

She had the most captivating figure . . .

But her skin, tragic! By Julia Foster

Actual size in this test tube is shown the exact amount of olive oil that goes into each cake of Palmolive.

How could she so neglect her complexion? For a few words of expert advice would have meant all the world to her.

YOU can learn in two seconds the daily care of the skin advised by the world's foremost beauty specialists.

Simply twice a day, morning and evening, apply a generous lather of Palmolive Soap and warm water to face and throat.

Work well into the pores. This is best done with the hands. Then rinse away with warm water.

Finish with a cold rinse. Hot water should never touch your skin. If your face is dry, apply oil or tissue cream after the night treatment.

HIGH TEA and bazaar at St. James Hall today. 1798-11

FAREWELL skate at Forum tonight. 1795-11

A BIG HAUL-The proprietor of the local barber shop, which was entered last Monday night, and from which a small sum of money was taken, would be pleased if the party dropped in at any time and got the two nickels which were dropped on the floor when making their get-away. Ten cents should look big to this party in these hard times.

Friends of Mr. Ernest Robln will regret to learn that he is confined to his home suffering from a sprained ankle.

Mrs. Austin Murphy returned to Alberton, Tuesday, after spending the Easter holidays with her two daughters, Mrs. Gerald Doucette and Mrs. John Tierney.

HUNTER RIVER AND VICINITY

A very successful dance was given by the Wheatley River Hockey Players in an unoccupied house in Wheatley River recently. Over seventy people attended the dance. There was no admission fee, each lady bringing a cake or some other form of refreshment. Card games were played by those who did not care for dancing. Mr. Robert Stevenson furnished the violin music for the evening in his usual entertaining manner. A midnight luncheon was served and the dancing continued until two o'clock when all departed homeward feeling they had spent a most enjoyable evening, which marked the end of the Hockey Season.

The regular Sunday service was held in Wheatley River United Church Easter Sunday, attended by quite a large crowd. Rev. Mr. Boothroy spoke his Easter message from the text "He is not here, He is risen." The speaker gave all the evidence pertaining to the Resurrection in the Bible, which are indisputable facts that Christ did rise again on the third day. But the most convincing proof the speaker said, was the Church Triumphant of today. The millions of believers in the Christian faith were never won over through believing in a Resurrection which was false or founded on a lie. The Church itself was the most convincing argument in support of the "risen Lord."

Mr. Donald Matheson, North River, was a recent visitor to Wheatley River.

Turnip buyers at Hunter River are paying sixteen cents for turnips by the load. Farmers shipping a carload receive twenty cents a bushel. However, the increase in price is offset by the almost impossible roads in hauling them.

Police Administration The Government, Hon. Mr. Stewart stated in reply to questions, was now considering the proposal to have the Royal Mounted Police take over the Provincial police service.

HOUSE IN COMMITTEE ON SUPPLY

Fish & Game Protection Amendments And Fertilizer Mortgage Bill Also Discussed In Committee.

Provincial Legislature, March 30, The House met at 10.45 a. m. Hon. Mr. Stewart tabled the answer to a question on the order paper.

Mr. T. A. Campbell asked verbally how the amount of \$1,643.91, referred to by the hon. member for Cardigan (Hon. Mr. MacPhee) in the Budget debate as having been saved on insurance premiums, was made up.

Hon. Mr. MacPhee said the figure was based on information received from the fire underwriters. The rate obtained by the Government averaged 70 cents per \$100 as against the former average rate of 97 cents.

Mr. Lea: "Would that include the additional insurance that the Government has taken on?"

Hon. Mr. MacPhee: "It represents the saving on the whole insurance on Government property as a result of the reductions in rates."

Mr. T. A. Campbell: "Does it include the saving effected by not having to pay premiums on Falconwood and Prince of Wales College?"

Hon. Mr. MacPhee: "No. It represents the saving on existing insurance."

The debate on the Budget was proceeded with, the speakers being Messrs. Wigmore, Dennis, W. A. Stewart, Cox, and J. A. MacDonald.

HOUSE IN SUPPLY

At 5 p. m. on motion of Hon. Mr. Stewart, the House went into committee, with Mr. Strong in the chair, on the bill to provide for estimated expenditure of the Government of the Province for the year 1932.

