Evangelistic Service.

Interest and attendance are increasing at the Evangelistic meeting at the Baptist Church. After a bright service of praise last evening Rev. E. P. Calder delivered a strong and impressive sermon on "What is a Christian?"

Home religion, family worship, were in the early church and should be now the very corner stone of the Christian Church.

Finally the members of the early church regarded it as the foremost business of their lives to bring people to Christ. Individual evangelistic effort is the most effective evangelism the church has ever known.

The mission of Jesus was large. To individuals, every member of the early church was a missionary. Will this method work today? It does, and it will. The Christianizing of Korea was due almost entirely to the word of mouth evangelism of converts to their friends.

The speaker closed with a moving and eloquent appeal to all to follow the Master's way. Mr. Calder's sermon this evening will be "How to be Saved."

Is Accused Of Killing Her Child

St. John Girl to be Arrested at McAdam

FREDERICTON, N. B., March 23.—The body of an infant child, with a shoestring tightly tied about its little neck, was found in a bathroom at the C. P. R. Hotel at McAdam yesterday morning. Sheriff John B. Hawthorne was notified and drove to Harvey Station where he picked up Dr. B. H. Dougan coroner, and together they proceeded to McAdam, where last night they held an inquest, which did not conclude until 5 o'clock this morning.

Revive Cricket

A Nova Scotia writer in the St. John Globe has been endeavoring to arouse interest in cricket, which game has been on the decline in the Maritime Provinces for some years. He says: The decline of cricket in Nova Scotia and elsewhere in Canada during the past ten or fifteen years in my opinion is very regrettable. Baseball cannot take its place, for it is a game for boys and very young men. No man can successfully play baseball or has any inclination to do so, as a rule, to put it at the latest, after thirty. Golf is the elderly and old man's game, tennis, a fine game in its way, lacks the camaraderie and I may add, the spice of danger that keeps a man's nerves braced up in cricket. It is also lacking in quills, curling bowls and other games of the same character.

BIG DAM BREAKS NEAR PARRY SOUND

PARRY SOUND, Ont. March 23.—Nearly thirty-six hours after the wing dam at the electric light and power plant here burst its bounds and threatened to utterly destroy the power plant, and within the rush of waters this evening was even greater than was the case yesterday, though the power house still stood intact and apparently little damaged. A torrent that was about sixty feet in depth was raging through the 1 1/2 ken dam to night, and finding its way into the power house through doors and windows, and fears were expressed that the Government dam at Manitowaba Lake, seventeen miles up the Sequin River had broken away.

Many Lake Freighters Lost During War.

TORONTO, March 22.—Canada sent about sixty lake freight carriers to the ocean tide during the war, and only twelve or fifteen have returned. The others will never return, for they are either at the bottom of the sea have been burned or sold. The great majority went down through the activity of enemy submarines. Capt. J. B. Foote, a well known marine insurance expert, estimates the economic loss will run up around ten million and perhaps a great deal more. The Canada Steamship Lines sent some eighteen vessels to the ocean. Six of their boats have returned "from the front," and are now being put into shape at Kingston, Midland, and Collingwood.

German Answer Should Come Today

BREITENBURG, March 22.—Germany's reply to the demand of the entente for payment before March 22nd of a billon marks is held to apply on the reparations of obligations will be negative. It is unofficially stated today. The German government's answer to the Allies is now being drafted and will be presented within a few hours as the time limit set expires today.

Summerside and Western Guardian

Sinclair and Stewart, Limited. —NEW GEORGETTE blouses assorted shades, only \$2.95 each. See them. Sinclair and Stewart Limited. —GOOD MODELS IN women's raincoats priced at \$15.00 to \$22.00 clearing now at \$10.00 and \$15.00. Sinclair and Stewart, Limited. —PHOTOGRAPHED.—The Bede que Hockey team were photographed by Percy Rowness. Tuesday afternoon, this team scored 2 goals to Borden's 1 in the Hockey Game Tuesday evening at Summerside. —DIED LAST EVENING.—The death took place at the home of her daughter, Mrs. H. H. Beer, Summerside at eight o'clock last evening of Guillemo M. Reid at the age of 48 years. Funeral notice will appear later. —HORSE BURNED.—The Summerside fire brigade was called out Wednesday morning at 9 a. m. for a fire at the east end of the town, a barn belonging to Mr. Church of an American firm, and occupied by John Harkness, was partly destroyed. Two cows and one horse were housed within it at the time of the fire, and with prompt action of parties on the scene, the two cows were removed safely, but before the horse could be taken out the lot, which was full of hay and straw collapsed and the horse died within the burning building. The loss is quite a heavy one to Mr. Harkness. The promptness of the fire brigade being on the scene very few minutes after the alarm was rung in, saved the situation very much. —HOLMAN'S NEW CATALOG.—The Bargain Catalog, issued by R. T. Holman, Limited, of Summerside, is one of the brightest and most interesting of all the preceding twenty four numbers produced by that enterprising Island firm. Features of this issue are the first sixteen pages which describe and illustrate special extraordinary bargains from all departments of the big store. This year all articles listed in pages seventeen to seventy-five, inclusive, are delivered to a new address in Eastern Canada, a new offer that will prove most favorable to all customers and the first offer of the kind to be made by any concern handling so complete a line of merchandise as this big store. As in other years, free delivery is made on all orders from any part of the catalog amounting to \$10 or more. The inner and outer covers of the catalog are printed in four colors and the complete book of 160 pages is crowded with exceptional values.

