SEVENTEEN DAYS OF BATTLE AND STILL NO DECISION

SUMMERSIDE EXHIBITION WAS OPENED YESTERDAY

POSITION ON BATTLE LINE.

BATTLE FRONT, by way of Paris, Sept. 30.—This is the seventeenth day of continued hard fighting along 150 miles from the Somme to Metzelle, yet there is no definite indication that the battle is reaching a finish. There are, however, evidences that the Germans are retreating before forcible and sustained rushing from the Allied armies on the west front and the eastern wings, while in the centre, where the German heavy artillery is, the line remains almost stationary. It is generally conceded by French military men that an important move must soon be made by the Germans, who have found it impossible to stem the advance of the Allies. Though they have offered a staunch and most vigorous opposition they are losing thousands daily. German wings appear to be folding back on the centre, leaving the sole loop for escape in a backward movement by way of Bethel. German main supply base at Juniville is heavily protected by artillery, but appears to be in a precarious position. Should it fall the German armies in northern France will be in a bad way for retreating.

The line of battle was changed considerably since the beginning of actual contact between the two great armies, whose numbers and real positions it is not permitted to make public. The front now presents a sinuous shape, widening, looping inward and outward at various points, in a country which everywhere is wonderfully adapted to defence.

The commanders are husbanding their men's lives to the greatest possible extent by keeping them from frontal attacks on positions where the Germans are in advantageous situations, but whenever the plan of campaign necessitates direct attacks, the French and British soldiers go forward cheerfully with the utmost confidence in their leaders.

GERMAN ARMIES OVERWHELMED

LONDON, Sept. 30.—Despatches indicate that both German armies under Von Boehn and Von Kluck have practically been overwhelmed by Allies and are fighting to escape destruction.

ANTWERP, Sept. 30.—German activity is increasing. At some points their forces have been driven back in disorder.

MOVEMENT OF FORCES.

(Special to The Guardian)
PARIS, Sept. 30.—The Germans have been repulsed with heavy losses in the north-east where they attacked Tracy Lemont. Violent fighting occurred in Woivre District, where the French are advancing. There is a lull in the centre. The French have retaken St. Michael.

AUSTRIAN WARSHIP SUNK.

ROME, Sept. 30.—A report from Milan says an Austrian warship was sunk while trying to escape from Cattaro.

GERMAN WARSHIP WRECKED.

COPENHAGEN, Sept. 30.—Reports that a German warship has been wrecked in the North Sea are confirmed.

TSING TAO.

PEKING, Sept. 30.—The fall of Tsing Tao is imminent.

GALE IN THE NORTH SEA.

LONDON, Sept. 30.—The heaviest gale within living memory is sweeping over Denmark and the North Sea along the whole of the German coast, says the Copenhagen correspondent of the Daily News. Considerable damage has been done to property, continues the despatch. The German air manoeuvres over the neighborhood of Kiel have been abandoned. A telephone message from West Jutland says that a number of bodies of German sailors in uniform were washed ashore on Monday north of Esbjerg. Telegraphic communication has been considerably upset.

NO CONFIRMATION.

LONDON, Sept. 30.—Although the British Censor permitted transmission of the unofficial despatches stating that the German right wing had met with disaster, the Government Press Bureau refused to confirm them today, this statement was given out at 10.45 a. m. "The Press Bureau unable to confirm the report that German right wing has been broken and is being pushed back." Efforts to get explanation of the word "unable", whether meaning that no information had been received or whether in accordance with the rule that no report on fighting shall be issued until five days after it has taken place met with no success.

PRINCE OF BAVARIA CAPTURED.

LONDON, Sept. 30.—A correspondent of the Times at Nancy, France, telegraphing under date Sept. 26, gives an unconfirmed report that the French have retaken the St. Michael fortified encampment on Meuse, twenty miles southeast of Verdun; also that they have captured the Crown Prince of Bavaria at Commeny 14 miles north of Nancy. The correspondent adds that according to this report the Germans are assaulting Commeny with the object of setting the Prince free.

SITUATION SATISFACTORY.

PARIS, Sept. 30.—The following official communication was issued tonight: "General situation is satisfactory. There has been no change of any account on the front except to the south of Woivre, where we have occupied Leichprey and advanced as far as the slopes of Rupt-De-Mal."

FIERCE BATTLE IN EAST PRUSSIA.

LONDON, Sept. 30.—Despatch from Rome dated Tuesday says: A Petrograd message states that a fierce battle between the army of General Rannankamp and that of German general Von Hindenburg has been raging since Sunday morning along the front extending from Grodno to Druskenik on Niemur river. Four army corps have been engaged on both sides and the Russians are being constantly reinforced from Vienna. The Russians have already repulsed the Germans at several points.