The total expenditure asked for is \$1,207,465, plus a sum sufficient for the reconstruction of Falconwood Hospital and Prince of Wales College.

Items in connection with the administration of Justice \$68,050, were discussed.

Mr. Lea thought the amounts for jailor and assistant jailor (\$780 and \$500 respectively) for Queens County Jail should be reduced in view of the smaller salary paid the Prince County jailor.

Mr. T. A. Campbell argued that the jailor of Prince County Jail had also to do the work of janitor of the Court House.

Hon. Dr. MacMillan explained that if any discrepancy existed it was due to the late Liberal Government which had made the salary increases.

Mr. Campbell suggested that some "mediating adjustment" could be made. Hon. Mr. Stewart replied that this adjustment could be made without delaying the estimates.

Objection was taken by Mr. LePage to the dismissal of a former clerk of the County Court, and by Mr. McIntyre to the dismissal of the former janitor of the Court House in Queens County.

Mr. T. A. Campbell suggested that the congestion in the Provincial Building could be relieved by moving the Registry office to the Court House.

Hon. Mr. Stewart said this matter was under consideration. If the Registry office were moved to the Court House it would necessitate the building of some kind of an annex to the Court House.

Mr. Lea thought if office room could be obtained elsewhere at a reasonable cost it might be well to take the opportunity. There was no question that the offices in the Provincial Government were greatly overcrowded.

Hon. Mr. Stewart said these matters were being taken into serious consideration.

The item of juvenile delinquents (\$3,000) would probably all have to be expended, the Premier stated. The expenditures on Coronor's inquests would probably exceed the estimates (\$750) if the first months of the year are any indication.

Police Administration

The Government, Hon. Mr. Stewart stated in reply to questions, was now considering the proposal to have the Royal Mounted Police take over the Provincial police service.

Mr. T. A. Campbell thought the administration of all laws, federal and provincial, should be under one control. He regretted that this Government had made a division between the Provincial Police and Prohibition Officers.

Mr. Lea supported this viewpoint. He criticised the Government for "hiring and firing" employees for political purposes, including police and prohibition officers.

At 6 p. m. progress was reported and the House took recess.

After Recess.

The House resumed at 8.50 p. m. On motion of Hon. Dr. MacMillan the Act to amend the City of Charlottetown Incorporation Act was referred back to committee. The House accordingly went into committee, with Mr. Strong in the chair.

The promoter said the Mayor had requested that the following clause be added to the bill: "The Mayor of the City of Charlottetown may sign his name with a fac simile stamp of the signature to all cheques, orders, bonds or debentures of the city requiring his signature."

The bill, as amended, was agreed to without discussion.

FISH AND GAME PROTECTION

On motion of Hon. Mr. Sharp the House went into committee, with Mr. W. A. Stewart in the chair, on an Act to Amend the Prince Edward Island Fish and Game Protection Act, 1928.

The promoter explained that the bill had been drawn up by the president of the Fish and Game Association.

Sec. 1 extends the date for the close season of the Hungarian Partridge by three years, to the 15th of October, 1935.

Mr. Dennis asked if it was easy to distinguish between the Hungarian and the native partridge.

Mr. Lea said there was no difficulty in distinguishing them.

Mr. Allen thought a description of the Hungarian Partridge should be published in the press.

Mr. Cox said there was no comparison with the native partridge. The two varieties differed as much as a crow and an owl.

Mr. Lea: "Or a humming bird."

Mr. Dennis suggested that the matter should be advertised in the press.

Mr. Lea thought Mr. Dennis could not have been reading the papers very carefully. He, Mr. Lea, had made it a point to give detailed information on the subject to the press about a year ago.

Sec. 2 provides that the Minister of Agriculture may pay a bounty to any inhabitant of the Province who proves to him that he has killed one or more skunks within the province. The amount of the bounty for each skunk destroyed shall be fixed by the Lieutenant Governor in Council.

Skunks Plentiful

Mr. Dennis said he had heard some places were over-run with skunks. "If we were to get rid of the nuisance, the bounty should be made high at the start. If you don't you will be paying for skunks for the next forty years."

