SUBMARINES STILL OFF U. S. COAST

Two More Vessels Have Fallen Victims and the Submarines are Still at Large. Claim to be Prepared to Remain on This Side Till August.

(Special to the Guardian.)
NEW YORK, June 6.—Two more vessels, a Norwegian steamship and one schooner, were added to the list of ships known to have been sunk by the German submarines which are raiding in American waters. The total now stands at 13, five steamers and eight schooners.
It is claimed on the authority of statements made by members of the submarine crew that the U-boats are provisioned for a six month's voyage and they purpose remaining on this side till August. It is known there are at least two U-boats in the fleet.

BRITAIN CONFIDENT U. S. WILL HANDLE U-BOATS

(Special to the Guardian.)
LONDON, June 6.—England is sure America can smash the U-boats and that the venture will not prove very profitable to the Germans. The Admiralty foresees these submarine raids Britain will keep peace with the new types of craft.

SAID FLEET OF U-BOATS IS COMING

NEW YORK, June 6.—Germany has established a permanent submarine blockade of the American coast and within a short time a fleet of U-boats capable of operating against every important Atlantic port will be here, according to the mate of the submarine U-151. The mate, who served five years as a boatswain in the United States navy, made this statement to Enoch Rocker, boatswain of the schooner Edna. After the Edna was destroyed Rocker and others of the crew were imprisoned in the submarine more than a week.
This German mate, who refused to tell his name, told Rocker that he had lived in New York eight years, and was engaged to a girl in Philadelphia,

whose photograph he showed. He said men for the submarine blockade of the United States coast are being drafted from among sailors formerly in the merchant marine, familiar with American ports. The present German blockade fleet left Kehl seven weeks ago, getting a tremendous send-off. Photographs of this celebration were displayed. The German also said:
"The submarines now on patrol carry six months' supplies, but expect to stay here one year by taking provisions and fuel from ships which are sunk. The voyage from Germany to this country was made by way of the West Indies within sight of the Bahamas (near where the collier Cyclops mysteriously disappeared) and up the coast near Cape Hatteras. U-boats in this patrol are 25 feet long and carry five inch guns. (This is a large type of German submarines than any known in the navy list and its number, 151, indicates it was recently built as U-100 is the highest listed.) The submarines at present off this coast are only an advance guard. Each has a crew of 35 men inclusive of officers. From his own observations while aboard the U-boat Rocker saw that the vessel carried tools marked U-153. The Germans took 10 days' supplies from the Edna, but the American prisoners were fed black bread, canned hash and very bad jam. One hundred cases of oil were removed from the Edna to the submarine. The Americans carried their photograph with them and traded pictures with the Germans who were willing to play anything except "My Country 'Tis of Thee." Officers of the submarine wore regulation navy uniforms but the crew wore leather jumpers. They carried souvenirs from the ships sunk, among them being the United States Flag from the Edna, which the German commander hauled down.

HOLD UP OF THE ENEMY IS NOW COMPLETE

Desperate Attempts by Germans to Advance into Allied Territory Have Everywhere Resulted in Complete Failure and Fearful Losses. They Admit the End of This Stage Has Been Reached But Declare They Have Another Surprise Coming.

(Special to the Guardian.)
LONDON, June 6.—The enemy's entire pressure appears to have turned. The Germans are making the greatest efforts to straighten the bulge in their lines occasioned by the determined resistance of the Allies which cannot be overcome.

ALL GERMAN EFFORTS TO ADVANCE FAIL.

(Special to the Guardian.)
PARIS, June 6.—All the efforts of the Germans to advance in the French sectors have been repelled, according to the War Office announcement tonight. Ground has been regained by the French and prisoners taken.
The text of the statement reads: "During the day the enemy multiplied at different points of the front his efforts to advance, but was everywhere repulsed, suffering serious losses. An attempt to cross the Oise near Montalagache completely failed."

BRITISH COUNTER-ATTACK RECOVERS ALL GROUND LOST.

"North of the Aisne our counter-attacks regained the entire ground which had been temporarily occupied near Vingre. We captured more than 150 prisoners and some machine guns.
"In the region of Longpont the Germans who had succeeded in making some progress in the underwood around Chavigny Farm were driven out, leaving in our hands about fifty prisoners.
"Everywhere else our positions were maintained."

