobats

It could be truly said that all roads led to Borden yesterday, and as was anticipated hundreds upon hundreds of men, women and children were there, coming by trains, teams, autos and not a few on foot, for everyone wanted to see the big John Robinson Circus, the talk of every household for weeks past.

Upwards of 6000 people attended the opening show and from beginning to end there wasn't a hitch. The management had everything so arranged that the throngs were quickly seated, everyone in a good humor. The main show lasting about three hours, was replete with fun and antics by the 20 or more clowns and the excellent work by aerialists, trained dogs, monkeys and horses.

It was almost too big a sight for one seeing, and beggars description, for from the open parade in the ring until the close there wasn't a moment that was not crowded with some stunt, and the residents of P. E. Island had a treat such as it has not seen in years, but with the promise of a yet bigger show by the same management next year, it not sooner.

There is lots of variety in the Robinson Circus—Acrobats, aerial gymnastics and riding wonders, while the elephants, hippopotami, lions, tigers, leopards, hyenas, monkeys, apes, kangaroos, reptiles and deer were a sight long to be wondered at. The monkeys were perhaps the most admired animals as the children lined up to watch their antics and could scarcely be persuaded to move on.

The hundreds of beautiful horses with their shining coats and gay decorations were a magnificent sight in themselves, while their clever performing was most enjoyable. Another big feature is Madam Bedini and her trained horses. Not only do they perform numerous stunts in the rings and in front, but they waltz and dance to ballroom music. It is a wonderful turn; while the two thrilling acts near the close of the show greatly pleased the crowds, Minnie Fisher came down a two hundred foot slanting wire, from the top of the tent to the ground, swinging from a mouthpiece held between her teeth, and Mad. Lorette did a similar stunt hanging by her hair. The work of the Aerial Hands was also thrilling.

In animal acts the Robinson show abounds. There are trained elephants who do wonderful stunts, while the dogs and monkeys are a marvel of sagacity.

So that the vast crowds could see equally well the rings were simultaneously arranged, each act being watched with breathless interest by the audience.

The clown end of the circus is a side-splitter, one of its features being Charlie Chaplin, and a wonderful Chaplin he is, keeping everyone alert wondering what his next clever feat will be.

To describe the stunts of the aerial wonders is impossible, as the onlooker holds his breath in awe as each performance safely finishes. There were not notes needed for the safety of the artists as they sped from wire to wire or lighted gracefully on the backs of the different horses in the ring.

In acrobatic stunts the Nelson Family are marvels,—the father, mother and seven children performing in an amazing manner, rolling, make pyramids, and do a dozen and one stunts in the graceful finished manner of artists at home in their work.

The Zouaves in fancy drills, etc., were exceedingly popular, their clever Japanese troupe simply brought the audience to their feet as the light wire artist after ascending more than half way to the main top completed his act with a thrilling toe slide. It was tremendous.

The Wild West Show put on immediately after the main performance was a treat to all lovers of horses, as the riders, some of whom were connected formerly with Buffalo Bill did marvellous feats of horsemanship never before seen in this Province.

Bucking bronchos were ridden by western lassies in gay attire who showed how completely they had mastered this art, but one donkey absolutely refused to be ridden notwithstanding the fact that any one who could mount him would be well rewarded.

Billy Exton the popular press representative was untiring in his efforts to have everyone see the show and personally conducted the newspaper people around extending to them even the hospitality of the commissariat department and explaining also the perfect system and harmony maintained in each department. The evening performance was equally well attended and with an entire change of programme no one was tired. The show was transported by the Car Ferry last night to the mainland and Borden today takes up its usual routine.

In summing up this great Robinson Circus it is safe to say it is one of the cleanest, best managed shows on the road. There were, of course, the usual side shows to catch the pennies, ice-cream, popcorn and other circus attractions, but everything was wholesomely clean, with courteous treatment, and it is safe to say no one regretted the day spent at

TYPHUS PLAGUE SWEEPS BOSNIA

MOHAMMEDAN WOMEN REFUSE TO BE TREATED—NO SOAP TO BE HAD

BELGRADE, July 4.—Fifteen per cent of the population in Bosnia is absolutely destitute. Typhus is on the increase both in Bosnia and Herzegovina. Although only 800 cases of typhus are officially reported, the American medical authorities believe that there are more than 3,000. Great difficulty is experienced by the authorities in inspecting Mohammedan homes, where three quarters of the cases are believed to be concealed.

Mohammedan women refuse to be treated by male doctors, no matter how serious their illness. Many of the Christian natives think it unmanly to have the attention of a doctor or nurse.

"We are not afraid to die," the hardy mountaineers assert when medical aid is offered them. "Why all this fuss? Disease is a curse from God, but if He sees fit to send it to us we must die like men."

A veritable plague of lice overruns the country. They are to be found everywhere, carrying with them the germs of typhus. One of the greatest needs of the natives is soap, of which there is none to be had. Typhus is following the lines of communication, especially the railways.

American Red Cross personnel, members of the Hoover Food Mission and American naval officers avoid the railways as the cars are infested with typhus lice.

The American Red Cross is making preparations to aid 22 civilian hospitals in Bosnia and Herzegovina and six military hospitals which have been converted into civilian hospitals. Four small hospitals where typhus cases are being treated by American Red Cross doctors and nurses have been established and aid also is on the way to five military hospitals in Dalmatia at Cattaro, Spalato, Sinj, Milina and Ragusa. Members of the Hoover Food Mission at Ragusa and of the American navy at Zelanika have been aiding the American Red Cross restore Bosnia and Herzegovina.

1,250 Women Conductors in London

(Special To The Guardian.)
LONDON, July 4.—There are still 1,250 women conductors on the L. C. C. trams and about 500 have resigned voluntarily since the armistice. All the women will go when the men return.

\$610 to Widow Of Riot Victim

LONDON, July 4.—Col. Guest has handed to chairman of the Epsom Council \$610 collected by the staff and patients of the Woodcote Park Camp at Epsom for the widow of Police Sergeant Green, killed in the recent rioting of Canadian soldiers.

Cornwall Assists St. John's Police

ST. JOHN'S, NFLD., July 3.—The British warship Cornwall was authorized by the Newfoundland government to proceed to Flat Island, Bonavista Bay, to assist police in rounding up the ring-leaders of a mob which had been defying the authorities. The offenders were captured and brought here for trial.

The trouble started when two constables sent to Flat Island to arrest moonshiners last week, were driven off by a mob. Later a boat carrying ten policemen from St. John's sent to arrest the leaders of the mob, was by a hundred armed men who threatened violence if the officers landed.

Saskatoon Labor Temple Raided

SASKATOON, Sask., July 3.—The local Labor Temple was raided by the R. N. W. M. P. on Monday afternoon. No arrests were made, but a large number of documents were received.

Borden attending the circus.

Notwithstanding the vast crowds, everything was done by the residents of Borden to help the visitors enjoy the show, the hungry were fed, autos safely parked and places provided for teams. It was a big day in which petty troubles were laid to rest into the rings.

THE WEATHER, TIDE, MOON, ETC.

The tide will be high this afternoon at 4.17 tomorrow at 5.23, and Monday at 6.34; it will be high tomorrow morning at 1.36, Monday at 5.18 and Tuesday at 6.04.

Sun sets this evening, tomorrow and Monday at 8.02; it rises tomorrow and Tuesday at 4.43.

First quarter moon Friday, July 4, at 10.17 a.m.

Full moon Sunday, July 12, at 1.04
