Optimistic Over Dosco Prospects

(C. P. By Guardian's Special Wire) SYDNEY, N. S., July 31.—The position of the Dominion Steel and Coal Corporation is better than it has been for some time in the past, President Sir Newton Moore announced today at a complimentary luncheon tendered distinguished visitors participating in Sydney's centennial celebration. "We look forward to finishing 1935 with about the same coal output as in 1934—approximately 5,000,000 tons," he said, "and we hope we shall be able to accomplish about the same output of steel as in 1934."

—COUNTY COURT—The August sittings of the County Court, Judge Imman presiding, are as follows: August 6th; Court Hill, 13th; Abrams Village, 16th; Summerside, 23rd, S.

—ATTENDING CONVENTION OF CHRISTIAN CHURCH—Rev. Garylie Waterworth, Mrs. Waterworth and members of the Central Christian Church, Summerside, are attending the annual Island Convention of Christian Churches which opens today at Murray Harbour, S.

—VISITING ISLAND—Mr. C. B. Jelly, principal of the Summerside High School, has returned from Sackville, N. B., where he was attending the summer school. He was accompanied by Professor and Mrs. Stanley Rivers of Northern Ontario. They visited Cavendish and Rustico and were delighted with the Island scenery, S.

—FUNERAL OF IRVING CLARK—The funeral services for Irving Clark were held on Tuesday afternoon at his late residence at Wilmot Valley. Friends from far and near came to pay their last respects to a dear friend. Rev. J. W. A. Nicholson conducted the service and spoke kind words of sympathy to the bereaved. The choir of North Bedouque United Church rendered very sweetly the following hymns: "Nearer My God to Thee," "There is no Night in Heaven," and "Lead Kindly Light." Mrs. Clark MacQuarrie was at the organ. There were many lovely floral tributes bearing silent sympathy to the bereaved. The pallbearers were Messrs. Wyman Clark, Edward Casely, Albert Clark, Harry Curtis, Fred Clark and Horace Huestis. Interment was in the cemetery at Wilmot, S.

—DEACONESS HONOURED—At the evening session of the W. M. S. District Rally held at Alberton on Tuesday, Miss Alice Gordon, R.N., Missionary Designate to work among the new Canadians in the hospital at Ethelbert, Manitoba, was tendered a farewell. The service was in charge of Mrs. (Rev.) L. W. Parker of West Cape. Miss Gordon gave a short address on her work. Short addresses were delivered by Rev. George Christie of Alberton and Rev. L. E. G. Davies of Summerside. A presentation from the Alberton W. A. of which Mrs. Gordon was formerly a member was made by the president, Mrs. Carl Weeks. Mrs. Lucy Gordon, Miss Gordon's mother, was presented with a lovely bouquet of flowers. The regular business of the Society was conducted in the afternoon. The rally was a great success and there was a very large attendance, S.

—PERSONALS—Miss George MacLean has returned from Windsor, N. S., S.

—Mrs. D. J. Coffee of Boston, Mass., is visiting her sister, Mrs. J. M. Noonan, of Summerside, S.

—Miss Emma MacInnis of Moncton is the guest of Mrs. John Murray of Summerside, S.

—Miss Alberta MacFarlane of New York arrived in Summerside on Tuesday to visit her mother, Mrs. Nathan MacFarlane, S.

—Mr. and Mrs. Charles Alexander, Miss Bernice Alexander and

Wood - Edwards Nuptials

A quiet but pretty wedding took place on Wednesday evening July 10th when Ella Jeanette Edwards, R.N. eldest daughter of Mr. and Mrs. Chester Edwards, Hampshire became the bride of Wendell William Wood only son of Mr. and Mrs. Lincoln Wood, Central Royalty. Rev. H. Pierce, B.A. of Charlottetown performed the ceremony.

The bride given in marriage by her father looked charming dressed in a gown of white lace and net with contrasting veil caught with orange blossom and carrying a large bouquet of Ophelia Roses. To the strains of the wedding march played by Miss Mary Edwards, sister of the bride, she took her place beneath an arch on the lawn beautifully decorated with Mock Orange Blossom, roses and a large white bell.

Following the ceremony a wedding supper was served at which the immediate relatives of the bridal party were in attendance. Those assisting in serving were Miss Bernice Match, R.N., Miss Ruth Wood and Mrs. H. L. Sanderson.

The high esteem in which this couple are held was fully evidenced in the array of numerous and costly gifts including money and substantial cheques from the parents of the bride and groom.