BRITISH CAPTURE PRISONERS.

(Special to the Guardian.)
LONDON, June 6.—Field Marshal Haig's report from British headquarters tonight says:
"As a result of the raid attempted by the enemy early this morning in the neighborhood of Morlaucourt we captured 21 prisoners and three machine guns. Beyond the usual artillery activity on both sides there is nothing to report from the British front."

TWO NEWFOUNDLAND VESSELS SUNK

(Special to the Guardian.)
ST. JOHN'S Nfld., June 6.—The barque Attila and the schooner Ruth Hickman of this port have been torpedoed while on a passage from Gibraltar to this port, it was announced here tonight. The crews were saved. Both craft were salt laden.

LICENSE FOR SELLING ICE CREAM

(Special to the Guardian.)
OTTAWA, June 6.—Dealers must have license to sell ice-cream. Every dealer who handles it, in bulk or over counter, must pay for privilege.

FOUR MEN TRIED BY COURT MARTIAL

(Special to the Guardian.)
NIAGARA CAMP, June 6.—Four men were tried by court-martial in camp today. Pte. Harold Marshall Churchill, of the Machine Gun Corps, was charged with having offered violence to his superior officer, Sergeant W. M. Elliott. Also charged with having threatened Sgt. Elliott and having used obscene language. He pleaded not guilty.

TO BE INTERNED

(Special to the Guardian.)
MONTREAL, June 6.—Austrians and Germans in Montreal are being rounded up and sent to prison camp.

GREEK ATTACK WAS BIG SUCCESS

LONDON, June 5.—The successful Greek attack at Srka de Legon was the biggest success on the Macedonian front since the autumn of 1916, which culminated in the fall of Monastir, says a Reuter despatch from Saloniki dated Saturday. Up to Friday evening the prisoners counted totalled 1712. Officers captured by the Greeks did not conceal their admiration for the manner in which the attack was conceived and carried out against a position always regarded as impregnable.
The Greeks captured the enemy first and second lines, the second being on a level, if not actually dominating the third line. The first and second lines were powerfully organized with all modern contrivances.
The success improves the Allied position considerably on a difficult sector. Several Bulgarian counter-attacks were frustrated by the Allied barrage fire, which inflicted severe losses.

MEASURES TAKEN BY CANADIAN NAVY TO MEET MENACE

OTTAWA, June 5.—The Canadian naval authorities have taken adequate precautions to protect as far as possible Canadian Atlantic ports and shipping against the new submarine menace. As a matter of fact the arrival of German submarines of a new type on this side of the Atlantic has been anticipated for some time and port defences were strengthened and proper precautionary measures taken, the details of which cannot, of course, be divulged in the press. In regulations recently issued regarding the port of Sydney and published in the Canada Gazette, the following paragraph for instance devotes the anticipatory precautions taken:
"Masters of vessels are specially warned that it may become necessary in the event of an attack on the port being imminent to remove buoys or extinguish lights without notice, either by day or by night."
No vessels are allowed to enter the harbor without adhering strictly to all detailed regulations of the naval authorities.
There will be no successor to J. U. Vincent as deputy minister of inland revenue. With the absorption of the department by the customs portfolio the government has decided that there is no necessity for more than one deputy minister in the department. Mr. Vincent's exit has been tempered for him by granting him a year's leave of absence on salary.
Word has been received by the naval department from Vildjalmar Stefansson, the Arctic explorer to the effect that he expects to reach Victoria early this month. Stefansson recently returned from Fort Yukon, where he had gone from Herschel Island. On recovering from an attack of typhoid he and his party were ordered to return to civilization with their scientific collections and detailed reports of new discoveries made during their four years in the Arctic. Stefansson intimates that he will probably give a short lecture tour on his return.
The contribution of £1,000,000, voted by the British commons for the relief of the suffering caused by the Halifax disaster, has been received by the finance department. The colonial secretary, in forwarding the contribution, expresses the hope that Canada will accept the gift as a token of the most sincere sympathy of the Imperial government and its desire to share in the relief of the sufferers. The receipt of the money has been suitably acknowledged by the finance minister.

