

# 55 Years of Service TO POLICYHOLDERS

**THE SOUND PROGRESS of the Company** as indicated by the all time high records above reported in New Business, Business in Force, Assets and Total Income, combined with other favorable factors, mark 1935 as an outstanding year of achievement.

**THE GREAT STRENGTH of the Company** is indicated by the fact that the Surplus Funds, together with the Investment Reserve and the excess of market over book values, exceed six million dollars.

The Company is owned solely by its 70,000 members to whom all benefits go.

### France Secures British Loan

**PARIS, Feb. 5**—A British loan to enable France, her treasury virtually empty, to finance the government until a revival of confidence makes a home loan possible will be announced soon, it was reported reliably today.

The loan of 3,000,000,000 francs (about \$201,000,000) was discussed by Foreign Minister Pierre-Etienne Flandin while in London recently.

Continuing budget deficits and decreasing tax payments have made

the treasury almost bare and resulted in a pressing need for money. France followed a similar procedure in May, 1933, when she borrowed \$30,000,000 (about \$150,000,000) in London.

Marcel Regnier, Minister of Finance, is expected to get a loan with about three per cent interest in London, while here he would have to pay from five to six per cent. He declined to discuss the matter before the finance committee of the Chamber of Deputies but said he would "do nothing except legally."

#### FULLER CROWNS

Hat brims are turned up from the sides of the head to display the hair, and crowns are fuller.

## Moisture Absorption In Seasoned Lumber

OTTAWA, Feb. 6.—The seasoning of lumber, particularly where it is shipment and installation, otherwise unsatisfactory results may ensue, which can in no way be charged to the original seasoning.

The Forest Products Laboratories of Canada, Forest Service, Department of the Interior, for a number of years have carried on studies on the rate of absorption of moisture in lumber under varying conditions as a result of which it has been determined that proper handling and storage will ensure the lumber reaching the consumer in a satisfactory condition.

When lumber is intended for shipment to outside points, either by rail or by boat, the problem is further complicated by the necessary assembly and loading conditions often occurring during unfavorable weather, and also by the period of time ensuing between loading and ultimate consumption.

The studies above referred to cover many shipments of lumber, both by rail and boat. They have shown that lumber loaded in box cars at a moisture content of 10 per cent, lower, will reach its rail destination at not over 12 per cent moisture, while boat shipments show quite low absorption.

## TRANSATLANTIC AIR SERVICE BY NEXT YEAR SEEN

(A. P. by Guardian's Special Wire) WASHINGTON, Feb. 5.—Regular transatlantic airmail service by April or May of next year is considered likely by United States postal officials.

Hartley Branch, second assistant postmaster general, said in testimony to a House of Representatives committee—made public today—that "the best information we have is that the usual preliminary and experimental flights will be made next summer and a scheduled service will most likely be available in the spring of the following year."

Undoubtedly, the first route would be from the United States to Great Britain, probably through Ireland to London.

He indicated Pan-American Airways was the only company which had displayed interest in contracting for the service.

Branch explained no funds for the project were asked in the regular postoffice supply bill placed before the House today, but that the department was considering a specific request later this session.

He expressed belief the existing air line to China would be carrying passengers by early spring this year and reported a branch route from Honolulu to Australia and New Zealand was under consideration.

## Halifax Port Arrivals

Daily vessel report for 24 hours, ending 12 o'clock noon, Tues. Feb. 4th, 1935.

**ARRIVALS**—Silverwain from Far East, Andania from Harve, Armstrong from Local Harbour, Baxter Dick from Local Harbour, Erg from Local Harbour, F. Dupree from Local Harbour.

**SAILINGS**—Andania to New York, Cubaia to Glasgow, P. T. Coumatoros to New York, Armstrong to Local Harbour, Baxter Dick to Local Harbour, Erg to Local Harbour, F. Dupree to Local Harbour.

**VESSELS IN BERTH**—Lady Somers loading, Erg berth, Barge No. 2 berth, P. T. Coumatoros loading, Sularia loading, Andania discharging, Silverwain discharging, F. Dupree berth, Baxter Dick berth, Armstrong bunkering.

