Men, a comfortable face Cleaner, quicker shaves!

No man can avoid shaving, that is certain. But millions of men have learned how to avoid the unpleasant part.

Now we offer you the same opportunity they had—to find out how quicker, cleaner shaves may be had with an absence of skin irritation. It took us 18 months to perfect PALMOLIVE SHAVING CREAM for you. We made 130 laboratory experiments. But we produced a shaving cream that, in 5 distinct ways, makes shaving easier—and much quicker:

- It multiplies itself 250 times in a foamy mass of lather.
- It softens the most unruly beard in one minute—without "rubbing in."
- The lather will last for 10 minutes if necessary—rich, moist—on your face.
- Bubbles are extra strong. Cutting is cleaner, easier, because they hold each hair erect.
- After shaving, your skin is left cool, smooth, by the carefully blended palm and olive oils.

We know that a shave like this will delight you. That's why we stake our reputation to you in making this offer—an offer on which you cannot lose. Post the coupon today. Get your first 10 delightful shaves, free.

MEXICO CITY, Mexico, Sept. 5.—Between 25,000,000 and 40,000,000 hectares of federal land in Mexico are available for distribution among its citizens under a recent decree by President Alvaro Obregon. It is estimated, under the decree, it is provided that any Mexican over 18 years of age may take a homestead on national property. The land is reported available in 21 states of the republic.

—DIVERSIFIED CROPS GILMER, Texas, Sept. 4.—Failure of one crop doesn't discourage J. L. McKinney, Upshur County farmer. He diversifies 'em. Recently he drove into town with a truck load of farm products, the result of his system to frighten away the well-known wolf from his door. The load included: A big bale of cotton, 16 crates of Irish potatoes, worth \$3 a bushel; several boxes of green peas, three crates of fry ing chickens, one of guineas, three crates of eggs and nine pounds of butter.