HOT CROSS BUNS SALE

"Good Friday comes this month, the old woman runs With 'one a penny, two a penny, hot cross buns.' Whose virtue is, if you believe what's said, They'll not get moldy, like common bread. —From Poor Robin's Almanac, 1733. Thousands of hot cross buns are eaten every spring on Good Friday by persons who attach no meaning to the custom but only know the hot, sweet currant and raisin filled buns are very good indeed. Originally these buns were made by Egyptian, Greek, and Roman priests in honor of the spring equinox, when the worship of the moon and of Diana, the goddess of the moon, was celebrated. The buns were made round to represent the full moon and square cross was marked upon them to show the four quarters or seasons of the year. The custom of eating these buns was so general that the early Christians indulged in it as well as the pagans. It is told that Paul unable to stop it, had he so desired, said, "I would roll round represent the earth and the four corners of it into which the Gospel should be carried." There are many legends about hot cross buns and it would seem true that at one time they were made from the dough kneaded to make bread for the sacrament and eaten by the monks. Now each family makes their own to suit their particular taste. The only qualification really necessary is that they have a distinguishing mark across the top. It is said that if each member of the family eat one hot cross bun on Good Friday the home and its inmates will be preserved from pest and accidents all through the year. The German frau has an old-time recipe for hot cross buns. She has her own in cooking and baking. It is thought that the buns must be made on Good Friday to ensure good luck to the household. "Hot cross buns! Hot cross buns, they'll not get moldy, like common bread. Goody, goody, hot cross buns."

Pure Beef Cubes

OXO Cubes are a wonderful invention they contain just those elements which nature needs to make good the wear and tear of daily life. A cup of OXO, with a biscuit or two, sustains for hours.

Spring Styles Ushered In At Patons Ltd.

Yesterday's bright sunshine made the Easter millinery opening at Patons simply irresistible, and all afternoon the immense store was crowded to capacity and fashion's favorite hats for the coming summer were widely discussed. The first spring hat is of small or medium size to accompany the street suit or tailored frock, but when the warm weather comes the large hat will be the smart selection and every woman looks her best in a big hat, it shades the eyes and gives them a "rested serene look. A large hat of Henna Straw at Patons was decidedly picturesque with its flaring brim and quaint flower on upper brim, while a smart small close toque of Harding blue had as its garniture ex. quise pink roses veiled in blue tulle. This was one of the favorite small models. The hat made entirely of ribbon is popular, and as the soft, "slouchy" type of hat is very becoming to most women, there is much to be said in favor of the ribbon hat. It may be of any color, and is quite charming, especially for sports wear. Hats of fallo silk or tafeta are equally good embroidered in wool or chenille in contrasting color, stitched or decorated with beads. One roll rim sailor was faced with blue silk, and its only decoration was a cross stitch in white Angora yarn, but it was most effective. For dressy wear the flower trimmed hat will be very popular, and just at present a great many very bright colors are being featured and many of them have smart veils gracefully draped. Patons entire store has been renovated from top to bottom and one afternoon was really not sufficient to get any idea of the glories of their new spring styles. In their ready-to-wear department the dresses have a new sheen to them this Spring and the suits have pretty new lines and touches here and there that make them simply irresistible. The sport skirts are equally fetching, colored plaids being very prominent. Passerby in the dress goods department were at once attracted by the silks, satins and velvets so gracefully draped, many showing the effect of the finished gown with rich laces, etc. The Easter neckwear is a thing of loveliness and as necessary to brighten up the old suit as is the Easter Hat. New gloves, and prettily and silk hose lend a touch of refinement and charm to any outfit, and this department was never better looked after, while an exquisite blouse that peeps out when the suit coat is fastened is the choicest thing imaginable. Patons' blouses lead charm to any cut and their prices are approved by all. The showing will be continued today, so that everyone will have an opportunity of making selections in time for Easter Sunday.

Says Acid Stomach Causes Indigestion

EXCESS OF HYDROCHLORIC ACID SOURS THE FOOD AND FORMS GASES. Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the oven air, says a noted authority. He also tells us that indigestion caused by Hyper-acidity, is prevented by an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten comes in the stomach much like garbage source in a can, forming acid fumes and gases which inflame the stomach like a toy balloon. Then we feel a heavy, uneasy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea. He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and at bedtime. It is effective this for a week. While he follows the first dose, it is important to neutralize the activity, remove the gas-making mucus, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grape and lemon juice combined with lithia and sodium phosphate. This harmless salt is used by thousands of

Threatened To Harm Man O' War

Lamey Sentenced to Three Months Jail for Threatening Famous Horse

PHILADELPHIA, Mar. 22.—Harry T. Lamey, of Chester, Pa., who threatened to harm Man o' War, Samuel D. Riddle's famous race horse, was sentenced today to three months in the county jail at Trenton, N. J. He had pleaded guilty.

Lamey admitted that he wrote a letter to Mrs. Riddle, wife of the owner of Man o' War, threatening her and the horse with bodily harm if he was not paid \$1,000. He declared that he had not intended to force payment of the money, merely wanting to see what Riddle would do.
