

THE LIGHT-HOUSE KEEPER'S STORY.

FROM the lighthouse at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends her experience of Zam-Buk.

She says: "I suffered with eczema for seven years and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores and caused great pain. I went to a doctor and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth.

"Seven years is a long time to suffer, and I had got used to the thought that I never would be cured, when I saw a report in the Family Herald, telling how beneficial Zam-Buk was in cases of skin disease.

"I bought some Zam-Buk, and from the use of the very first box I saw it was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful.

"It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it and within a very short time it worked a complete cure in my case.

"Since that time I have recommended it for several other cases, and in each it has proved its wonderful merit.

THAT WAS DIFFERENT

"He's one of those fellows who reads up on things and then insists on talking about them."

"Well," replied Miss Cheyenne, thoughtfully that beats the fellow who insists on talking about things without reading up on them.—Washington Star.

—A FIRST NECESSITY. To give a hand and a strong one, to the Serbians, a first necessity of both the military and political situation, declares Truth. We must stand by our friends. Critics talk about the error of dispersing force instead of concentrating it, but we are playing at war, not Kriegsspiel, and this is not the time to discuss the theories of academical strategists. He is the best strategist who goes straight for his enemy, and when he has found him, beats him in the open field. This is what we have to do in the Balkans, and what we shall do if we strike strongly, and with the determination to win.
