THE MORNING GUARDIAN.

TUESDAY JULY, 22, 1902.

CANADA'S BOOMING TRADE.

The cheering announcement is made from Ottawa that the volume of Canada's import and export trade for the year which closed 30th June last passed the four hundred million mark, the actual figures being $414,517,358. The increase over the previous year was $36,826,633, and that year was also a record breaker.

In 1869 the volume of Canadian trade was in round figures 130 millions. By rapid increases it reached 217 millions in 1873, but it fell off sadly in the years following; and it was not till 1882 that this maximum was regained. In 1883 it reached 230 millions and again fell away, this figure being the maximum till 1892, when 241 millions was reached. In the year following the 247 million mark was attained and this proved to be the highest of the Conservative. Again there was a falling off and in 1896 the total was 239 millions.

Since the new Administration came in trade has boomed in a quite remarkable way, as has also been the case in many other countries. In 1897 the added imports and exports were over 257 millions; in 1898, 304 millions; in 1899, 321 millions; in 1900, 381 million; in 1901, 377 millions and in the year just closed 414 millions. Thus the volume of our trade for the past year was more than three times what it was in 1869, and more than twice as great as it was in 1839. It is 175 millions greater than it was in 1896 an increase which was at that date quite beyond all reasonable expectations. Our trade per head with outside countries is now 75 dollars, which is more remarkable from the fact that the great bulk of of our population is far inland. Only a few countries can compare with the people of Canada. Even our enterprising and progressive neighbors of the United States have not one half so great a trade with outside countries in proportion to them population as has Canada. These facts cannot be too strongly impressed upon our own people, many of whom are only beginning to learn how great a heritage we have and how promising is the outlook for our great Dominion.

In proportion to population New Zealand sent more troops to the South African war than Britain did.

The Medinische Woche, a German paper of high authority publishes an article by Prof. Rossman in which he denies that there has been any actual increase in the number of cancer cases, the official reports to the contrary notwithstanding. He affirms that the figures quoted in statistics are simply the result of the fact that the means of detecting the dread disease have been greatly improved. Prof. Rossman says there has been no actual increase in cancer cases for some decades past, and he adds that is a mistaken notion that women are much more subject to this disease than men, the actual members of both sexes who are from time to time afflicted being approximately equal.

Contrary to the expectations of many and the predictions of not a few, while greatly to the joy and satisfaction of his millions of loyal subjects, King Edward is surprising all by rapidly regaining his health and strength. His excellent progress has been a surprise even to his physicians, and indicates that His Majesty possesses a stronger physical constitution and greater recuperative powers than had been supposed.

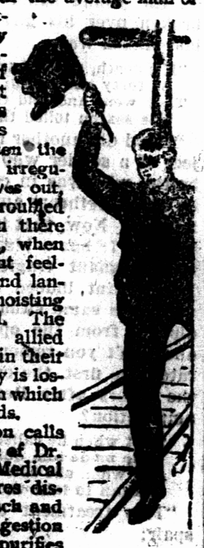
The Ottawa Citizen gives the following pleasant bit of gossip about Sir Wilfrid and Lady Laurier. It appears that a personally conducted literary pilgrimage has been arranged for Sir Wilfrid Laurier on his way to Paris. Sir Gilbert Parker will take him through the Channel Islands and give him a week's holiday in Jersey and Guernsey, where he can see historic places and ascertain whether the Quebec patois is readily understood by the French islanders who are as loyal as himself to the British crown. The journey is in fulfilment of a plan made eighteen months ago. Lady Laurier and Lady Parker will accompany the premier and the novelist." It is quite safe to say that whether the Jersey and Guernsey folk can or can not understand the Quebec patois they will be very glad to meet the distinguished Canadians of kindred blood, equally with themselves attached to the British flag and government.

THE COTTON TRADE.

LONDON, July 17.—The Daily Mail prints a telegram from Mr. Theodore Price, of New York, asking it to deny emphatically the statement it published yesterday morning concerning his action in cotton. He says that so far as he is concerned he believes the old crop of cotton is selling for all it is worth. The prospect of the new crop is one of unexampled brilliancy.

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not understand, but he would take no chances. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.



Such a condition calls for the prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"Your kindness to me I can never forget," writes Mrs. Josie R. Clark, of Enterprise, Shelby Co., Mo. "I cannot express half my feelings of gratefulness to you. I had despaired of ever getting well. I had been in bad health for twelve years. Had aches all through me, numb hands, cold feet, and everything I ate distressed me; bowels constipated, was very nervous, depressed and despondent. In fact, I can't express half my bad feelings to you. When I first wrote to you I thought I could never be cured. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

If constipated use Dr. Pierce's Pleasant Pellets. They cure constipation, biliousness and sick headache. They do not produce the "pill habit."

Ch'town Business College

—AND—

WRITING ACADEMY

CH'TOWN, P. E. I.

This College will re-open for the fall and winter course on

Thursday, August 14, Prox.

Intending students will consult their own interests by entering as soon as possible after the date of opening. Last year we were most successful in placing our students in positions. To enable us to do the same this year they MUST enter early in the session. There are lots of splendid positions waiting for competent persons to fill.

Business men are acquainted with our course and method of instruction and apply to us for competent young men and women. Come and get a live education; one with some backbone in it. If, perchance, you have made a mistake in the past, try an education in which you will be rewarded as you exert yourself. The past is gone, the future is yours. A special course in Shorthand and Typewriting will be given as soon as the term begins. "Phonography, What it is and What it Does," by Ben Pitman; also full particulars relative to the College will be cheerfully furnished on application to

L. B. Miller, Principal.
