A discussion took place on the problems of the different societies.—S

### Polish Actress To Wed British Statesman

(A. P. by Guardian's Special Wire) LONDON, Nov. 7.—Pola Negri said today she is going to marry "a middle-aged British statesman" sometime before Christmas. "You'll be amazed when you find out who it is—in about two weeks," she said. The Polish actress expanded slightly on this description by stating: "He is a very famous statesman, a former member of Parliament, and enormously wealthy. That is all I can tell you now because the elections are going on and it might make things difficult. "He is about 10 or 15 years older than I am and tremendously intellectual—and that's what I want now. I want somebody who will love me and not fame; who will not let his name go; who will care for me and think for me. No more Midvinter! They are nice boys but..." The off-married Pola, whose third and most recent husband was Prince Serge Midvian, threw up her hands and shrugged. "That was a nightmare," she said. "This time it is love—real love, sincerity, and peace."

### War Briefs

(By Guardian's Special Wire) NAPLES, Italy, Nov. 7.—Students demonstrated against sanctionist countries tonight. They paraded the streets demanding that shops displaying foreign products be closed, but police reported there were no incidents.

(By Guardian's Special Wire) NAPLES, Italy, Nov. 7.—(C. P. Havas)—Fifty scouting and bombing planes and a large quantity of aviation equipment left here tonight on the steamer Balizina for Massaua, Eritrea. The steamer Toscana left for the same destination with 90 officers and 1,900 black-shirts.

(By Guardian's Special Wire) ATHENS, Nov. 7.—(A. P.)—The ministries of foreign affairs, national economy and finance decided today to enforce League of Nations sanctions against Italy, beginning Nov. 18. They adopted measures barring loans to either Italian individuals or organizations halting imports from Italy and embargoing the export of war materials to Italy. They decided Greece will not send olive oil, its principal export, to Italy, and will seek a market elsewhere.

(By Guardian's Special Wire) CAIRO, Nov. 7.—(C. P. Havas)—Egypt's attitude in the international situation resulting from the Italo-Ethiopian conflict is the same as that of Great Britain, former premier Mohamed Mahmud Pasha, president of the Liberal Constitutional party, said tonight in a plea for Anglo-Egyptian co-operation.

### Successful Concert At Travellers Rest

A most enjoyable concert was put on in Travellers Rest under the auspices of the Women's Institute on Tuesday evening. The concert was by Summerside talent and the large audience appreciated the program arranged for them by repeated applause and encores. Mr. James Marchbank presided in his usual happy manner. The program consisted of piano duets, piano solos, vocal solos, quartets, step dancing and humorous readings. Several Scotch songs, with the singers in costume, were an enjoyable feature on the program. A sale of candy helped with the proceeds. A vote of thanks to the performers was moved by Mrs. George Gunning and responded to by Miss Flora MacDonald. After the concert the players were royally entertained to a sumptuous supper by the members of the Women's Institute.—S

### Wintry Blast Damages Crops In States

(A. P. by Guardian's Special Wire) SAN FRANCISCO, Nov. 7.—A \$10,000,000 loss in Pacific coast crops was checked off in unofficial compilations tonight against winter's first sustained blast from the Arctic. The figure represents an approximate total. It was reached through a check of estimates from official and unofficial sources on losses during a sub-normal cold period which prevailed more than a week before lifting Tuesday. Ruin was spread in fruit orchards and vegetable fields of Washington, Oregon, Idaho and California. Greatest damage in the northwest was to apples and potatoes. In California tomatoes still in the fields were wiped out. Peas, except in the Imperial Valley, were 50 per cent ruined. Considerable damage also was reported to the California grape and cotton crops. In Washington state, where the price of some vegetables advanced 300 per cent in a few days, jobbers estimated losses at \$4,000,000 for apples, \$1,000,000 for potatoes, and \$25,000 for celery.

### Italy In Market For Ships, Claim

(C. P. by Guardian's Special Wire) MONTREAL, Nov. 7.—Italy is in the market for ships of all kinds, small and large, and will pay good prices for them Captain Wallace Ogilvie, agent for the Maritime Navigation Corp. of Liverpool, N. S., said here today in an interview. "I have just returned from Italy," said Capt. Ogilvie, "and although there is a strong anti-British feeling there, it does not apply to Canadians and we were treated with every courtesy." Queried on sanctions, Capt. Ogilvie laughed, "when I was in Admiralty tankers delivering oil, three of them and Italy is still swapping her own Italian built ships for Polish coal." While in Italy, Capt. Ogilvie sold for his firm six ships of from 3,000 to 5,000 tons.

