

ADDRESS.

Previous to the closing of O'Leary High School for the Christmas holidays, D. S. Fraser, principal, was presented with the following address and presentation, to which he fittingly replied:

Eczema Cured Three Years Ago

Best City Doctors Failed, But Cure Was Effectuated by Use of Dr. Chase's Ointment.

Mrs. A. T. Smith.

You apply Dr. Chase's Ointment for eczema and feel the benefit as if by magic. It may take some days to get the sores cleaned out and the healing process fully established, but from day to day you can see the old trouble gradually disappearing and know that you are getting rid of it.

high ideas in word and deed daily set before us. Your relations with your pupils have ever been of the most agreeable kind, and as an expression of our appreciation of your services, we beg of you to accept this small gift.

Wishing you a pleasant holiday and a merry Christmas. Signed on behalf of your scholars (A list of names).

Diverse Subjects

The one bluebook in a thousand that makes good reading is the report of some British commander in Asia or Africa on the results of a punitive or other expedition into an unknown or dangerous region, the annual report of one of his majesty's administrators in odd corners of the empire, with picturesque accounts of their duties and of the ways of the natives; or that of one of the consuls in an obscure part of the Empire.

Why They Are Published On an average 3,000 bluebooks are published every year, most of them having been asked for by members of parliament. That is the usual genesis of a bluebook.

CAN'T SLEEP ON THIS

One-legged Stool Prevents Occupant from Taking Snooze

Few people are looking for things to keep them awake—rather the contrary—but when a man has a job as watchman in a gunpowder factory, for example, he is willing to stay awake until he gets home, inasmuch as this kind of a watchman is supposed to keep his eye on the thermometer and see that the temperature does not get high enough to send him off into a sleep from which he would never awake.

WHEN SLEEP MIGHT BE FATAL.

is too strong for us and some provision must be made that the watchman cannot snooze, even against his own will. He is therefore provided with a one-legged stool upon which to sit.

Cost of Big Bullets

The Hadfield Steel Foundry of Sheffield was awarded a contract for five hundred twelve-inch shells for the United States navy at a price of \$181 each. The contract was given to an English firm because its price was lower than that of American tenderers.

SHILOH quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents

RUNNING AMOK.

A Mania For Murder That is Peculiar to Oriental Countries.

The expression "run amuck" is the Anglicized form of a term used in some parts of the orient to describe a form of homicidal mania, accompanied by a frenzied plunge in any and every direction. In the countries where the mania originated the word applied to it was "amok." The corrupted form of it is now applied in a score of ways—without much warrant.

In Malacca, Siam, Java and adjacent regions the mental state which causes amok is well defined and much dreaded. It is attributed almost invariably to excessive drinking of stimulants. The victim first turns morose, generally remaining in this state for several days. Then he is suddenly seized with the mania for slaughter and starts on his mad run with the first weapon he can reach.

Extra precautions against these mad ravages are taken in some of the more civilized places, especially Batavia. There the police are armed with what is called a catch fork. The instant the victim of amok starts on his mad dash he finds himself hooked by a minion of the law and held firmly the length of this odd human spear. He can harm himself, but that is the limit of his insane power.—Exchange.

AFTER GRIPPE OR PNEUMONIA

the enfeebled system readily accepts any disease—Nature's resistant force is depleted and Scott's Emulsion is needed. Its highly concentrated nourishment is immediately distributed to every organ.

With Scott's Emulsion nature repairs waste, constructs healthy tissue and active, life-sustaining blood. Nothing equals Scott's Emulsion in coalescence.

Hear the New Edison Blue Amberol--The Indestructible Record

The new Blue Amberol record is a decided treat to all owners of Edison phonographs.

It is indestructible, but not like the common kind of so-called "wearever" records. The Edison Blue Amberol cannot get harsh, scratchy or screechy. It is clearer, sweeter and has a more mellow tone than the ordinary Amberol.

Before putting it on the market it was

Played 3,000 Times in Laboratory Tests--

It was the intention of the Edison people to devote but the very best talent to making Edison records. They intended to make records on its list that you will want to play 365 days in every year.

The new Blue Amberol cannot be broken, never wears out and is so sweet, mellow, and pure in tone that you will take a new interest in your phonograph.

Same price as regular Amberols65c

Money Invested In

The Chas Dalton Silver Black Fox Co

IS A SANE INVESTMENT WITH A SURE PROFIT

WHY

BECAUSE: The stock produced by this Ranch is eagerly sought after by both local and Foreign breeders and always commands the highest prices.

BECAUSE: Mr Dalton's experience and study of fox life have placed this Ranch on a sure footing, beyond the experimental stage, thereby lessening the danger of loss which so frequently occurs in ranches through the inefficiency of the man in charge.

BECAUSE: The shareholders are guaranteed an increase of not less than fifty young foxes raised to July 1st, 1913. For every young one under this number Mr. Dalton will pay to the Company \$5,000 in Cash thus practically guaranteeing the sum of \$250,000 or 40 per cent on the capital invested, to be paid in dividends.

Now look this thing square in the face—don't sidestep. Do you realize the enormous profits that are being made in the fox business?

Do you realize that it is the men who are already rich who have been monopolizing this great industry?

You Man with your small savings lying in a bank at 3 p. c.—you want to wake up to your opportunity!

You may not be able to buy a pair of foxes but you invest your small savings in a legitimate, safe industry that instead of paying you 3 or 6 will pay you 40 to 60 per cent.

Lest You Forget

This Ranch holds the world's price records for pelts.

This Ranch holds the world's price record for young foxes.

Is your money earning its utmost? Call in and let us talk it over, and don't let the 25th of January pass without making an investment in the world's greatest Fox Ranch.

Application Form

We the undersigned hereby subscribe for and agree with Waldren B. Prowse of Charlottetown, agent for and representing a syndicate who have taken over the Silver Black Fox Ranching business of Chas. Dalton of Tignish, to take the number of shares at \$100 a share, as set opposite our respective signature hereto and to pay 10 per cent of said stock down, and the balance on or before Feb. 1st, A. D., 1913. Should said shares not be allotted the money paid on them to be refunded in full.
