

The Central Guardian

JUST ARRIVED five cars super phosphate to arrive in few days. Auld Bros. Ltd. 4997-5-15wedrisat.

JUST RECEIVED car corn meal, cracked corn and feed wheat—Just arrived. Auld Bros. Ltd. 4997-5-15wfs.

"COSMOPOLITAN" for June just received at News and Variety Store, 70 Great George Street. 5016M21

THE PIKER IN ADVERTISING, like the famous tortoise, may arrive, but he is found most frequently in the soup.

STRAWBERRY PLANTS.—Senator Dunlop Strawberry plants for sale, 50c hundred, four dollars thousand. J. W. Brown, Tyne Valley, P. E. I. 50245-16M21pd

MEMORIAL SERVICE.—A service in memory of the late Miss Susan Jones will be held in the Hazelbrook United Baptist Church, on Sunday evening, May 19th, at 7 o'clock. The general public as well as friends and relatives of deceased will be welcome.

THE S.S. SABLE will arrive in Charlottetown on Thursday, and will leave for St. John and Newfoundland on Saturday. For particulars apply to Carvell Bros. 5007-5-15M41

PASSPORT REGULATIONS.—Quite a number of inquiries are being made of U. S. Consul Pierce as to passports to the United States. Consul Pierce states that there are no new passport regulations yet in the United States restricting persons entering the country. Such a law is in project, having passed in the House of Congress. The requirements are the same as for years. Complete identification by letter or otherwise, good health and a reasonable amount of funds. If more stringent regulations are passed due notice will appear in this paper.

NEW RUDDER FOR STANLEY.—The D. G. S. Stanley, Captain Walter Row, left North Sydney Wednesday night in tow for Picton, where she will go on the marine railway to receive a new rudder, the old one having been damaged beyond repair by the ice while returning from her trip to the Magdalen Islands.

THE DUST.—The need of the sprinkling apparatus in some of the streets of the city was very much in evidence on Wednesday afternoon. Quite a strong breeze was blowing and the east was moving in myriads of whirlwind. On Kent Street particular was this apparent. Surely there is some way to have all parts of the city attended to.

VICTORIA PERSONALS.—Mr. Geddie McLeod, Bonshaw, was a visitor to Victoria on Sunday.—Mr. Lorne Shea, Victoria, arrived home on Friday from Mt. Allison University.—Mrs. Webster Boulter and Miss Addie Lowatt were visitors to Victoria on Saturday. Mr. P. A. Wotton made a trip by auto to Summerside on Saturday.—Mr. Allan Wadman spent Sunday with friends in Victoria.—Rev. Wm. D'Arbo and son Ernest were recent visitors to Springfield.—Mr. Allan Stewart and sister Miss Stewart, Strathgartney, were guests at the Rectory on Sunday.—Mr. and Mrs. Chas. Rogers, Victoria, were in Tryon Monday attending the funeral of the late Mrs. John McNeil. All are pleased to have "Blake" Captain McLean in port at Victoria again.

IMPORTED WHEAT.—A. Horne & Co. still have on hand a limited quantity of imported Red Fife and Marquis Wheat—White Banner Oats, Six Rod and Barley, Silverhill Buckwheat, Vetches, Corn, Timothy and Clover Seed all of which they are selling at lowest prices, wholesale and retail. Order now as stock will not last long. 5029-5-16M21E11

SECOND SON KILLED IN ACTION.—Mr. Ewen Campbell of Albany has received official notice that his son, Private Ross Campbell was killed in action on May 7th. The deceased enlisted with the 105th P. E. Island Battalion and crossed to France with one of the drafts. He was a fine specimen of young manhood, not yet nineteen years of age and his death is a sore blow to his relatives and friends. This is the second son of Mr. Ewen Campbell to be killed in action, the first, Douglas, having made the supreme sacrifice on August 1st. Another son, Frederick, was killed in a railway accident a little over a year ago. These successive bereavements in this time of general sorrow constitute a burden such as few are called to bear and the heartfelt sympathy of all goes out to the sorely stricken relatives. Mrs. Arthur Burns of this city is a sister of the deceased.

THE SABLE COMING.—Wednesday's Halifax Herald says:—The steamer Sable, Captain George A. Murley, arrived yesterday direct from St. John's Nfld., making a smart round trip. It is just a week ago today since the Sable left Halifax with a full general cargo for the Newfoundland port. After discharging her freight at Port Arthur's wharf she went up to Pier 3 to take a part load of general merchandise for St. John's, reserving space for freight from Charlottetown where she is going direct from here. The Sable, which also brought twelve passengers on this trip, will return to Halifax from St. John's, Captain Murley reports seeing no ice, although he came north of Sable Island.