### Death Of Noted Evangelist Widely Mourned

(A. P. by Guardian's Special Wire) CHICAGO, Nov. 7.—Thousands of messages of condolence for the Rev. "Billy" Sunday's widow in the noted evangelist's sudden death were borne to the north side home where his body lay today. One came from President Roosevelt. Another was sent by Mayor Fiorello LaGuardia of New York. Others were forwarded by friends—prominent and obscure—who had known Sunday when he followed the baseball paths and the "sawdust trail" with remarkable success. The widow announced funeral services would be held at 2 p. m. Saturday at the Moody Memorial Church in Chicago. President Roosevelt's telegram read: "I am greatly grieved to hear your distinguished husband passed away. Mrs. Roosevelt joins me in extending our deepest sympathy."

### COUNTRIES STAND TO LOSE BY SANCTIONS

Sub-Committee Of League Hears Views Expressed Re Boycotting of Italy. By Joseph E. Sharkey, Associated Press Foreign Staff. GENEVA, Nov. 7.—Suspension of clearing agreements between League of Nations states and Italy Nov. 18 will result in considerable losses to a number of countries, a sub-committee on sanctions was told today. France informed the League that the balance of commercial relations with Italy has been destroyed. Prohibition of the import into France of all Italian products will make impossible settlement of outstanding payments, which now amount to \$10,000,000 francs (approximately \$10,000,000) reported.

Cuba announced her commercial balance with Italy was unfavorable. Lithuania asserted she was entitled to obtain compensation from Italy in the form of adequate quotas so as to restore the balance of trade. The present margin between respective exports was approximately 1,500,000 lire. (The lire is valued at about 8.1 cents.)

Credit Balance Poland has a credit balance of 12,000,000 lire with Romania. Brazil, (a non-member of the League) announcing she does not intend to participate in sanctions, told the League she reserves the freedom to act in any future contingency upon "her interests," and that "international obligations and principles which have always guided her foreign policy shall dictate." League circles heartily endorsed the proposal of Secretary of State Hull that the United States adopt a more elastic neutrality statute.

Look To Naval Parley Meaningful international circles saw hopeful indications that the London Naval Conference in December may be synonymous with the opening of peace negotiations between Italy and England. They pointed to the fact both Italy and France have been invited to the naval talks. Sir Samuel Hoare, the British Foreign Secretary, today outlined plans for the five-power naval conversations in an official communique to the League. The communique indicated the object of the conference is to achieve agreements on the many points possible for naval limitation.

### RIGHT TO DIE

(Continued from Page 1) Lord Moynehan was president of the Royal College of Surgeons in 1926-32. He is well known in Canada, and McGill University, the University of Toronto and the University of Manitoba have conferred honorary degrees upon him.

Oppose Movement NEW YORK, Nov. 7.—The New York Academy of Medicine stood opposed tonight to any proposal that physicians be permitted to end the sufferings of incurably diseased patients. "Any suggestion involving the destruction of human life is contrary to both the spirit and letter of medicine," said Dr. Iago Galdston, executive secretary of the Academy's information bureau. Asserting the medical profession was devoted, "both in practice and ideology," to the curing of patients, he said: "If society decides it needs executioners, it will need to look for them outside the ranks of medical men."

(C. P. by Guardian's Special Wire) TORONTO, Nov. 7.—Counsel for Harry O'Donnell, gasoline service station attendant charged with murdering Ruth Taylor, made formal application today for permission for defence medical experts to examine the body of the 20-year-old stenographer, beaten and criminally assaulted in an east end ravine late Monday night. "I feel an examination of the body will disclose she was not murdered at the spot where she was found," said Frank Regan, defence counsel. He said he was waiting a reply to his request. The slight 26-year-old O'Donnell, made a brief appearance before Magistrate R. J. Browne today and heard the formal charge of murder read. He did not plead and was immediately remanded till Nov. 15. Friends and relatives rallied to O'Donnell's support today. His sister Margaret said he was "wrapped up heart and soul in the new baby boy born to his wife Saturday and visited her Saturday, Sunday and Monday. Nurses at the private hospital said Mrs. O'Donnell is ignorant of the arrest of her husband.

