**IN MEMORIAM**

**THE LATE MR. JOHN DRAKE**

The death occurred at his home, 191 Grafton Street, at an early hour yesterday morning, of a well-known and most highly respected citizen, Mr. John Drake.

Mr. Drake who was in his eightieth year was born at Pownal on Sept. 3rd, 1843, but for over fifty years was a resident of Charlottetown. He took up the meat business which he carried on for a long time. Through his industry and ability he achieved a large measure of success, and retired some years ago. He then went into the fish business, which he conducted for about ten years.

Mr. Drake was not only a shrewd and keen business man, but a gentleman of the highest honor and integrity, as all who had relations with him can testify. About two years ago, his health, at one time exceptionally good, began to fail, but he still kept moving about and was confined to his bed for only one week before the end came. He was a member of the Methodist Church and always took a deep interest in every measure connected with the welfare of the community.

He leaves to mourn an aged widow, (nee Miss Hannah Hyde), three sons Frank L., William J. and Richard, and one daughter, Mrs. E. E. Squarbriggs, all of this city. He also leaves one brother James of Cornwall.

The funeral will be held Friday afternoon by train to Sherwood Cemetery, services commencing at 1:30 p. m. at his late residence.

**MONARCHISTS HAVE PLANS READY TO START REVOLUTION IN GERMANY**

**Believed That the Reichswehr Will Join Their Standard—Prince Rupprecht Disclaims Idea of Aspiring to be Emperor.**

BERLIN, Nov. 7.—The Vorwarts says today that the Reactionary Monarchists have undoubtedly made preparations for revolution. Movements are on foot at the Munich villa or former Prince Minister Von Kahns, who, with General Ludendorff, are leaders of the revolutionaries. It is considered sure that the Reichswehr with colors flying, will side with the Monarchists. Plans have been carefully completed for an attack on Berlin by the United Bavarian, ex-Prussian troops.

The Crown Prince Rupprecht, of Bavaria, told a German Politician, a member of the People's party two days ago: "I give my word as a man that I have nothing to do with the movement. I will never accept a call to be King of Bavaria or Emperor of Germany."

Regarding the situation, the Vorwarts says: The first part of this report is surely true, but we doubt Rupprecht's words. He does not say that he will refuse the post of President.

**Adopt Children Of Canada**

(Special to The Guardian.)

MONTREAL, Nov. 8.—"We are receiving many children who come to this country from Europe and they are being placed in our Canadian families. Why should we not adopt this method with the little unfortunate ones in our own country? It is not to our credit to have reform schools filled with children."

The above is an extract from the report of Dr. A. H. Desloges, General Medical Director for the Province of Quebec, to his department. Dr. Desloges suggested that the world reform be done away with and Premier Taschereau fully approved of the change, voicing his sentiments on the matter recently before members of the Legislature.

**A BAN ON OUR WHEAT DEMANDED IN STATES**

CHICAGO, Nov. 8.—The American farm bureau federation has demanded an immediate embargo on Canadian wheat. A telegram to the interested commerce commission makes this demand, it was learned today.

Losses amounting to millions have been sustained by United States grain growers, and the losses will be doubled unless a ban on Canadian wheat, said to be monopolizing lake boats and eastern elevators and railroads, is placed at once, farm bureau officials declared.

The farm bureau claimed that the embargo would release enough boats to move more than 20,000,000 bushels of United States wheat in the remaining five or six weeks of navigation and would release 21,000 grain cars from carrying Canadian grain between Buffalo and the seaboard, thus solving the car shortage problem in the grain belt.

**BECOMES MILLIONAIRE FOR TRIVIAL SUM OF \$60 SAN FRANCISCO, Nov. 8.—J. P. Ellison, foreign exchange manager of a local steamship concern, announced today he has bought 100,000,000 rubles in Russian Soviet notes for \$60 United States gold.**

Galen, the great Surgeon and Physiologist, who died A.D. 200, wrote extensively on the subject. His writings were still in use as late as the time of Queen Elizabeth, and with little exception there was no advance in our knowledge of cancer pathology throughout the Byzantine and Renaissance periods.

During the Dark Ages, cancer was looked upon as an evidence of Divine Wrath, for the ban of the church on medical as well as other scientific investigation prevented anything in the nature of research. As a result of this belief, a great wave of faith cure and quackery spread over Europe, which reached its height during and immediately following the reign of Queen Elizabeth, so that every effort to ascertain the true nature or cause of cancer was defeated.