WHAT FINLAND IS TO GRANT TO GERMANY

LONDON, June 4.—A secret convention exists between Germany and Finland, which is kept secret from the Finnish government undertakers to establish a monarchy under a German dynasty and to place the Finnish army under German leadership according to a despatch to the Times from Stockholm quoting the Socialist newspaper Politiken, which has sources of information among the Independent Socialists in Germany.
Finland, it is added, agrees also not to cede the Aland Islands to Sweden and to allow Germany to use the islands for a naval base. Germany further will be permitted to use Finland as a passage way through to the Arctic ocean. Finland agrees to take effective measures to combat anarchy.
Germany will have the right to maintain a military force in Finland until all the conditions are carried out.

MOSCOW, June 4.—The Germans are building two temporary railways in northern Finland. One line runs eastward toward Kem on the Mourmansk railway in Russia and the other northward toward Petoenga Bay which is included in the strip of the Mourmansk region which Russia is preparing to cede to Finland. Construction work is easy as there are many small lakes which can be utilized.

NEWSPAPER SEIZED

MONTREAL, June 5.—Charged with contravention of the order-in-council of May 21st dealing with the press in relation to any statement or report prejudicial to recruiting, etc., of His Majesty's forces or in the operation of any act or order-in-council concerning national service, the federal authorities this afternoon closed the premises of "Le Bulletin," a French weekly newspaper, published by A. P. Higon, Limited of this city.
The printing plant was seized.

PEMBERTON-BILLING WINS LIBEL SUIT

LONDON, June 5.—Noel Pemberton-Billing, M. P., who has been on trial on a charge of libel preferred by Miss Majd Allan and J. T. Grien, manager of the Independent Theatre, was found not guilty today.
The judge in summing up frequently was interrupted by the defendant, who, after his own speech, took his place in the dock, and by Captain Harold Sherwin Spencer and Lord Alfred Douglas, two of the witnesses. Lord Douglas and Captain Spencer were removed from the court, the former calling the judge a liar. The judge also was hissed by friends in the gallery of the defendants.
The acquittal of Pemberton-Billing, publisher of the newspaper Vigilante, followed a trial which was marked by a series of sensational revelations relative to the power alleged to have been wielded over influential Englishmen and women by the German government whose agents had collected what purported to be data on immorality in England, and had placed it in a book which was said to be in possession of a certain German Prince.
Miss Maude Allan, an American dancer, figured in the case.

FRENCH CANADIAN BRIGADE FOR FRONT

Sir Robert Borden Will Submit to Imperial Authorities Complete Scheme For Forming and Maintaining French Brigade.

(Special to the Guardian.)
QUEBEC, June 6.—General Mewburn stated here today that Sir Robert Borden would take to England a complete scheme for the preparation of a French Canadian brigade. He further stated that the French Canadians would be grouped into a brigade, not only in England, but that they would be united at the front also.

He further stated that the French Canadians would be grouped into a brigade, not only in England, but that they would be united at the front also.

THE KING RELEASED MEN FOR WAR SERVICE

LONDON, June 6.—King George has put into effect a rule doing away with all men up to thirty-five years of age in the royal households. The king previously had released more than 550 men from the royal households for military service, of whom 55 have been killed and 75 wounded. The king's private room in Buckingham Palace has a "war service roll," giving particulars of the service of all soldiers drawn from the royal employ. The places of the men who are now to be withdrawn from the royal households will be largely filled by women.

THE PEOPLE OF ENGLAND GRATEFUL TO THE POPE

LONDON, June 5.—The Times, commenting on the enemy's bombardment of Paris on Good Friday, Easter Monday and Corpus Christi, when they hit a church, killing or wounding eighteen persons, and contrasting this with the British acquiescence in the request of the bishop of Cologne not to bomb Cologne during Corpus Christi day, says:
"The simple narration of these facts reveals the abyss that divides English and German conceptions of what the Vatican organ recently called respect towards religious convictions and rights attached to them. It indicates also what the Allied nations are inevitably tending to feel in regard to the hearing of the Vatican towards these incompatible conceptions."
"The British people are grateful for the human efforts of the Pope on behalf of their prisoners. They note, also, that the Vatican disclaims all part in and previous knowledge of the recent action of the Irish Roman Catholic bishops, but they are uncertain whether the Vatican is not neutral toward the high moral and religious issues underlying the war. In regard to which they regard neutrality as inadmissible, as they feel that this war is essentially a contest between right and wrong, between organized devilry and principles of Christian civilization."

