## New York Styles in Fall Millinery

Ladies who make a practice of visiting the largest of the Canadian and American cities will find the best of the new millinery ideas shown there, correctly mirrored here. Our head milliner, Miss Edith Wilson, is a designer of great ability and faultless taste and her work is delighting all. We cordially invite you to call and walk through our show rooms even if you do not want to buy—we offer you an assortment of designs such as usually, can be seen only in large cities stores—and not always there. Orders received early can be delivered this week.

## 44 inch All Wool Venetian 69 cents

This is surely one of the most remarkable values that we have ever been able to offer you—its emphatic excellence is best attested by the host of imitations offered. This fine smooth suiting cloth is 44 inches wide and is offered in three shades of navy, four shades of brown, two shades of green, cardinal, garnet, grey and of course black. In addition we also offer stripe effects in browns, greens and navy.

Frankly we do not think that this cloth can be equalled at anywhere near our price—and the enormous sales we are making seem to justify this conclusion. Compare it—comparison is the salesman who is getting us most of our business. **69c**

## Have you seen our Enormous show of Fall Coats ?

Many a store in cities three times the size of this would point with pride to a showing of fall coats much smaller than ours. In inviting you to look these handsome new garments over we may remind you that the larger proportion of the garments shown are not duplicated elsewhere, exclusive choice of the best there is, ensures our customers the last word in style and excellence.