After being serenaded by a numerous group of friends from the surrounding communities, the happy couple left by motor on an extended honeymoon trip to the New England States. The bride travelling in a blue swaggar suit with white accessories.

The Guardian joins with a host of friends in extending congratulations.

BRITAIN, FRANCE

(Continued from Page 1)

such a mandate has yet been made to the Ethiopian Government. The lack of a proposal is mentioned in the denial issued by Foreign Minister Ballaten Ghelba Heroyu.

MINERAL MONOPY DECREED

ROME, July 31.—(AP)—Benito Mussolini's seized control of Italy's metal and fuel imports, Il Popolo D'Italia, reports. It demands for "total" solution of Rome's quarrel with Addis Ababa.

"The only judge is Italy," Il Popolo said in an editorial believed to be from Il Duce's own pen. The problem was "not one of treating with Geneva, without Geneva or against Geneva."

An official spokesman, meanwhile, denied reports received at Geneva, where the League of Nations Council met to consider the African crisis, that 15,000 Italian soldiers sent to east Africa were ill of dysentery.

royal decrees issued today marked another phase of Italy's intensive preparation.

One gave the Government full monopoly, under two main bureaus, of coal, coke and their by-products and of copper, tin, nickel, sheet and other needed metals. The other empowered the Government to requisition shipping for troop transport, this being retroactive.

(Copyright 1935 by the Associated Press)

ADDIS ABABA, Ethiopia, July 31.—Emperor Haile Selassie's Government—hoping for peace with Italy but keeping its powder dry—told the world in ringing language today Ethiopia's independence was not for sale or barter.

A foreign office communique declaring this nation would refuse outright an Italian or an international mandate appeared as the Emperor met his supreme chiefs, the kings of the hinterlands over whom the king of kings reigns, in secret session.

CLOSE SECURITY

Almost unparalleled secrecy surrounded the meeting, held in the great courtyard of the palace. Informed quarters, however, said they believed the chiefs assembled to discuss preparations for possible hostilities.

The foreign office communique was emphatic in declaring Ethiopia had received no proposal involving partial or total surrender of her independence. Any such suggestion would be rejected forthwith, it said, adding:

"No amount of prosperity under foreign domination would compensate for the loss of independence."

The chiefs, unannounced, streamed into the capital from their mountain, desert and jungle strongholds, picturesquely garbed in bright-hued robes, lion skins and weird native adornments. Pierce bodyguards kept onlookers at safe distances.

A great tent of state had been erected in the centre of the palace courtyard where the Emperor received the men upon whom he must depend if Ethiopia and Italy come to blows. It was believed the meeting's first action was to pledge unity in defence of Ethiopia. Approval of the foreign office statement was understood to have followed.

Reports from the provinces indicated the populace, aroused by the Emperor's recent fiery speech before parliament, had resorted to the weapons they understand best. Hundreds of thousands of natives were said to be sharpening spears, fixing axeheads on shafts, oiling rusty rifles and generally preparing to sell their lives dearly if peace efforts fail.

Mr. Robt. White, of Lawrencetown, N.S., motored to the Island Monday and are the guests of Mr. and Mrs. Irving Mutiart, Carleton.

LARGE CROWD VIEWS S' SIDE YACHT RACE

Summerside's first yacht race for many years was called Wednesday afternoon on a four mile triangular course inside the harbor. A stiff southerly wind was blowing and the competing boats sal'd reefed. Lawrence Gerlevsen's Agatha, and Roy Sherry's Noreen, sailed by the owners and Willard Leonard, sailed by Nick Carter and Bill Cullow of Borden, were entered in the race. Mr. C. W. Ramsay who intended to sail the Swan in this race had the misfortune to lose his centre'ard just before the start.

Agatha, Owned By Lawrence Gerlevsen, Winner of Events.

A large crowd watched the race from the Railroad wharf and the committee boat The Venture was loaded with enthusiastic spectators. The thanks of the owners go to Capt. Straight for his valuable assistance and the use of the Bedouque ferry as committee boat. And to Capt. J. S. Allen who very capably acted as judge and starter. The Agatha finished first and North Wind second in a closely contested race. The Noreen swamped on the first leg of the course. This is the first of a series of five races for a trophy which is expected to be donated by interested parties in Summerside. The next race is scheduled for Summerside, Wednesday afternoon, Aug. 7th.

The Agatha was first over the starting line with the Northwind right at her heels, and the Noreen about three boat lengths behind.