**VESSELS DUE TO ARRIVE**—Feb. 4: Silverwain from S. America, Chedabucto from E. C. Ports, Fortia from Nfld. Ports, Robin Adair from S. Africa, Norwegian from Glasgow, Nova II from Halifax, Belle Ie from Nfld. Ports, Feb. 6: Lady Drake from Demerara, Caplain from U. S. Ports, Feb. 7: Cathcart from Jamaica, C. S. Cramp from So. Africa, Man. Citizen from Saint John, New York City from New York, Beaverdam from Saint John, Duchess of Atholl from Liverpool, Magnhild from Nfld. Ports, Can. Scottish from Australia.

Feb. 8: Montclare from Saint John, Lillegunvor from Jamaica, Dom. Shipper from Halifax, Lovland from Halifax.

Feb. 9: Cairnesk from Saint John, Andania from New York, Ascania from Havre, Chedabucto from E. C. Ports.

Feb. 10: Colborne from B. W. Indies, Fort Amherst from St. John's, Incomore from Liverpool, Giliano from New York.

Feb. 11: Nova II from Halifax.

Feb. 14: Lady Rodney from Jamaica, Siamese Prince from Far East, Man. Brigade from Saint John, Beaverford from Saint John.

Feb. 15: Duchess of Atholl from Saint John, Montcalm from Liverpool, Ascania from New York.

### WHEN ONE WE LOVED HAS PASSED AWAY.

"Twas in a cottage far away,  
 A humble home beyond the sea,  
 A wintry evening dull and gray  
 When that sad message came to me:  
 The King is in Eternity.

What brought our king so near to me  
 That I must weep his passing so?  
 Why do we mourn and tenderly  
 For one who goes as everyone goes?  
 From 'this strange world of joy and woe'?

What brought him near? Ah,  
 Friend of mine,  
 What brings an honoured parent near?  
 What brings a noble soul to thine  
 From ageless time, to grow more dear  
 With every passing day and year?

The King has passed who made us all,  
 From every varied walk and way,  
 One family, now, on whom the pall  
 Of sorrow rests this winter's day;  
 When one we loved has passed away.

James M. MacLean 2149 Nelson Ave., New Westminster, January 20, 1935.

### Lady Tweedsinuir Attends National Woman's Council

(C. P. by Guardian's Special Wire) OTTAWA, Feb. 4.—A six point resolution for voluntary code for members of local councils of women and federate societies was read today at the meeting of the executive of the National Council of women, attended by Her Excellency, Lady Tweedsinuir. Miss M. Winifred Kydd, C.B.E., presided.

The code was drafted by the Toronto branch and was read by Mrs. Frederick Etherington of Kingston. Its purpose is to place the occupation of housework "in the position it should hold in the community."

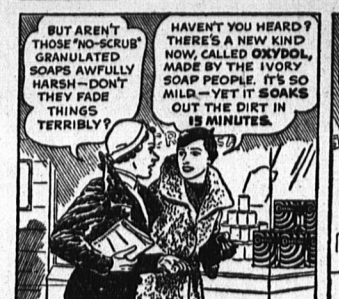

The points are as follows:  
 1. Maximum hours of work per week should be 69 and should not include hours off duty taken within the home;  
 2. The maximum wage of inexperienced help should be \$15 a month and experienced help should be \$20, in addition to room and board, this to be increased as efficiency warrants;  
 3. Rates of pay and hours' off should be set when position is given.

### RHEUMATISM

Rheumatism is often caused by uric acid in the blood. Urea, a blood impurity, should be extracted by the kidneys. If kidneys fail, and urea remains, it changes to uric acid which in minute crystals lodges in joints or between muscles causing excruciating pains. Plan to prevent rheumatism who goes as everyone goes in good condition. Take regularly Dodd's Kidney Pills — for half a century the favorite kidney remedy. 101

### HOW NEW SOAP WORKS SO FAST—YET IS SO SAFE

**An Utterly New Discovery by the Makers of Gentle Ivory**

Yes! Wash clothes 4 to 5 shades whiter without touching washboard or boiler. Do it this new way—this safe way!

OXYDOL is made on an utterly new principle. A patented process by the makers of gentle Ivory soap, which makes mild, gentle soap much faster acting... a formula that makes it 2 to 4 times whiter washing!

Just 15 minutes' soaking does the trick... and white clothes wash so white you'll be astonished! Even the grime spots come sparkling clean with a gentle rub.

Yet OXYDOL is safe and mild. So safe that every washable color comes out sparkling, brilliant, fresh! Even sheer cotton prints, soaked through 100 consecutive washings in OXYDOL suds, showed no perceptible sign of fading.