Mr. Lea said the situation was serious in the western part of the Province. He believed there were countless thousands of them. They breed rapidly and they can hardly be kept away from premises in that section. Another pest, brought here from Scotland is something in the nature of a large wasp and threatens to be a great menace to poultry. The skunks also destroy poultry as well as black duck. He thought an embargo should be put on these animals.

Hon. Mr. Sharp said a breeder in the Fourth District had started a skunk ranch. It was not successful and he released the animals. The pests have spread over Prince County and they are working east. There are now thousands of them in Prince County and have become a serious menace. An embargo would be beyond provincial control but representations might be made to Ottawa for the placing of a federal embargo on pests of this kind.

Mr. Lea: "I believe it would be a good idea." The section carried.

Sec. 3 changes the non resident game license fee from \$5 to \$20. It carried after discussion.

Sec. 5 extends the penalty for the killing of game out of season to having possession of such game. After discussion, the section was allowed to stand over.

Sec. 6 increases the penalty for illegal shooting to from \$20 to \$100. The existing penalty is from \$100 to \$200. Mr. LePage protested that a \$20 limit should be sufficient. Mr. Lea was in favor of the increased fine for such offense.

Ross-Drug-United The Rexall Store Special Prices for Thursday, Friday & Saturday 75c Coty's Face Powder and 2 drams Coty's Perfume of the same odor. Special 98c

The clause carried. Sec. 7 increases the penalty to from \$25 to \$50 for sale of game killed out of season. The existing penalty is from \$1 to \$25. The section carried.

Sec. 11 increases the license fee for non resident anglers from \$2.00 to \$5.00. It was carried.

After discussion progress was reported.

FERTILIZER MORTGAGE BILL

On motion of Mr. Hunter the House resumed committee reading with Mr. Strong in the chair, of an Act to amend an Act respecting seed or fertilizer mortgage upon potato crops.

Clause 1 of the existing statute, passed in 1930, provides that "no mortgage, bill of sale, lien, charge, incumbrance, conveyance, transfer or assignment made, executed or created and which is intended to operate and have effect as a security shall, in so far as the same assumes to bind, comprise, apply to or affect any growing crop of potatoes, or crop of potatoes to be grown in future, in whole or in part, be valid except the same be made, executed or created as a security for the purchase price and interest thereon of seed potatoes or fertilizer."

The amending bill purposes to add to the above section the words: "or as a security for the performance of an agreement to sell, deliver or barter potatoes in consideration of the sale, delivery or barter of seed potatoes or fertilizer."

To this clause Mr. Thane A. Campbell moved on Thursday last the following amendment: "Provided that any such security may be redeemed by the delivery to the mortgagee within (blank) months from the giving thereof of a sufficient quantity of potatoes at the current market price after deducting a commission for the mortgagee not exceeding (blank) per cent of the said price."

(The mover subsequently filled in the blanks with the words, "ten" months and "twenty" per cent.)

Mr. Dennis wished to know, if a farmer contracted to deliver potatoes and his crop was a failure whether he would have to go out and buy potatoes to take care of the mortgage.

The Chairman: "I suppose that will be taken care of in the agreement."

Mr. Dennis said that did not satisfy the committee. Last year the dealers lost money by contracting at a higher price than the market justified. To make up that loss they may be planning to get hold of the potato crop this year by doing away with the clause giving the farmer the option of paying in cash.

Mr. Allen thought there should be some provision to safeguard a farmer with a crop failure from being forced to buy potatoes to redeem his mortgage.

Mr. LePage thought there should be more information as to who the promoters are and what they want. He had heard that a number of dealers were proposing to form an association to handle potatoes. They were planning on taking 25 per cent of the net proceeds for their commission. He had got this information from one of the promoters and the proposal, he thought, was rather drastic.

Dealers' Organization Mr. MacLean said the original Act was introduced by the Potato Growers Association. The amending bill was introduced last year by one of the companies doing business here. Since the bill went into committee he understood that this company had definitely refused

to supply fertilizer this year except for cash. Within the last few days a number of dealers, mostly merchants, have formed themselves into a company because they cannot get fertilizer in any other way.