In a perfect start, Down the first leg of the triangle with the wind side on all three boats held their positions and nobody gained or lost an inch, until Roy Sherry had the misfortune to swamp the Noreen. The crew were rescued by the committee boat. Agatha and Northwind rounded the first buoy together and began the beat to windward to the second buoy.

Northland passed Agatha on first tack and both boats sailed tack for tack with Agatha about three boat lengths behind.

On the last beat towards the island Agatha sailed further in before tacking thus going to windward of Northwind and standing in closer to the buoy. It jockeyed around the buoy Northwind attempting to cut off Agatha from the turn, was carried below the buoy by the tide and forced to make another tack to clear.

This gave Agatha about three hundred yards lead which she held for the run before the third buoy. Agatha's time for course was 48 1-2 minutes, 2 1-2 minutes faster than Northwind—S.

HEPBURN

(Continued from Page 1)

ected. Mr. Parker added, however, reasonable times would be allowed to get work. Little disposition was evident in the eight provinces to follow Ontario in another relief innovation announced by Premier Hepburn—return of administration to the municipalities.

Prepare to Leave Camp

TORONTO, July 31.—Ontario's single jobless today spent their last day in municipal hostels and prepared for a farmward trek tomorrow or wondered just what they would do.

Under the Ontario government regulations effective tomorrow and lasting at least until the harvest season is ended, able-bodied single men in hostels, estimated as high as 15,000 for the province, will receive no more relief.

In Toronto, where approximately 1,000 men will be affected, Mayor James Simpson took issue with Premier Mitchell F. Hepburn and declared he had been unable to find where the city's unemployed could find work.

Promises Survey

Premier Hepburn, studying a report on the situation, did not indicate how many farm jobs he believed were open, but after declaring Mayor Simpson "is wrong" in that few farm jobs are available promised a complete survey to show what farm labor was required in the province.

The Premier indicated there would be no machinery set up to guide single unemployed to farm jobs.

"There has been too much paternalism," he said, "These men will have to go out and find jobs for themselves."

Mayor Simpson said of 25 telegrams sent to labor bureaus throughout the province he had received 21 replies. He said 11 superintendents refused to divulge information, referring him to H. C. Hudson, general superintendent of employment service for Canada. Eight replies said there were no farm jobs open. One reply stated there were three applications on hand, and the other that there was one. Both indicated the positions would be filled immediately.

CROP REPORT

General

While crops, generally, in the Prairie Provinces are making rapid growth, the outlook is less favourable than it was a week ago, owing to the possibility of extensive damage from rust in Manitoba and some sections of Saskatchewan. Rains would be welcome over large areas of Saskatchewan and southern Alberta, but otherwise moisture conditions are satisfactory. In Quebec crops as a whole present a good appearance and the outlook is considered satisfactory. In Ontario the warm weather of the past week has been beneficial and crops generally have been making good progress. In the Maritime Provinces progress is doing well. In British Columbia the prevailing hot weather has helped the crops and in most districts moisture conditions are satisfactory. Details follow:

Prairie Provinces

ALBERTA—Crops generally have been improved by recent warm weather and conditions as a whole are satisfactory, although back-eastern areas and crops have suffered also are some coarse grains. In southern areas non-irrigated crops are poor and ranges are drying up. Sugar beets are making good progress. SASKATCHEWAN—Wheat is heading rapidly and except in western sections, where drought has caused irreparable damage, a fair to heavy stand is indicated. Coarse grains show satisfactory progress. Rust is prevalent in southern and eastern areas and crops have suffered from hail and grasshoppers in some sections. MANITOBA—Rust infection has spread extensively in central and southern areas and serious damage to the wheat crop is being done. Coarse grains continue promising, although barley and oat crops show signs of rust in some sections. Moisture is ample.

Province of Quebec

Recent rains and warmer weather in the lower St. Lawrence and Lake St. John districts have been beneficial to all grain and root crops, which, though late, continue to make satisfactory progress. The cutting of an average hay crop is now under way in the Eastern Townships the crop is heavy and of good quality. Small fruits generally are plentiful. Oats and other grains look well. Fodder corn shows improvement. Potatoes and other roots continue to make satisfactory growth. Indications are that the yield of apples, especially the late varieties, will be below average. Tobacco continues to progress satisfactorily. Pastures are in better than average condition.

Province of Ontario

An average crop of fall wheat is indicated; cutting is indicated; cutting is now in progress. Barley and oats are maturing rapidly, and cutting should commence next week. The hay crop is a heavy one, but the quality is uneven, owing to wet weather which has made curing difficult. Corn and roots continue to make satisfactory progress. Raspberries and small fruits are abundant.