Why go on scrubbing your life away when this new, safe soap will soak your clothes lovely, white, sparkling? Thousands are switching to OXYDOL daily and discarding washboards forever.

OXYDOL is economical, too. One package often does twice the work—gets twice the suds—lasts twice as long as old-fashioned bars, flakes, or chips. Get OXYDOL from your dealer today.

**MADE IN CANADA**

### Value of Advanced Education Recalled

HALIFAX, Feb. 5.—(CP)—The value placed upon higher education by His late Majesty King George V was recalled here in the publication of an address he made to governors and senators of Dalhousie University on his last visit to Canada in 1905.

"I am glad to gather from the Address of the University of Dalhousie that in the midst of that material prosperity you happily open your eyes to the importance of higher education," he said at that time. "You recognize that nothing is so essential to the advancement of a people as adequate provision for a training which will keep the coming generation abreast of the march of intellectual progress and scientific knowledge."

Documents of the University's address either the second or both as scoring shots.

Owing to the increasing number of competitors, and the difficulty of obtaining a larger supply of ammunition, all the competitions in the Grand Aggregate that have hitherto been 10-round shots have been reduced to seven rounds. These include "The Daily Telegraph" Cup, the "Times," the "Daily Mail," the Wimbledon Cup, the Duke of Cambridge at 900 yards, and the Corporation of the City of London at 110 yards.

The Alexandria, which is not in the Grand Aggregate, becomes a 10-shot competition at 600 yards, and the Conon Doyle will also be a single-range shot, 10 shots at 500 yards. In all these competitions those who make the highest possible score will immediately shoot three tie shots.

### Farmers Needs Must Be Heeded

(C. P. by Guardian's Special Wire) TORONTO, Feb. 5.—If there is no downward revision of tariffs to open markets for wheat and cattle, farmers cannot be blamed if they turn to government intervention, controlled production, fixed prices, bonuses and subsidies, R. A. Wright, President of the Western Canada Livestock Union, told the 10th annual meeting of the Canadian Chambers of Commerce today.

"The farmer knows these things are basically wrong," the speaker said, "but he also believes it is a poor rule which won't work both ways. Leaders in business have paid small heed to problems of the farmers. Their difficulties are known but the causes unheeded.

Agriculture in Canada had never had a full seat at the national table, Mr. Wright continued.

### Bisley Entries Gain An Option In Sight Shots

(Canadian Press) LONDON, Feb. 5.—Several important changes—in addition to the reduction in the size of the bull's-eye, already announced—will be affected in the rules of this year's meeting of the National Rifle Association at Bisley opening Monday, July 6.

Instead of purchasing tickets which entitle them to fire not more than two practice shots before any competition, competitors will be given the ammunition for two compulsory sighting shots. When these two shots have been fired the competitor may elect to

Grade IX Jr.—1. Ethel Livingston, 2. Mildred Murray.

Grade VII—1. Joyce Darrach, 2. Florence MacPhee, Elmer MacPhail equal, 3. Helen Darrach, Thelma MacKinnon equal.

Grade VI Sr.—1. Ralph MacDonald.

Grade VI Jr.—1. Willie Livingston, 2. Robble MacKinnon, 3. Louis MacLean, Marie Scott, equal.

Grade V—1. Ruth MacLean, 2. Arnold MacPhee.

Grade IV Sr.—1. Garfield MacKinnon.

Grade III—1. Joyce MacPhail, 2. Hilda MacNevin, Alma MacKinnon equal, 3. Ruby Scott.

Grade II—1. Jessie MacKinnon, 2. Wanda Livingston.

Grade I A—1. Doris MacKinnon, Garde I B—1. Billie Gillespie.

Grade I C—1. Aetha Scott.

Perfect attendance for January: Hazel Livingston, Ivan MacNevin, Joyce Darrach, Ruth MacLean, Alma MacKinnon, Billie Gillespie, Garfield MacKinnon.

Those making an average of over 90 per cent: Ruth MacLean, Joyce MacPhail.

From 80 per cent to 90 per cent: Olive Livingston, Hilda Murray, Arnold Beer, Joyce Darrach, Willie Livingston, Hilda MacNevin, Alma MacKinnon.

From 70 per cent to 80 per cent: Ethel Livingston, Florence MacPhee, Elmer MacPhail, Ruby Scott, Hazel Livingston, Garfield MacKinnon.