### Horseshoe Pitching Competition

An interesting individual competition was staged by the newly formed horseshoe pitching club in the Summerside Curling Rink on Tuesday evening. Each member presented pitched twenty-four shoes—four from each end. Of the three courts Rev. C. Waterworth showed his superiority by making a total of forty points—nine ringers, and thirteen shoes within counting distance. This is considered a mark which pitchers from any island club would find hard to duplicate. C. E. Clark scored the second highest number of points. All the new participants of the game did well with the honors being equally divided between Harry Lee and Archie Sharp. S.

### U.S. Co-operation In Air Mail Service Sought

(A. P. by Guardian's Special Wire) WASHINGTON, Nov. 7.—Plans for a transatlantic air route, owned equally by British and United States interests, were laid today before United States government experts. C. H. Glendinning, chairman of the Irish Trans-Atlantic Corporation, told the officials of plans for a 2,300-mile route from Londonderry, Ireland, to Sydney, N. S., and sought cooperation of United States interests. Special arrangements to route United States air mail on the proposed line will be sought. United States laws, however, now limit air mail contracts to companies wholly American-owned. United States aeronautic manufacturers would share in providing equipment for the line, Glendinning said. He will seek the aid of United States capital in New York tomorrow, where, he said, he will discuss the matter with Wall Street banking interests who are contemplating joining on the American side. Glendinning asserted his company has secured 914 acres for an airport at Londonderry, and that Nova Scotia has granted 900 acres for the Sydney airport, within four miles of the government seaplane base here.

### Court Will Test Validity Of F.C.A. Act

(C. P. by Guardian's Special Wire) OTTAWA, Nov. 7.—The Supreme Court of Canada will be asked to test the constitutionality of the Farmers' Creditors Arrangement Act, it was announced today by Minister of Justice Lapointe. It will be examined by the court in the same general reference as the reform bills and price spreads legislation. The Arrangement Act enabled debt-laden farmers to come to equitable terms with their creditors. Mortgagees have been reduced, interest charges lessened so farmers could shoulder the financial burden. The court reference followed several attacks on the legislation made in the courts. One was made in Hamilton, Ont., involving direct attacks on constitutionality. The British Columbia government threatened to attack the act in the courts some months ago but the Dominion took power to withdraw it from that province. Lord E. Johnston of Boston a judge of the Superior Court to fill the vacancy caused by the death of Justice Frederick MacLeod. Johnston, like MacLeod, is of Canadian extraction. The Governor yesterday appointed J. Arthur Baker, Republican member of the executive council, to the post. The Governor has authority, however, to withdraw an appointment before its required ratification by the executive council. The Baker appointment now is pending before that body.

German Government Will Take Steps To Prevent War Profiteering. (A. P. by Guardian's Special Wire) BERLIN, Nov. 7.—Germany, with an arms embargo already in effect against Italy and Ethiopia, announced today she would take steps to prevent war profiteering. "We are willing to halt extraordinary purchases of food-stuffs, but we hope to go on with normal trade," explained a foreign office spokesman. "Germany definitely will not act the part of a war profiteer in the Italo-Ethiopian conflict," said the government mouthpiece. Diplomatic Politische Korrespondenz. "Do so would be contrary to her declared policy, which is directed by a full sense of responsibility and by a desire for peace."

This policy was communicated to the League of Nations yesterday, by the German consul at Geneva. The foreign office spokesman said measures would be adopted to prevent speculation in foodstuffs. (The German decision was welcomed in Geneva, since it was feared the economic siege of Italy would be seriously weakened if she got boycott goods through the Reich.) "Germany" asserted the Diplomatic Politische Korrespondenz, "cannot permit herself to become the victim of direct or indirect reactions with which she has nothing to do and which lie beyond the sphere of her responsibilities."

"Germany must endeavor to keep her normal trade relations alive, and at the same time cover her domestic needs, but this does not detract from the principles laid down above. Germany sees no reason to subscribe to the Geneva proposals because she is no longer in the League."