GERMAN FLEET IN THE BALTIC.
LONDON, Sept. 30.—A despatch from Petrograd says: An unconfirmed telegram from Mitau, in Russian Baltic provinces, says German warships have appeared several times since the war began in waters off Windau a seaport of Russia in Courland on Baltic Sea. A large fleet with transports appeared on September 24, but soon disappeared in southerly direction. On Monday afternoon 18 German destroyers and a cruiser came fairly near the coast and sent two boats, making soundings near Blackhofen light-house, eleven miles south of Windau. Russian forts fired on boats which suffered some loss. German destroyers then fired on light-house and afterwards put out to sea.

THE WEATHER THE TEMPERATURE TIDE, MOON, ETC.

(Special to The Guardian)
TORONTO, October 1.—Maritime: Moderate westerly and northerly winds; fair and cool.

THE WEATHER.—Yesterday's weather was partly rainy, becoming fair in the afternoon, but always cool. The highest temperature recorded yesterday was 48 degrees above zero, the lowest the previous night being 35 degrees above. At 9 a. m. yesterday it was 43 degrees above; at 9 p. m., 37 degrees above.

The tide will be high this morning at 8.13 and tomorrow at 9.14, it will be high tonight at 9.27 and tomorrow at 10.04.

The sun sets this evening at 5.10 and tomorrow at 5.38; it rises tomorrow morning at 6 and Saturday at 6.01.

The moon rises tonight at 4.45. The first quarter of the moon was on Saturday, Sept. 26th, at 8.03 a. m. There will be a full moon on Sunday, October 4th, at 1.59 a. m.

OCTOBER—1st to 3rd, showery; 4th to 5th, damp; 6th to 7th, cloudy foggy; 8th to 10th, high winds; 11th to 12th, fair period; 13th to 14th, rising temperature; 15th to 16th, showery; 17th to 18th, thunder; 19th to 20th, high winds; 21st to 23rd, blustery; 24th to 25th, pleasant; 26th to 27th, smoky; fair; 28th to 29th, stormy; 30th to 31st, unsettled.

This naturally warrants the tremendous interest which Paris is giving to her subsequent prophecies that the German Emperor will be killed on September 24; that the French will enter Germany on October 29, and that the war will end on November 7.

PARIS, Sept. 28.—The famous Paris prophecies, Mme. de Thebes, added enormously to her reputation by the predictions in her almanac, published in January, that a European war would break out about the middle of the year, presided by a sensational trial; that the Pope would die soon after hostilities had begun, and that the Germans would get near Paris without taking it.

This naturally warrants the tremendous interest which Paris is giving to her subsequent prophecies that the German Emperor will be killed on September 24; that the French will enter Germany on October 29, and that the war will end on November 7.

ROME, Sept. 30.—Italy protested to Austria against sowing the Galatian coast with mines.

ROME, Sept. 30.—Factories manufacturing big guns are working night and day to finish a supply of modern cannon which has been ordered for the Italian army. The firms hope to be able to hasten the work by such an extent that the whole army will be provided with these cannon in a few weeks. An order has been issued to hasten preparations of supply of provisions and ammunition for the troops.

KURDS RISING.

PARIS, Sept. 30.—A despatch from Petrograd says that the Kurds excited by the Austrians have attacked Prussian population near frontier according to a despatch from Erzerum Turkish Armenia.

MONTENEGRINS VICTORIOUS.

LONDON, Sept. 30.—A despatch from Cetinje says that Montenegrins on Monday occupied all of enemy's entrenchments around Coradisa 29 miles southeast of Sarajevo and pursued Austrians who took to flight.

ROME, Sept. 30.—Another floating mine according to advices received here, has exploded near Rimini, Italy blowing up a fishing boat, killing nine of its crew and injuring a number of others.

FIGHTING IN THE EAST.
PETROGRAD, Sept. 30.—The Germans, repulsed in attempts to cross the Niemen, heavy fighting continues in Suwalki District. The Austrians have been repulsed at Dulik, Galicia. Fighting has been reported at Tarnow for 24 hours.

AMSTERDAM, Sept. 30.—The Austrians are sending fresh troops into north-eastern Hungary to stem the Russian advance.

FREING OF BRITISH TARS STIRS GERMANY.
LONDON, Sept. 30.—A despatch to the Reuter Telegram Company from Amsterdam says that the Cologne Gazette voices German indignation at the attitude of the Dutch in releasing the surviving sailors from the British cruisers Hogue, Cressy and Aboukir. It says: "No legal support for the attitude of the Netherlands Government can be found, either in the Geneva or The Hague conventions."

