SAVE YOUR TEETH

Until quite recently whenever a person had the toothache, his friends and all immediately gave him the sage advice, "Go and have it pulled." We extract teeth when necessary by the most painless method yet discovered and replace them with a plate or with crown and bridge work. BUT OUR PRINCIPAL BUSINESS IS SAVING AND FILLING TEETH.

If you have a cleft palate give us a call. We can refer you to cases in this province, that we have treated with wonderful success.

THE COAL STRIKE.

Last Friday was the fifth monthly birthday of the coal strike, as it began on May 10. No one expected it to last so long, and few filled up their cellars while hard coal was to be had at normal prices, says the Witness. Now, after five months, when the United States anthracite is not to be obtained here at any price, we are content to use soft coal and wood and pay pretty dearly for them, too. The wild offers of the past week or two have ceased, however. Senator Forget's loan of a hundred thousand dollars will enable the poor to get their wood at cost in Montreal, and the Dominion Coal Company is charging no more for its coal to its customers than it did in the spring.

There will be importations of Welsh and Scotch coal until the close of navigation, so that, taking it altogether, the situation is not nearly so unpromising as it threatened to be only a little while ago. The United States politicians have been doing their best to arrange an understanding between the operators and the Miners' Union during the past few days, so as to remove what is, in their eyes, a threatened danger in the party elections, but neither the operators nor the miners have so far budged from their old positions. The operators hold that the whole of the present trouble is due to their previous surrender, or compromise, at ten per cent advance under political pressure. The miners, for their part, only feel the stronger the more the politicians exhibit their anxiety. President Roosevelt, after the failure of the conference he had called appealed to Mr. Mitchell to persuade the men to resume work, pending the report of a commission to be appointed by the executive head of the Government.

Mr. Mitchell declined to accept this way of closing the disastrous industrial war, because the coal operators refused to accept the decision of such a tribunal, and because there seemed to be no law by which the finding of the proposed tribunal could be enforced. The operators claim, as they have always claimed, that they have the right to run their own business, and that the dictation of the union has already become intolerable. They also contend that if they were properly protected the mines would be well supplied with workers and that the coal famine would soon therefore come to an end. On the other hand, Mr. Mitchell claims that skilled miners will not work under the wages and present conditions in the anthracite district and that time will prove that. His hope is that if, after the protection the operators are getting now, coal is not soon mined in some abundance, the public will get tired of the starving out process, and clamor for a settlement either privately or by arbitration. In the case the union would decidedly win the victory, and freedom of contract between employer and employed would cease to exist in the United States anthracite mining world.

The following announcement among the church notices in a contemporary gave rise to trouble in the minister's family: "Miss B— will sing, "O That I Had an Angel's Wings That I might Rise and Fly," accompanied by the minister.

ASTHMA CAN BE CURED.

Thousands of testimonials conclusively prove that Asthma can be permanently cured by inhaling Catarrhoxone, a vegetable antiseptic that destroys at once the germs causing the disease. Catarrhoxone gives immediate relief to the distressing cough and suffocating sensation, makes breathing easy and regular and insures undisturbed sleep. Catarrhoxone cures Asthma, the doctor says, and is unable even to relieve and can cure you. The Catarrhoxone inhaler is made of hard rubber, fits into the vest pocket can be used at work, in church, in the street, in bed—any place—at any time. Two months' treatment (guaranteed), price \$1.00; trial drug, 50c; or N. C. Polso & Co., Kingston, Ont.

WHERE TO GO FOR FURS.

(St. John Sun Oct. 9th.)

Messrs. Dunlap, Cooke & Co., the enterprising furriers, are nicely settled in their new premises, 59 Charlotte street, and their tastefully arranged fur parlors, for they can be called by no more appropriate name, present a most inviting appearance to the purchaser of fine fur garments. The place is a model of neatness and good taste in point of arrangement. The many beautiful fur garments are enclosed in rich cases of golden oak and plate glass, while the walls and draperies are of crimson and green cloth, and the floor covered with a Turkish rug of rich design.

The premises are brilliantly lighted with numerous incandescent lights, which at night present a charming effect.

Dunlap, Cooke & Co. come to St. John with an enviable reputation as producers of high-class fur garments, and although this is their first season to locate permanently in St. John, the firm is very well known here, having been in the city on different occasions at the provincial exhibitions, where their exhibits have always been of the very highest order of merit.

Besides the establishments at Amherst and St. John, the firm has branch houses in Moncton, Charlottetown and Halifax, and consequently their provincial business is drawn from the chief centres in the eastern provinces, besides a substantial following from the west. A branch of the business was located in Vancouver, B. C., for about eight years, and there are few better known firms in the maritime provinces. Dunlap, Cooke & Co's label on a garment means reliability to the purchaser of fine furs.—St. John Sun.

SCHOOL CLOSED.

SCHENECTADY, N. Y., Oct. 10.—The four thousand pupils in the public schools of this city were sent home to-day by their respective teachers because of the coal supply giving out. There are eleven schools affected, and the pupils will not be able to resume their studies until a quantity of soft coal ordered by the Board of Education is received. There is a carload of soft coal now on the way to this city and it may reach here some time next week. It will not last long, however, and the authorities fear they will have to shut the doors of the schools indefinitely.

LONGSHOREMEN UNEASY.

HAMILTON, Ont., 9.—The coal dealers received another shock to-day when the Longshoremen's Association made a demand for an increase of five cents per ton for loading coal from vessels, the increase to date from Oct. 1. The present rate is seventeen cents for hard and twenty cents for soft coal per ton, with an additional three cents for ride hatch vessels. The vessel owners claim to have an agreement with the longshoremen for the season and will kick against the demand.

ENGAGED.

Marriage is very largely an accident. In few cases do men or women set up a standard of manly or womanly excellence and choose by it. In most cases people become engaged as the result of proximity rather than because of any deep rooted preference. And so it often happens that the wife enters upon the obligations of maternity just as thoughtlessly as she entered on the marriage relation, because no one has warned her of the dangers she faces. Thousands of women become invalids for lack of knowledge of themselves. It is to this large body of women that Dr. Pierce's Favorite Prescription comes as a priceless boon, because it cures womanly ills.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"After my first child was born," writes Mrs. Jordan Stout, of Pawcettgap, Frederick Co., Va. "my health was very poor for a long time, and last winter I was so bad with pain down in back I could hardly move without great suffering. My husband got me a bottle of Dr. Pierce's Favorite Prescription and a vial of his 'Pleasant Pellets,' which I used as directed. In four days I was greatly relieved, and now, after using the medicine three months, I seem to be entirely well. I can't see why it is that there are so many suffering women when there is such an easy way to be cured. I know your medicines are the best in the world."

Dr. Pierce's Pleasant Pellets the favorite family laxative. One 'Pellet' a laxative, two 'Pellets' a cathartic dose.