ONLY THE FEDERAL AUTHORITIES CAN PREVENT A STRIKE

President of Commercial Telegraphers Says Men Will be Called Out
WASHINGTON, June 6.—Only intervention by the federal government can prevent a general strike of operators employed by the Western Union and Postal Telegraph Companies, S. J. Koenekamp, president of the Telegraphers' Union, said tonight before leaving for Chicago. Upon his arrival there he planned to mail out the call for a walk-out as a result of the refusal of the Western Union Company to submit to the jurisdiction of the National War Labor Board, which sought to compose differences between the companies and the men.
After many days spent here in discussing the situation with administration officials, members of congress and labor leaders, Mr. Koenekamp said he doubted that, even should the government decide to intervene, action could be taken in time to prevent the men from going out. He declined to estimate the number that might be involved.
Secretary Wilson, who discussed the situation with the union president, is understood to have laid the matter before the cabinet at its meeting today, but there was no indication that further steps were planned to prevent a strike.
Mr. Koenekamp said he had been assured by President Wilson, of the American Federation of Labor of his interest and sympathy, and of such assistance as the federation could lend an affiliated union. Mr. Gompers made no statement.

BRIG-GEN. ASQUITH RECEIVES APPOINTMENT

(Special to the Guardian.)
LONDON, June 6.—Brigadier-General Arthur M. Asquith has been appointed to be the Controller of the Trench Warfare Department of the Ministry of Munitions.
Brigadier-General Asquith has been wounded three times, the last time being followed by the loss of a foot.

TO "SET" DELICATE COLORS

Many persons know that it is wise to use delicate-colored cotton wiles, singhams and other washable fabrics into salt and water before washing them, in order to set the colors, so that they will not fade; but sometimes one wonders just what the proportions of salt and water should be used. It has been found that, by adding one pint of salt to two quarts of water—hot water—a satisfactory solution is prepared. If colored fabrics are put into this while it is hot and are allowed to soak a short time, it will be found that they may be washed without losing their color.—Christian Science Monitor.

AUSTRIAN TOWN SEVERELY BOMBED.

(Special to the Guardian.)
WITH THE ITALIAN ARMIES AT FRONT, June 6.—British airmen made a daylight raid on Austrian billets at Valdisia, which is located on a steep, narrow ground. Huts and traffic were bombed and several motor lorries were driven over the edge of the precipice.

GERMANS PREPARING SURPRISE FO RALLIES.

(Special to the Guardian.)
AMSTERDAM, June 6.—Fresh surprises are in store for the Allies, said the military writer of the Vossische Zeitung, according to a despatch received here today. "We have reached the end of one stage and must pause, owing to the arrival of French reserves, but the offensive will be continued."

ENTIRE GERMAN BATTALION WIPED OUT.

(Special to the Guardian.)
WITH THE FRENCH ARMIES ON THE MARNE, June 6.—An entire battalion of Germans was wiped out by French and American troops in the attack at Jaulgonne, a French official camp today. Pte. Harold Marshall the battalion were shot, captured or drowned when the bridge over the Marne was blown up.

HOW THE GERMANS WERE KNOCKED OUT AT THE MARNE

(Special to the Guardian.)
FRENCH HEADQUARTERS.—June 6.—Via Reuters Ottawa Agency.—The attempt of the Germans to cross the Marne River at Jaulgonne was more serious than appeared from first reports. The enemy threw 22 ladder foot bridges across the river. Four were destroyed by our gun fire. A Prussian battalion crossed on the remainder, two men abreast, and advanced immediately on the railway installing a machine at gun detachment at the station, the remainder spreading along the line behind the sheltering embankment.
At all costs we decided to throw the enemy back across the river and this was carried out on Sunday night by dismounted dragons supported by American machine gunners. The latter engaged in a duel with the Germans at the station enabled the French to work behind the enemy.
