of glasses is a matter of considerable importance. The beneficial effect of one's glasses may be largely nullified by ill fitting mounts. We pay particular attention to the correct fitting of mounts, so that the full benefit of the lenses will be obtained. We supply the lenses of such shape and size as will be most becoming in each individual case. This is possible because we grind our own lenses and make them up in desired shape. Our methods of examination give best results. Try us. G. F. Hutchison. JEWELER AND OPTICIAN
