**Will Be Allowed To Increase Army**

(Canadian Press)  
PARIS, April 20.—The Bulgarian Government has asked the Allied Council of Ambassadors for permission to add ten thousand men to its militia request followed by the recent disorders attributed to Communist agitators, including the attack on King Boris and the bombing of the cathedral in Sofia with a loss of 160 lives. The request is based on assertions that voluntary military service presented by Bulgaria by the Treaty of Neuilly has furnished a full quota allowed the army and that insurrectional elements count on military weakness of the country in plans to overthrow the Government by force. Prospects are according to diplomatic circles that the Ambassadors will grant the request, though the increase will probably be limited to 7,000 men.

**CH'TOWN ORCHESTRAL SOCIETY GIVES SPLENDID RECITAL**

Mr. Robert Messervy in Support Fenders Very Pleasing Selections.—Program By Orchestra is Broadcast.—Governor, Premier, Mayor and Large Audience Present.

The third annual recital of the Charlottetown Orchestral Society, held in Prince of Wales College Hall last evening was one of the main events in Charlottetown's musical history. As was anticipated there was an almost unique attendance and practically every chair in the Hall was occupied.

At 8.15 promptly, His Honor Lieutenant Governor Hertz, Premier Stewart and party arrived and were conducted to their seats. The Orchestra then rendered the National Anthem.

Without any further delay the programme was then commenced with the rendition by the Orchestra of Sousa's "The Thunderer" followed by "The Spanish Patrol" (Cobani).

Mr. Robert B. Messervy, one of Canada's foremost baritone, and a native of Charlottetown was assisting and he opened his offerings with "The Sailor's Grave" (Sullivan). His rendition of this number was a pronounced success. He followed this with "Young Tom O'Devon" (Russell) and "Passing By" (Purcell) each of which was splendidly rendered and received warm applause.

"A Bunch of Shamrocks" (Sereby) was a very pleasing arrangement of all the most popular and beautiful Irish Melodies and the rendition by the Orchestra of this number evoked continuous applause.

Woodford's "Less Than the Dust" and "Kasimri Song" were sung by Mr. Messervy with wonderful effect and brought the first part of the programme to a close. There was an intermission of five minutes after which the programme was resumed.

Part Two of the programme was opened with Supper Overture "Poet and Peasant" and the manner in which the orchestra played it made it one of the biggest hits of the evening. In this part of the programme there were four numbers by the Orchestra and five by Mr. Messervy. The orchestral selections were all of a first class nature and the applause which marked each offering was very pronounced.

Mr. Messervy's offerings were varied and highly interesting and his hearers were charmed beyond measure.

**SAVE THE FORESTS**

"Behold, How Great a Matter a Little Fire Kindleth!"—This is Save The Forest Week.

This is "Save the Forest Week." By proclamation of the Governor-General, the period April 19 to 25 is declared the week of this year in which the attention of all citizens of Canada must be focussed upon the "Tragedy of the Forests." The person who sets a torch to his neighbor's home is guilty of one of the most despicable crimes in the Code. And the person who deliberately or negligently spreads flame and disaster in our forests is guilty of a crime quite as despicable and a thousand times more deadly. Of this person a writer on forest topics says:

"Our problem is not a fire-hunt, but a man-hunt; before the fire it is possible, but in no case abandoned until he is eliminated. Not fire but the owner of the hand that lights it, is the public's enemy. In his heart, and that of his wife and child and neighbor, and of the officer of the law and the judge on the bench, and of editor, legislator, and man on the street there must be the knowledge that his hand has been set against Society as surely as that of the pervers, the killer and the thief."

"No excuse alters the fact of this. He may plead thoughtlessness instead of depravity, but this does not compensate his victims. In the degree that they are more numerous, that his carelessness strikes more homes, it is a greater crime. As a rule, it is more than carelessness, it violates the law."

How sane human beings can go deliberately into our forests and there, through carelessness—if nothing worse,—send roaring through vast stretches a furnace of flames, wastes the comprehension of the average citizen. Statistics show that ninety per cent. of all the fires reported in this Dominion are man-caused fires. There are many causes, but one of the greatest fire-menaces today is the menace of the careless camper, the careless, ruin the forests and the country's natural well-being.