Maritime Provinces

In the Provinces of New Brunswick and Nova Scotia grains promise well, while the hay crop, now being harvested, will be well up to average. Pasture is good. Growth of potatoes and other roots is generally satisfactory. The outlook for a good apple crop is bright; small fruits are promising. Grain crops in Prince Edward Island continue to progress satisfactorily; pastures remain in good condition. Haying is now general; it is expected that the crop will be below normal. Root crops are progressing steadily.

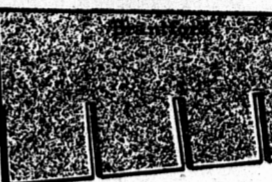

Province of British Columbia

Grain is heading and indications are for a good average crop. The hay crop, in both yield and quality, is below average. Roots are doing well. The marketing of good quality berries is at its peak; the yield is below average. The June drop of tree fruits was fairly heavy. The following yields are now indicated: apples, 85% of average; peaches, 90%; apricots and plums, 60%; prunes, 75%. Pasture on the mainland is fair to good, and water for irrigation is plentiful.

SAFETY that firemen recommend

A fireman is unbiased in his opinion of building products, and when he acclaims Brantford Carrite shingles he is speaking frankly and for your safety. With fire protection, these incomparable shingles offer you desirable "extras"—A reduction in fire insurance premiums - beauty - durability - greater economy and an increased saving through an all-Maritime manufacture. Brantford Carrite asphalt shingles give you every modern structural feature,—and more! Your local dealer invites you to see Brantford Carrite all-Maritime products and gain full information about them.

Labor Dept. Probes Quebec Dock Troubles

(C. P. By Guardian's Special Wire)

QUEBEC, July 31.—Dock troubles which have developed at the port among union longshoremen and non-union workers has been taken up with the Department of Labor at Ottawa for settlement, it was learned from Col. J. S. O'Meara, Chairman of the Quebec Harbor Commission today. The trouble arose yesterday when the unloading of the schooner Sifonia was begun by members of the local union.

Officials of the longshoremen's union opposed the manoeuvre and work stopped. But when similar operations were carried out later, aboard another schooner, the Zenon C. The union men appeared again with the demand they be given the work. A dispute arose between the opposing workmen and several were cuffed about until police arrived.

The Harbor Commission members were appealed to in the case with the result that a request was telegraphed to the Labor Department at Ottawa asking that an adjutor from the Department be sent here to smooth over the difficulty.

TENSION GROWS

(Continued from Page 1)

Malcontents over the political outlook are old party members who have failed to get jobs. Nazi underlings whose rise has not been fast enough to suit them and outright, if secret, opponents of the Nazi regime.

The government's strategy appears to have two aspects: 1. By turning the rising discontent against the Jews, "political catholicism," the steel helmet veterans organization and student fraternities, it lets restive followers blow off steam and diverts attention from other matters.

2. By recognizing and accepting the campaign of repression, it destroys in advance the body which might be alienated by the disgruntled.

BRITAIN GETS OVER HALF OF TOYS FROM FOREIGN COUNTRIES

Santa Claus gets over half of his toys for British children from foreign countries. Germany ranks first, followed by Japan, France and the United States, according to the Industrial Department of the Canadian National Railways. Canada has just recently entered the market with dolls. The more expensive toys are of British manufacture. The buying season for toys in Great Britain is from January to June.

Make the GREATER WIDTH Test
The Roadflight Tread is definitely wider than any tire at the same price, and equally as wide as more expensive tires of comparative size. Measurements prove it is wider than most non-skid road grip, more traction, more braking surface—a safer, longer wearing tire.

Make the DEEPER TREAD Test
Stand a card in the tread pattern as shown. Mark the depth. Likewise test other tires of same size and price. All other treads are too shallow to come up to the mark—proof positive that the Roadflight Tread is deeper, safer—good for more miles.

"PERKY"
Friendly little Gutta Percha Thoroughbred identifies Gutta Percha Service. Look for him in the GP dealers' windows.

See THIS SENSATIONAL NEW TIRE BEFORE YOU BUY ANY OTHER

THE NEW ROADFLIGHT TIRE

(MADE BY GUTTA PERCHA)

has a wider, deeper tread, more rubber, stronger sidewalls, amazingly tough new tread rubber, new non-skid grip—without doubt, the greatest tire value in Canada today. See it before you buy any other tire.
