It Will Pay YOU to Purchase Inverness Coal

It is the cheapest in the end—because Inverness Screened Coal is clean perfectly screened coal. Inverness Screened coal burns to very fine, light ashes—is not sooty—when used stoves and pipes require less than one-quarter the amount of cleaning. It is the cheapest because it's all cool—clinkers and foreign mineral substances are unknown. If a big coal bin and a small ash pile interests you buy INVERNESS SCREENED COAL. dmwtfr.

S. S. CONVENTION.

Continued from page 1. with devotional services led by Rev. J. A. Westmoreland. The Field Secretary in presenting his annual report urged upon a systematic form of visitation as the best stimulus for creating a deepening interest in S. S. Work. The committee appointed at the morning session to enquire into the matter of finance presented their report and also the following recommendation: That this committee recommend the allotments remain as at present and that each school be notified of amount they are required to raise. This recommendation was adopted. The report of the finance committee was given by the Rev. W. N. Field, basing his remarks on the three words "Saved to serve." During his address he urged upon all district conventions the urgent need of electing active, energetic officers. This report was followed by an instructive talk by Rev. W. A. Brown, on an organized class for Bible instruction. The closing number of the program was an object lesson by Rev. W. A. Ross, which was very interesting and instructive. The meeting closed with singing and the benediction by the President.

A cow belonging to a well known tinsmith belonging to Summerside, strayed from her pasture a few evenings ago. No trace of her being found the next morning the owner and his son started to the country to look for her. Passing a field of a farmer, not far from town, the missing animal was discovered, as was thought by the owner, amongst a number of other cows belonging to this farmer. The owner of the lost cow started to find her up, and after nearly an hour's chase around the field without success he at last got them into a small enclosure near the barn and proceeded to pick out his own cow. The farmer's hired man, who had been watching the proceedings, called the attention of the farmer to the stranger who he thought wished to buy a cow. The farmer went over to the enclosure and inquired if the tinsmith wished to purchase a cow. The latter answered no, but had one here he would sell the farmer, to which the latter replied that he did not wish to purchase his own cow. A careful examination was then made of the cow with the result that the cow in question was not the missing animal. Before leaving the tinsmith wore the farmer to secrecy, but the owner of the lost cow has since been kept busy answering the question, "What about that cow?"

BEAVER FLOUR

combines the rich gluten of Manitoba Spring wheat and the lighter, but equally important, properties of Ontario Fall wheat. The two combined form a perfectly blended flour that makes bread light, white, nutritious and extremely palatable, while pastry made with Beaver Flour has a crisp, flaky texture that brings many a compliment to the cook. You don't need to be an expert in baking to attain the best results with BEAVER FLOUR. But if you are an expert, you will readily recognize its incomparable qualities. Your grocer has BEAVER FLOUR, and will recommend it. DEALERS—Write for prices on all Fats, Coarse Grains and Cereals. THE T. H. TAYLOR CO. Limited, CHATHAM, Ont. 108