**BRAZEN FALSEHOOD UTTERED BY PREM. VENIOT IN THE LEGISLATURE IS NAILED**

Hon. L. A. Taschereau Stamps as "Absolutely Incorrect" the Statement Made By Veniot in Reference to the N. B. Hydro Bill in the Quebec Legislature.

MONTREAL, April 20.—That he did not use the words ascribed to him in a statement reported to have been made by Hon. P. J. Veniot, Premier of New Brunswick, in the Legislature at Fredericton, N. B. in connection with the Quebec bill authorizing the Grand Falls hydro development in such part as authorization by the local government was necessary and that he had not seen Premier Veniot in connection with that bill, is the denial made by Premier L. A. Taschereau of Quebec.

Premier Veniot was reported as having said, in the New Brunswick Legislature on Thursday, that he wished to express the thanks of New Brunswick to Premier Taschereau of Quebec. When a fight was being made to block the bill to give New Brunswick storage and other rights in Quebec, Hon. Mr. Veniot was quoted as saying Premier Taschereau had given him this assurance "Quebec will stand by New Brunswick, even if I have to lash the party whip on the last member of the supporters of the Government."

"This is absolutely incorrect," said Mr. Taschereau yesterday when seen at the local government offices. "I never saw Premier Veniot in regard to the bill in question, nor did I ever give him any assurance whatever that the bill would be passed."

The bill introduced into the Quebec Legislature at the last session by E. Thoriault, M. L. A., for legislation, as a private measure covered the development of Grand Falls by the New Brunswick Government Commission and it was passed after considerable debate. A provision of the bill was that the New Brunswick Commission must keep at the disposal of the Quebec Government an amount of 5,000 horsepower delivery at the provincial border, in the event that such power was needed in this province.

This power is to be held for three years and the prices to be charged in the event the Quebec Government makes it will be the same as charged in New Brunswick under similar circumstances. The development affects Temiscouata County, Quebec.

**Destructive Fire In Glace Bay**

(Canadian Press)  
GLACE BAY, N. S., April 20.—A fire which broke out in the Maritime Labor Herald Office after 4.30 o'clock this morning completely destroyed one printing plant and caused damage to extent of \$1,000 to the adjoining building owned by D. H. MacKay and kept the firemen busy in keeping the nearby buildings from catching. At the height of the blaze the roof of the Brunswick building about 100 yards distant caught fire and was burning briskly when discovered. It was with difficulty that the firemen extinguished two fires which were burning on different parts of the roof. The Labor Herald office is situated in the Dominion Coal Company General Headquarters.

**Fine Type of Settlers Arrive From Europe**

The British immigrants among them were a very fine type of people. The brightness of cleanliness of the children were specially noticed as they filed into the building.

The outboard ship was the White Star Dominion liner Canada sailing for Liverpool. She took a number of Halifax-born passengers in her passenger list. The White Star liner Doric, Captain S. Bolton, R. D. R. N. R. arrived in port Saturday afternoon from Liverpool via Queenstown and docked at Pier Two to land 30 cabin and 251 third class passengers, 39 bags mail and 41 packages of cargo. The steamer encountered rough weather the first three days, the trip being otherwise uneventful.

There were 11 families under the British Empire Land Settlement, one being that of J. Chamberlain and wife with their 11 children ranging in age from 17 years to 11 months, en route to Elora Ontario. Other families were of two, four, five and six children, en route to Ontario and Western points. The Salvation Army also had a party of fifty on board in charge of Adjutant Dray, of Toronto, comprising 15 boys 6 domestics and the rest farm laborers for Ontario and West.

**Plans To Establish Telephone Connection With Canada in Oct.**

LONDON, April 20.—By October, it is believed, that Britain will be in direct wireless telephone communication with Canada, Australia and South Africa. This is the somewhat startling announcement made this morning by the Morning Post which says that this communication will be established through the Marconi station which will be erected at North Peterson near Bridgewater. At first the station will be used purely for experimental work but officials who are cognizant with all the details of recent departments are confident that development of commercial telephones between these countries will be rapid and that the regular interchange of voices across the Atlantic is now only a matter of months. It is predicted that by next fall Canada will be able to speak directly to Australia.