### N.S. Girl Near Death In Mt'l.

(C. P. by Guardian's Special Wire) MONTREAL, Nov. 7.—Mary Nolan, 26-year-old graduate nurse of Glouce Bay, N. S., is in hospital here with fractured skull, and physicians said today there was little chance for recovery. The young woman was injured in a tumble from the third storey of Bleyry Street rooming house, the proprietress of which said she was unaware of Miss Nolan's presence in the house. Police said Miss Nolan, graduate of a New York hospital, apparently had gone into the home to rent a room and made her way upstairs when she found no one on the lower flats. Friends told police the nurse had left Montreal by bus for New York but had been refused admission at the border.

### Examination Of Murdered Girl's Body Asked

(C. P. by Guardian's Special Wire) TORONTO, Nov. 7.—Counsel for Harry O'Donnell, gasoline service station attendant charged with murdering Ruth Taylor, made formal application today for permission for defence medical experts to examine the body of the 20-year-old stenographer, beaten and criminally assaulted in an east end ravine late Monday night. ### POTATO PRICES SOVIET PARADES SHOW SHARP MILITARY INCREASE STRENGTH

(A. P. by Guardian's Special Wire) WASHINGTON, Nov. 7.—Looking over market reports that showed sharp price increases for potatoes during the past 30 days, agriculture adjustment administration officials said today they believed the proposed federal subsidy program to boost 1935 crop prices would be unnecessary. Market records show prices of one major commercial variety of potato have more than doubled and prices of another type almost doubled. Early freezing weather in western states where a heavy percentage of late potatoes are grown—combined with market reaction to preparations for compulsory potato production control next year—were cited as principal reasons for the price increase. The AAA reported today that the market price for F. O. B. Maine for potatoes of the Green Mountain variety, which was 50 cents per 100 pounds Sept. 30, was \$1.40 per 100 pounds on Nov. 6. The AAA subsidy program, announced Oct. 18, called for the "diversion for industrial uses of potatoes of the 1935 crop which may be threatened with waste because of low prices and glutted markets." Under the suggested plan, the AAA would have made payments to farmers of 25 cents for each 100 pounds of potatoes diverted into livestock feed, starch, potato flour or alcohol. Countries in which the Soviet regime brought opposition to proposals for loans to the U. S. S. R., Rosengoltz said, were gradually swinging to acceptance of the Soviet viewpoint. "Capitalist countries interested in the Soviet market and development of economic relations with the U. S. S. R. have begun to realize it is necessary to grant us long-term financial credits or loans," Rosengoltz declared. He stated that at the beginning of 1935 the Soviet foreign indebtedness was only 139,000,000 rubles, compared with 1,400,000,000 in 1931, and promised that by the end of 1935 it would be reduced to 100,000,000 or 120,000,000 rubles. He asserted 270,000,000 rubles in gold and other precious metals had been attracted to the government during the four-year operation of the "Torgsin" stores. These stores—which accept only precious metals and foreign currency in payment for choice clothing, groceries and other necessities—have practically served their purpose, Rosengoltz said, and will soon restrict their operations to dealings on the basis of money remittances from abroad.

### All In Day's Campaign

(A. P. by Guardian's Special Wire) LONDON, Nov. 7.—Sir Samuel Hoare, Foreign Secretary, whose every recent word has been carefully weighed in the chancelleries of Europe, drew a near blank today. The speaker who has packed the House of Commons appeared at a Chelsea hall to find only 26 constituents—24 of them women—awaiting his words. Undismayed, Sir Samuel sat down and turned the occasion into a "conversation" meeting. Lady Astor, speaking in another part of London in support of her son, William Astor, Conservative candidate in Fulham, East, was interrupted by a heckler. An elderly champion silenced the heckler by leading him from the hall. "Don't worry," commented the Viscountess, "I can manage this, it's like a Sunday School to me."

### Busy Day For Gov. General

(C. P. by Guardian's Special Wire) OTTAWA, Nov. 7.—Baron Tweedsmuir spent a busy day today, receiving Mr. Andre Cassulo, Apostolic Delegate to Canada, and Commodore Percy W. Nelles, chief of the naval staff, in the morning and attending a meeting of the Boy Scouts Association in the afternoon. The Governor General and Lady Tweedsmuir invited Major and Mrs. H. S. Fuller of Perth, Scotland, and Mr. and Mrs. E. C. Grant of Ottawa to lunch. They invited Sir Francis Flood, British High Commissioner to Canada, and Lady Flood to dinner.