PARIS, Sept. 30.—French and British on the left wing have repulsed for days the attacks of the Germans along the Somme is credited in French military circles to the desire of the newly appointed German generals, who have taken the places of those removed by the German Emperor, to carry out some daring exploit.

One of the most furious German assaults turned upon the trenches occupied by British regiments, which, with admirable coolness, awaited the onslaughts of the line after line of Germans, mowing them with sustained rifle and machine gun fire and sometimes at the point of the bayonet, which did great execution.

The British, however, did not by any means bear the whole brunt of the fighting, for the French troops, including a division of the famous colonial infantry and the Turcos, as well as many battalions of French regulars and others composed of territorial troops, also face prolonged attacks, which were delivered with great fierceness and drove their adversaries off with unflinching success.

ITALY'S PROTEST.
LONDON, Sept. 30.—A despatch, Reuter Telegram Co., from Rome says Italy has made an urgent protest to the Austrian Government on account of the presence of floating mines on the coast. Italy asks that adequate measures be taken at once to guard against the recurrence of incidents which might be attended with loss of life as in the past.

ROME, Sept. 30.—An Italian torpedo boat is reported sunk by a mine in the Adriatic, near Venice. There is no confirmation of the report yet.

CROWN PRINCE OF BAVARIA PRISONER.
LONDON, Sept. 30.—The correspondent of the "Times" at Nancy, France, telegraphing under date of September 26 gives an unconfirmed report that the French have retaken St. Michael, fortified encampment on Meuse, twenty miles south-south-east of Verdun and also that they have captured the Prince of Bavaria at Commeny, 14 miles north of Nancy. The correspondent adds that according to the report, the Germans are assaulting Commeny with the object of setting the Prince free.

OFFICIAL BULLETIN.

PARIS, Sept. 30.—Official bulletin 11.15 to-night, says: "The general situation in the Aisne battle is most satisfactory. South of Woivre our troops have advanced and beaten the Germans back."

POSITION OF ARMIES

LONDON, September 30.—The Times publishes the following from its Paris correspondent, dated September 25, having been delayed by the censor. It analyzes the position of the armies on the bank of the Aisne and the fighting which took place in the valley of the Somme. The correspondent says: Movements hitherto concealed or hinted at now stand revealed. The frontal attack on the German position, between Oise and Argonne, now sinks to the background. One thing is certain, that is the German armies are in a position of gravest peril. The Allies succeeded in masterly fashion in threatening both flanks of the enemy simultaneously and the Germans were compelled to fight for life. They may succeed in extricating the force intact for they are still formidable in every way. To save themselves, however, it looks as if they can hardly maintain the centre in the present position and will have to retire to avoid annihilation. If unable to retire they will be beaten and it will be only the wreck of their forces which will reach the German border.

FRENCH CANADIAN REGIMENT

MONTREAL, September 30.—The proposal to form a French Canadian Regiment has been widened in scope until now it is believed a brigade of four regiments will be formed, every man and officer in it to be a French Canadian. It is expected Col. Joseph Landry will command it.

BERLIN BY NEW YEAR.

PETROGRAD, Sept. 30.—While necessarily all plans are closely guarded, the declaration is freely made here that the Russian army has entered Berlin by the first of January next.

The entire Russian active army is being moved. That part not required for the present operations is being placed in strategic locations where it can be used to fill the gaps in the active ranks as needed.

General Rannankamp, in his original report, says that he is closely pressing the Germans who are retreating probably because they have learned of the Russian successes in Galicia. In his report Rannankamp repeats the rumor that Emperor Wilhelm is now in personal charge of the German operations in the east.

SHOTS LANDED AT ZEPPELIN.

PETROGRAD, Sept. 29.—An interesting story circulating here concerns the recent destruction of a Zeppelin by Russian soldiers, which has been previously reported. It is told by passengers arriving in Lodz.

The German airship was manoeuvring over Sieradz, a town near the German border. It was immediately observed by the Russian troops; and by Russian soldiers, who had been previously reported. It is told by passengers arriving in Lodz.

The German airship was manoeuvring over Sieradz, a town near the German border. It was immediately observed by the Russian troops; and by Russian soldiers, who had been previously reported. It is told by passengers arriving in Lodz.

The firing continued uninterruptedly until at last the heavily damaged airship came to earth at a distance of about one verst from the place where it was attacked.

Among the crew of thirty were four officers, a mechanic, a photographer, an individual dressed in eccentric attire, and several engineers. The majority of the crew were unscratched. The airship was equipped with a number of bombs and other explosives, a large quantity of ammunition, photographic materials, plans, &c.

While the Russians were firing on it the Zeppelin threw down several bombs, one of which killed some horses and cows grazing in a pasture close by.

