### CUT THIS OUT

#### OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which are equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions. Secure from your druggist 1 ounce of Perment (Oxide of zinc), 1 pint of hot water and a little granulated sugar, stir until dissolved. Take one tablespoonful four times a day, this will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Perment used in this way acts directly upon the blood and mucus surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

### OLD FRENCH-CANADIAN CHANSONS COLLECTED

Quaint and Attractive Volume Revives Melodies of Colonial Times  
From picturesque Chateau Frontenac, Quebec, has come a book with the title "Chançons of Old French Canada," to intrigue those who delight in resuscitation of music left forgotten in the byways of other centuries. It is a quaint and attractively printed volume, of paper covers. The title page explains that accompaniments are by Margaret Gascoigne, script by James Kennedy, and illustrations—with dashes of red supplementing black and white—by Ethel Seath. There is a preface by C. Marius Barbeau, who rejoices that "in the desert of American uniformity the ancient rural districts of Quebec form a quaint oasis where industrialism and cupidity have not yet withered all local colour, and individual bias or charm. Leisure and gaiety have not altogether vanished. Singing and story-telling in the old style still are casually indulged in."

An interesting introduction it is, and increases the interest with which the reader will turn to the songs of love, of story, of labor, and of course, the canoeing songs for which the early French Canadians were so famous, which follow. Here are the titles of the airs, all harmonized with the utmost simplicity: "En Roulant ma Bonnet," "A la Claire Foraine," "Sur le Pont d'Avignon," "Marian's s'en va-t-au Moulin," "La Fille du Roi d'Espagne," "Hier, sur le Pont d'Avignon," "Sur le Pont de Nantes," "D'ou Viens-tu Bergere,"