Mr. Dennis thought these remarks were very significant. They meant that when the farmer comes to ask for his fertilizer he will meet one buyer only for his potatoes, and there will be no competitive offers. Mr. Dennis wished to know if the present law did not enable a dealer to take a mortgage of the whole potato crop in payment of his bill.

The promoter said "No."

Mr. Dennis maintained that this was so. If the dealer does not accept the farmer's whole potato crop in payment of his bill what does he want? "Does he want his wife and family too?" he asked.

Mr. Lea suggested if certified seed were eliminated from the contract it might be more acceptable.

Hon. Mr. MacLean doubted if this would prove satisfactory to the dealers. He was supported in this opinion by Hon. Mr. Wood, who thought such a proposal would be unfair.

Mr. J. A. Campbell said there seemed to be an opinion that the farmer was not possessed of sufficient common sense to transact his own business. He supported the bill because he believed it would benefit the class of farmers who would otherwise not be able to obtain fertilizer this year.

Speaking on the amendment of Mr. Campbell, Hon. Mr. MacLean said the suggested time limit of "ten months" would not be satisfactory to the dealers. There was no objection to the provision that the potatoes be delivered at the current market price.

Mr. Lea said he feared there had been so much lobbying going on that many farmer members hesitated to express their real opinion of the bill. The dealers were practically handling the potatoes at a commission of 20 or 25 cents, and the danger was that they might cut prices on our own growers in the Southern market.

Hon. Mr. MacLean pointed out the risk the dealers were running owing to the great expense of fertilizer shipments.

There was further discussion by Mr. Allen, Hon. Mr. MacLean, Mr. Campbell. The latter said he did not think the bill was objectionable even as it stands, although he would prefer to see some general safeguarding amendment.

Mr. Campbell's amendment was defeated and the original clause carried.

The bill, with minor amendment was agreed to.

At 10.50 p. m. the House adjourned to meet at 10 a. m. this morning.

Dick was told to share his stick of rock with his little sister so he held it up in front of the mirror. "You can have a rock that's in the glass," he said.

To Balance The U. S. Budget

(Canadian Press) WASHINGTON, D. C., Mar. 30.-All warring factions of the United States House of Representatives laid down their arms today at the behest of speaker John Garner and began a united effort to pass a revenue bill that is expected to maintain the financial stability of the government.

Relinquishing his gavel to assume active leadership of a legislative chamber floundering in the debris of a tax bill it had wrecked, the white-haired Texas Democrat brought antagonistic groups together for a single purpose-to balance the budget.

Responding to his dramatic speech that thrice brought the members to their feet, leaders of the anti-sales tax bloc joined Representative Snell of New York, the Republican Chief-tain, in pledging their support toward enacting a billion dollar tax measure.

With his appeal ringing in their ears and the assurances of Representative Snell of republican cooperation and the pledge of support from the anti-sales tax leaders the House in quick succession adopted committee amendments calling for excise levies estimated to yield \$169,500,000. These are included in new supplemental recommendations expected to return \$523,000,000. The remainder, including an increase in first-class postage from two to three cents with a probable return of \$136,000,000 are to be acted upon tomorrow.

The ways and means committee estimated the total yield of the present bill and new proposals at \$980,500,000. The Democrats expect to cut appropriations by \$234,000,000, and through administrative changes in the postal department raise \$30,000,000 additional revenue, bringing the total to \$1,233,500,000 to meet a prospective \$1,240,000,000 treasury deficit in 1933.

The levies voted today and their estimated yield are: Cosmetics, (10 per cent), \$25,000,000; furs (10 per cent), \$20,000,000; jewelry, (10 per cent), \$15,000,000; sporting goods and cameras, (10 per cent), \$4,000,000; matches, (4 cents per 1,000), \$11,000,000; chewing gum, (5 per cent), \$3,000,000; radios, phonographs, (5 per cent), \$11,000,000; automobiles, 3 trucks and accessories 1 per cent, \$57,000,000; yachts, motor boats, (10 per cent), \$500,000; changes in administrative sections of the corporate income tax \$11,000,000; candy, (5 per cent), \$12,000,000.