KILLED BY GERMAN BOMB
(Special to The Guardian.)
LONDON, September 30.—In a despatch from Antwerp a correspondent of Reuter says four wounded men and a woman were killed by a shell which pierced the roof of a hospital at Liere during the German bombardment.

SUMMERSIDE, Sept. 30.—Sunshine greeted the official opening of the Prince County exhibition at Summerside today, but the improvement of the weather—it rained heavily in the morning—came too late to allow the usually large crowd to come in from the surrounding districts. However, large crowds are expected to-morrow to witness the racing and great preparations are being made for their entertainment. The principal stores had their windows exceptionally well dressed, giving an index to the many lines of excellent goods carried within. Owing to lack of space at the exhibition grounds, Holman's Limited, did not display this year as usual but are putting on a special show at their store. Sinclair & Stewart are also ready for a large trade and in a very pretty window of furs are showing some live mink raised on an island ranch.

On the exhibition grounds the space is fully occupied. A fine showing is made of cattle, sheep, horses and swine. Mr. George Chilton, in judging the poultry, remarked on the excellence of this class and said that the showing which had been falling off for some years past, is this season superior in every way, and that the geese and turkeys are of an exceptionally large and well-formed variety. In the various horse classes, there is a better showing than last year and it is quite noticeable that the heavy draft horses are improving year by year. In cattle, the dairy breeds are well up to the fine standard of previous years, but there is a falling-off in beef cattle.

The sheep and pig classes are well-filled and well up to the average as regards quality.

In the main building the exhibits are perhaps in some cases smaller than in past years, but in quality they surpass all previous exhibits and are strong evidence of the fertility of the Prince County farms and the industry of the farmers.

The needle-work department is well-filled and there is much handsome work displayed by ladies from all over the county.

In the arts class, judged by Mrs. F. C. Morris, of Charlottetown, the entry was not large but the work was well done, showing much artistic ability. Among the exhibits deserving of special mention are several pastels from the gifted brush of Miss Noonan which were very favourably commented upon, but for which there was unfortunately no class. It is suggested that next year more classes in the arts department be opened.

The household department is very small, compared with former exhibitions and seed fairs, but in this class also the quality of the exhibit is exceptionally good. This department was judged by Mrs. Dunbrack and her assistant, Miss Hazel Sterns, of Souris.

The flower section, judged by Mr. George Chilton, was responsible for a handsome display of very choice blooms, the variety including quantities of gladioli, sweet peas, ferns, roses and nasturtiums.

The exhibits of fruit and vegetables are also much above the average.

The exhibition was formally opened at 3 o'clock by His Honour Lieutenant-Governor Rogers. The Association of Home Owners, presided, Professor Theodore Ross, Rev. J. A. McDonald, of Grand River, and Rev. Father McLean, of Summerside.

Honourable Mr. Wyatt referred with regret to the absence of Honourable Jas. A. McNeill and Honourable John Richards, who were both ill and unable to attend. The Premier, he said, had gone to Georgetown to open the Exhibition there, and Hon. Murdoch McKinnon had been asked to attend that exhibition also. Mr. Wyatt said the management of the exhibition is purely a farmers' exhibition, so far as the management was able to carry out the valuable suggestions of the farmers' institutes.

Several new prizes had been added which had not been in any previous prize list, and the management desired to make further additions to the list wherever such would be of benefit.

His Honour the Lieutenant-Governor spoke of the pleasure which it always gave him to attend this exhibition, Prince County being his home county. He commended the comparatively small attendance and stated that at the opening of the Alberton Exhibition on the previous day the audience had been at least four times as large. He regretted to see so few of the citizens of Summerside present at the opening, but he was gratified by the number and quality of the exhibits. He had attended all the County exhibitions of recent years, and he thought that Prince County outstripped them all. His Honour then made reference to the splendid crops throughout the province. We ought, he said, to be truly thankful that we live in this land of peace and plenty—a fact brought home to us more strongly at this time when such awful conditions prevail in Europe. Thanksgiving Day ought to be better kept this year than ever before. His Honour made an eloquent appeal on behalf of the products of Prince County, and he urged the Belgians as well as those bearing the burden of the Empire in these trying days. He concluded by heartily congratulating the ladies upon the beauty and merit of the domestic exhibit, including the fine horticultural show, and wished that the products of Prince County would continue in the future, as in the past, to hold the first place in the Dominion.

Professor Ross spoke of the lesson to be learned from the exhibition, and of the benefits derived from the competition which it encouraged. He expressed his pleasure at being again with them at this opening of Prince County Exhibition.

Rev. J. A. McDonald, of Grand River, spoke of the continued progress which was being made by the

County from year to year. The Exhibition this year, he said, showed Prince County to be the banner County for the province. The exports of Prince County were not only in excess of those of other counties but were of the highest order, and from year to year land was advancing in value.