"A THRILLER"
The great motion picture that will make you gasp and wonder how one could realize so many hair-raising climaxes, will be presented here at the Prince Edward commencing Wednesday and Thursday. "The Whip" is admitted to be the most elaborate of all melodramas, and throughout the entire picture there is realism described as most sensational and thrilling. In order to produce one of the greatest of the scenes one entire fast train was purchased, together with the right of the railroad line, which a little later was a mighty wreck lit up by flames and a pall of steam from the boiler of the overturned locomotive. The purpose of the wreck was to get the real action for the plot of this huge mammoth picture. 5051.

THE WINGS OF THE AEROPLANE.—War conditions have afforded an excellent opportunity for farmers in certain sections of Canada to engage extensively in the production of fibre flax. They will thereby not only add to their sources of income, but will also be of direct and vital aid in the war efforts of the Allies. The mastery of the air is proving a great, perhaps the determining factor, in the struggle now going on. Aeroplanes are being built in vast numbers as rapidly as possible. As a covering for the wings of these, linen is the only material found satisfactory. Large quantities are also needed for machine gun webbing, ambulance and truck covers, thread for sewing uniform, and a number of other uses. Were the supply of fibre flax for these purposes to fall short, as threatened, it would directly and profoundly affect the success of the Allied forces. Before the war, flax was imported into the United Kingdom mainly from Belgium, France, Germany, the Netherlands and Russia. The former supply is, of course, now cut off, while in 1916 France produced no flax for export, Belgium a mere fraction of its former quantity. Owing to conditions in Russia no exports of fibre flax can be depended on this year; Ireland, the great flax-producing country in the United Kingdom itself, cannot with the best seasons and with the largest possible acreage under flax, commence to meet the demand for fibre. The foregoing information is contained in a circular on flax growing issued by the Federal Department of Agriculture and that can be had free by addressing the Publications Branch of that Department, Ottawa.

Mimard's Liniment Co. Limited.
Dear Sirs.—Your MINARD'S LINIMENT is our remedy for sore throat, colds and all ordinary ailments. It never fails to relieve and cures promptly.
CHAS. WHOOTEN

What They Carry in the Battle Line

There are two things the soldiers always carry with them: Photograph of the "home folks" and letters from the "home folks." The pictures, often with a small Testament, are always in the breast pocket over the heart. I think they sometimes are put there as kind of a charm to ward

off bullets. Anyway, that's where they always are and the look in the man's face when he shows you the picture of his mother, his wife, his children, and you say as you always do—that they are very beautiful, will bring tears to your own eyes. Surely you would not deprive the boys overseas of such a treasure as your photograph. Do not delay, but have one taken now at the

BAYER PHOTO STUDIO.

Automobile Bargains

1 1917 5 passenger, six cylinder Chalmers used for demonstrating purposes, has run 2350 miles.
1 1917 Grey Dort Clover Leaf, three passenger roadster, run 1250 miles—
Both these cars are just as good as new except for the mileage off the tires. They are fully equipped, electric light, electric horn, self starter, etc.
The price of the same cars today is—Chalmers 1915 F. O. B., Walkerville, Ont. Grey Dort \$995 00 F. O. B., Chatham, Ont. Price named on application.
Also two new 1918 model Buicks, the car with the "Half Million Dollar Motor." I imported these cars late last fall when the price was \$935.00—Today the price is \$1095.00, F. O. B., Brockville. I will sell these two for the old price. They are big bargains.

RIGHT SUITS—\$11.00 to 30.00

War Garden Bulletin

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN

Issued by the Canada Food Board in collaboration with experts on the staff of the Dominion Experimental Farm.

POTATO PREPARATIONS.
As much is expected of the potato crop this year it is better not to put off any longer getting ready for a bumper yield of potatoes. Tubers seem to thrive best in a moist, cloudy and temperate climate but providing there is sufficient moisture in the soil and the growing season is long enough, they are not at all fastidious in this respect. The ideal soil for potatoes is a rich, deep, friable, warm sandy loam with good natural drainage and well supplied with decayed or decaying vegetable matter. The potato requires a great deal of moisture and will not flourish in cold soil where the water is stagnant near the surface, so that thorough drainage is very essential to success.
As a rule seed potato should be

kept where they will not sprout too soon, for if they do, the sprouts are liable to be broken off at the time of planting. They may sprout again but that takes time and reduces their vitality. It pays, however, to sprout a few in the full light by spreading them out on the floor of the attic. If these are then planted out with care they will produce potatoes several weeks earlier and will generally give a larger yield than those planted later.
